Plant Sudan Grass and Have Hay This Winter

There is still a chance for our Michigan farmers who have had a short crop of Clover Hay to fall in. It is better to grow Millet and Sudan Grass than to depend on buying high priced hay through the winter.

Sudan grass can be planted until the last of July. It makes very pay-able hay. A good weather grant. Seed about 15 pounds to the acre, which makes cost not over 50 cents per acre.
