What's Doing

Big-Roader

What About It?

It is little more than a ten-year-old, but it is said that this is the first all-electric school bus ever built. To the writer, it was an impressive sight to see. It was a sight that the most pessimistic student might find hard to believe.

The building is quite large, and the seating arrangements are such that the children can face each other. The seats are made of red leather, and they are arranged in rows of four. The windows are large and bright, and they provide a fine view of the countryside outside.

The school bus is powered by electricity, and it is said that it can travel as far as 20 miles on a single charge. It is also said that it is very quiet, and it has no exhaust fumes. The children can read and do their homework while they travel, and they can also play games and listen to music.

The school bus is driven by a professional driver, who is also a teacher. He is responsible for teaching the children about the operation of the bus, and he also helps them with their studies.

The school bus is a valuable asset to the community, and it is much appreciated by the parents. It is a step forward in the development of modern education, and it is a reminder of the progress that has been made in the field of technology.

The school bus is now in regular service, and it is meeting with great success. The children are happy, and the parents are pleased. It is a wonderful example of what can be accomplished when the right kind of leadership is available.

Six Great Problems Now Before Michigan Farmers

They Must Be Answered
Only Farmers Can Do It.

What About These Six Problems?
1. The Country School?
2. The Country Church?
3. Selective Production?
4. Co-operative Marketing?
5. The Agricultural Fair?
6. Public Improvement?

Who Wants These Questions Answered?
The Farmer's Wife
His Children
His Neighbors
His Country

Problems Can't Be Solved This Way?

No

These Questions Can Be Answered
Organized Farmers Must Think Them Through
Organized Farmers Must Work Out the Answer
They Must Start at These Things Now
They Must Work With Neighboring Spirit
They Must Stick to the Job

Luxuries of Life Come Easy If We All Help

None of the Good Things in Life Are Beyond Our Reach

BY MRS. KENNETH W. WAGNER

Chairman, Farm Bureau Home and Family Work

Farm Bureau is in the fight for greater efficiency, better service, more cultural and social activities, and a better way of living for men, women, and children. It is a fight for a better life for all. The way to better living is not hard to find; it lies in the things we do every day. There is no need to wait for tomorrow; we can begin today.

The Coming Generation
As our leaders, we must plan for the coming generation. It is the responsibility of the present generation to prepare the way for the future generation. We must make the world a better place for our children to live in. We must prepare them for the future.

FM. A. Davis presided at the rally. Com­

desires to show how the Farm Bureau can aid in their solution.

CALL TO ARMS IS SOUNDED AT BYRON

Farmers Warned to Organize
Or March at Tail of Procession

Rosedale July 24.—A call to arms among the organization men of Shiawassee County was sounded today at Kalamazoo as part of a campaign to stamp out the spread of the mildew and anthracnose; two of the most destructive diseases in Michigan, by organizing the farmers of the southern counties into a single organization for the purpose of working together for the benefit of all. 

That the 10 per cent cut in the assessed valuations of Shiawassee County, director at large; EARL C. McCARTY, Bad Axe, Huron County, director at large. (Inset) W. H. MOLNAR, Burton, director at large.

Ionia Farm Bureau Meetings

Ionia Farm Bureau meetings will be held on the third Thursday afternoon of each month at the Home Extension Training School at Ionia, Michigan. 

Iota 

W. W. BISHQUAN

W. W. Bishquan, President of the Ionia Farm Bureau, which is one of the strongest and most progressive in the State, announced today that a meeting of the Board of Directors of the bureau will be held at the Home Extension Training School at Ionia, Michigan, on the third Thursday afternoon of each month.

Red Show Flies Foreign Seed Is Cause of Tremendous Losses

To complicate matters still further, the farmer who unwittingly through the mail order system of the United States, sends for seed from points south of the equator, is not only sending the wrong kind of seed, but also sending the wrong kind of plant. 

In the southern sections of the United States, there is a great demand for seed of the northern origin. The demand is so great that the farmer who sends for seed from the Southern states, is not only sending the wrong kind of seed, but also sending the wrong kind of plant.

An Assurance Of Quality Seed

To avoid this lost wealth, the Michigan Farm Bureau has taken on the task of overseeing the spreading of the mildew and anthracnose. 

Certified seed is the only way to prevent the spread of these destructive diseases.

Certified seed is the only way to prevent the spread of these destructive diseases. 

Why Farmers Produce Co. Chose Milkmaker

When the Farmers' Produce Company of Kalamazoo came to settle on a dairy feed that would give its membership the best return for their money, the shop chose Milkmaker during the last two years for its produce company.

Michigan Farm Bureau Brands of Alfalfa and Clover Seeds

The Michigan Farm Bureau Brands of Alfalfa and Clover Seeds have contributed largely to increasing the Michigan acreage from 79,000 acres in 1919 to 429,000 acres today.

Adapted seed doesn't withstand the test of time. Plant it this year and you will get a good crop next year. A lot of seed is put forth each year that is not adapted to Michigan's climate. 

The Michigan Farm Bureau Federation, through Lake Superior headquarters, is giving farmers the word that the Michigan Farm Bureau Brands of Alfalfa and Clover Seeds are the best in the market.

They are the only seeds that are thoroughly tested and proved.
