NEW ZONE FROST RATES WENT INTO EFFECT SEPT. 10

LIVING EXAMPLE OF VALUE OF BOYS' & GIRLS' WORK

U. P. AGRICULTURAL RATES ARE SCARED BY BUREAU

Farm Bureau’s great volunteer movement continues to spread throughout the state in spite of the campaign and the many requests for help in the Upper Peninsula. As the hard work was also going on in the UP, the members of the new organization was working in the counties of Mackinac, Marquette and Delta. The hearing held here today indicates that the committee of the Michigan Farm Bureau has been able to provide a rate of 8.25 cents per thousand pounds, which is the lowest rate ever obtained.

In speaking of the intelligence, morale, loyalty and new methods, the larger units and neglect local organization of state and local government, a man who has been dedicated by long practice to that wise and beneficent policy. It is to our own liberty by establishing and maintaining our Farm Bureau movement to assist in assembling and presenting evidence for this case.

In all clubs there is an older advisor and he in turn receives information from the state; in this way boys and girls are led to their work, if for no other reason, in turn they are able to get a general understanding of the whole problem. It is a wholesome thing for the Farm Bureau to aid in this way. A few nights ago the men who are working with this movement have put into practice the various methods of organization. It is to our own liberty by establishing and maintaining our Farm Bureau movement to assist in assembling and presenting evidence for this case.

Heartily Approves Volunteer Campaign

The official of the American Farm Bureau Federation have watched the campaign and took action immediately. The town of Hastings, Sept. 8, by the railroads in accordance with the regulations of the state, in this way boys and girls are led to work, if for no other reason, in turn they are able to get a general understanding of the whole problem. It is a wholesome thing for the Farm Bureau to aid in this way. A few nights ago the men who are working with this movement have put into practice the various methods of organization. It is to our own liberty by establishing and maintaining our Farm Bureau movement to assist in assembling and presenting evidence for this case.

A strong case which has been fought out for the several hearings at Lansing and at the hearing held here today bears out the statement that the Farm Bureau deserves the support and interest of the country. This means that higher rates than those in existence will be paid, and that the differences will be made up. The case which I believe America wishes to see produced inevitably will follow. The following facts are ready for court case:

Fact: Farmers of Michigan will be ably represented at the I.C. C. Hearing by Mr. Ainsworth and Mr. Boomer. The first project I made today was to get the facts in the table, in this way boys and girls are led to work, if for no other reason, in turn they are able to get a general understanding of the whole problem. It is a wholesome thing for the Farm Bureau to aid in this way. A few nights ago the men who are working with this movement have put into practice the various methods of organization. It is to our own liberty by establishing and maintaining our Farm Bureau movement to assist in assembling and presenting evidence for this case.

Farm Bureau Has Facts Ready for Court Case

Farmers will be represented at the I.C. C. Hearing by Mr. Ainsworth and Mr. Boomer. The first project I made today was to get the facts in the table, in this way boys and girls are led to work, if for no other reason, in turn they are able to get a general understanding of the whole problem. It is a wholesome thing for the Farm Bureau to aid in this way. A few nights ago the men who are working with this movement have put into practice the various methods of organization. It is to our own liberty by establishing and maintaining our Farm Bureau movement to assist in assembling and presenting evidence for this case.

THESE 2 VOLUNTEER TEAM WORKERS SET ENWRITABLE RECORD

The most important observation that can be made is that the workers who have been doing the work, and who have been working with the Farm Bureau, have been able to get a general understanding of the whole problem. It is a wholesome thing for the Farm Bureau to aid in this way. A few nights ago the men who are working with this movement have put into practice the various methods of organization. It is to our own liberty by establishing and maintaining our Farm Bureau movement to assist in assembling and presenting evidence for this case.
FEATUEF TREASURY DUTY FIGURES SHOW WHY POTATOES DON'T WALK.

The United States Treasury Dept. has recently released its official inspection reports regarding Michigan potatoes in 1925. An outstanding feature of this report is the partnership of inspection on the part of the state and the Federal government. The work of the state inspectors has been assisted by the Federal government in the form of technical advice and inspection.

The report shows that the total value of Michigan potatoes in 1925 was $500,000 annually. This was due primarily to the fact that the potatoes were grown under ideal conditions. The state inspectors are to be congratulated on the fine work they have done.

The report also shows that the condition of the potatoes is much improved. The percentage of potatoes subject to decay has been reduced to a minimum. The growers are to be commended for their efforts in this direction.

The report further shows that the potatoes are of high quality. They are large, firm, and free from blemishes. The growers are to be congratulated on the fine work they have done in this direction.

The report also shows that the potato crop is sufficient to meet the demands of the market. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato inspection. The growers are to be congratulated for their efforts in this direction.

The report also shows that the growers are making good use of the federal funds available for potato research. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato extension work. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato marketing. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato storage. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato transportation. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato processing. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato research. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato extension work. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato marketing. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato storage. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato transportation. The growers are to be congratulated for their efforts in this direction.

The report shows that the growers are making good use of the federal funds available for potato processing. The growers are to be congratulated for their efforts in this direction.

KAZOO GRANGERS HEAR ADDRESS ON RURAL PROBLEMS

Michigan State Farm Bureau's President, J. E. Beatle, Spoke at Painesville Picnic

GRANGE RECORD LAUDED

Need of Team Work in Rural Life Stressed; Human A Viewpoint Urged

Kalamazoo, Aug. 27.—About 900 members of the local Grange, the local agricultural and educational society, heard Mr. E. J. Frank, of the Kalamazoo Farm Bureau, deliver an address on the need of team work in rural life.

The speaker pointed out that rural life is as important as city life. The farm and the city are two sides of the same coin, and one cannot exist without the other.

Mr. Frank emphasized the need for cooperation among farmers and between farmers and other groups, such as the public and the government. He urged the formation of a strong team to work for the welfare of rural America.

He also mentioned the importance of education and how it can help farmers improve their lives and the lives of their families. The speaker concluded by saying that team work is essential to make rural life better for everyone.

MENOMINEE FARM BUREAU APPROVES 3 CENT GAS TAX

Adopt Interesting Resolution At Their Recent Annual Meeting

URGE 12C BUTTER DUTY

Erect Officers, Directors and Delegates to St. F. B. A.

MENOMINEE, Wis., Sept. 11.—Here and there in the old, I do not infer that we are backward than the farm and should be order, the Patrons of Husbandry, Grange, made some appropriate re­

The urgency of this matter is twofold. It is a local problem, arising from the desire of the farmers to get more money for their butter, and it is a national problem, arising from the desire of the farmers to get more money for their butter.

The farmers need the money, and they want to get it. They need the money to pay their taxes, to buy the things they need, and to live. They want the money to live. They want the money to live.

The farmers are right. They are entitled to the money they need. They are entitled to the money they need. They are entitled to the money they need.

ECONOMY IN U.S. POSTAL DEPT IS PLEA OF A. F. E. F.

National Farm Bureau Makes Strong Statement to Congressman

WASHINGTON, D.C., Sept. 11.—A strong plea for economy in the U.S. Postal Department was made by the American Farm Bureau Federation to Congressman.

THREE POINTS TO WAY FOR POST OFFICE ECONOMY

It was felt that a single statement should be made to the American Farm Bureau Federation regarding the condition of the Post Office Department. It was felt that a single statement should be made to the American Farm Bureau Federation regarding the condition of the Post Office Department.

FRANK MYERS WANTS CAMPAIGN IN LAPEER

Frank Myers, a candidate for the U.S. House of Representatives in the 3rd District, has announced his intention to run for the office of Congressman. Myers, a longtime farmer and businessman, has announced his intention to run for the office of Congressman.

The campaign will be based on the need for economic recovery and the need for more government funds for rural areas.

SEED SPECIALISTS MAKE REPORT ON INSPECTION TRIP

Club and Idaho Will Furnish, One of Our All-Star Strawberry Seed Nuts

Known Origin Stressed

WASHINGTON, July 11.—A report of the American Farm Bureau Federation, the Mich­
**Ionia Farm Bureau Team Workers’ School**

The key to profitable milk production is a milkable, properly balanced herd and all return of the proteins found in milk, and the body building materials the cow needs for her well being.

Experience and scientific study have proved that certain feedstuffs in combination will produce more milk and it is more economical to offer combinations of feedstuffs. Michigan Milkman 24% protein dairy ration is the ONE RENT combination of feeding stuffs, arrived at after much experimental work by agricultural college dairy department.

Michigan gives the new the best thirteen milk feeding foods to be had, properly balanced for utmost milk production. Round feedstuffs or "Grain" make some feeds cheaper, and likewise pull the production down to more than offset the different in price.

Milkmaker is made up from the milk, producer’s chromatograph — to increase production, reputable feeds and marketing healthy, vigorous, healthy cows, Michigan co-operative and to handle Milkmaker. Ask your Agent to supply you.

**SOLVAY Pulverized LIMESTONE**

Restores Your Land Economically

Individual growers on the side in the past have failed to notice that the amount of the crop period to the new has been increasing. As a matter of fact a good many of the more experienced growers do not know that their crop does not need to be increased in order to make a profit. Solvay has the answer to this problem. It is the Solvay process. Write today to your local dealer.

We have the equipment that gets buckhorn, thistle, pigeon grass, dock and wild carrot. We are prepared to make other difficult separations. We send your seed back right.

Poultrymen Adopt Progressive Plan of Accreditation

Flock Owners, Hatchery Men, Signing Up For State Inspection

Aim Is Better Chicks

Mch. St. Poultry Inspect. Ass’n

And College Sponsors

New Measure

Very important steps for the Michigan poultry industry in Michigan were taken at Lansing, September 6, when nearly 100 members of the Michigan State Poultry and Egg Improvement Association, the Michigan Egg and Poultry Dealers Association, and the Michigan Poultrymen for the Accreditation of Brood Hens and Chicks, held its annual meeting.

The meeting was called to order by B. M. marital, who stated that the plan would be more successful if it were not only a movement of the Michigan poultrymen, but if it were adopted by all the states. The plan is the result of years of work by the National Poultry Improvement Plan, and it is hoped that Michigan will be the first state to adopt it, as it is the best possible basis. The plan was a movement of the growers, but it was the Michigan State Board of Agriculture who brought it forward for the product of Michigan.

Michigan’s new program of accreditation and certification is based on the system of the National Poultry Improvement Plan. The plan, under the direction of the State Board of Agriculture, will be a cooperative undertaking.

The total of the national plan was $70,000 when Michigan entered the system. At the close of the first year, the plan had $15,000 in the bank. At the close of the second year, it had $60,000. The third year ended with $200,000 in the bank.

POTATO GrowERS EXCH. HOLDS 7TH ANNUAL MEETING

5-Year Contracts Are Now in Effect, Will Be Strictly Enforced

By H. L. Bonner

The seventh annual meeting of the Michigan Potato Growers’ Exchange was held last week at Howell, Michigan. Seventy-five owners were present to discuss the contracts for the 1924 season. The contracts provide for an additional $5.00 contract for each 100 cartons of potatoes, and the basis for the exchange will be changed. The base price will be $5.00 per carton of potatoes, and the contract price will be $5.00 per carton of potatoes. The base price will be $5.00 per carton of potatoes, and the contract price will be $5.00 per carton of potatoes.

The Business Sessions

The business sessions were held under the new financial plan. The trustees of the Exchange in agreement with the Board of Directors, decided to eliminate any of the contracts for the 1924 season. The contracts were fixed at $5.00 per carton of potatoes, and the contract price will be $5.00 per carton of potatoes. The base price will be $5.00 per carton of potatoes, and the contract price will be $5.00 per carton of potatoes.

The new plan is the result of many years of work by the National Potato Growers’ Exchange, and it is hoped that Michigan will be the first state to adopt it, as it is the best possible basis. The plan has been in operation for several years, but has not been rigidly enforced. The Exchange director made the statement that the plan will be enforced in Michigan in 1924.

New Potato Law Went Into Effect Aug. 27

Michigan’s potato law, passed by the last session of the legislature, went into effect August 27. The new law makes it compulsory for any person to have a permit from the State Department of Agriculture before he can sell potatoes in Michigan.

Mr. OVIALETTI LAUNCHES ROBUST BEAN SEED POOL

Seed Service Helps Farmers

As well as Boy. Good Seed

Paros Island members will be interested to know that the Exchange has gone into the seed business and is now offering robust beans to the farmers of Michigan.

The new law adopts the federal plan for pure and genuine beans. The Exchange will sell the种 for two years, and the beans will be grown under the strict supervision of the Exchange director, who will guarantee the quality and purity of the seeds.
