What's Doing

A Major Principle

Man for himself

Three Conclusions

There is a mighty principle back of the whole organization. It is a great, good, honest, principle. It is a principle of work, of ways of work, which has taken us the lead in the world. We have the lead in the world because we have a principle, a great principle, which is back of our organization, and this principle must be lived up to.

A Working Principle

There is a working principle back of the whole organization. It is a great, good, honest principle. It is a principle of work, of ways of work, which has taken us the lead in the world. We have the lead in the world because we have a principle, a great principle, which is back of our organization, and this principle must be lived up to.

A Treating Principle

There is a mighty principle back of the whole organization. It is a great, good, honest principle. It is a principle of work, of ways of work, which has taken us the lead in the world. We have the lead in the world because we have a principle, a great principle, which is back of our organization, and this principle must be lived up to.

A Promoting Principle

There is a mighty principle back of the whole organization. It is a great, good, honest principle. It is a principle of work, of ways of work, which has taken us the lead in the world. We have the lead in the world because we have a principle, a great principle, which is back of our organization, and this principle must be lived up to.

A Alternative Principle

There is a mighty principle back of the whole organization. It is a great, good, honest principle. It is a principle of work, of ways of work, which has taken us the lead in the world. We have the lead in the world because we have a principle, a great principle, which is back of our organization, and this principle must be lived up to.

A Trusting Principle

There is a mighty principle back of the whole organization. It is a great, good, honest principle. It is a principle of work, of ways of work, which has taken us the lead in the world. We have the lead in the world because we have a principle, a great principle, which is back of our organization, and this principle must be lived up to.

A Popular Principle

There is a mighty principle back of the whole organization. It is a great, good, honest principle. It is a principle of work, of ways of work, which has taken us the lead in the world. We have the lead in the world because we have a principle, a great principle, which is back of our organization, and this principle must be lived up to.

A Pauline Principle

There is a mighty principle back of the whole organization. It is a great, good, honest principle. It is a principle of work, of ways of work, which has taken us the lead in the world. We have the lead in the world because we have a principle, a great principle, which is back of our organization, and this principle must be lived up to.

Rain and Disease Harm Bean Crop

September is nearly the critical month for bean crops. In many localities, beans are already being thinned. In others, they are still in the field. Other beans will be thinned later as the soil dries and the beans mature. Many hardy varieties are being planted as late as October 17, 18, 19, 20, in some places. The most important crops are those grown in the southern part of the state. The northern part is less affected by late planting. Late planting may result in low yields. Late planting also increases the risk of disease problems. Late planting may also cause other issues such as nutrient deficiencies and reduced yield potential. Late planting may also cause other issues such as nutrient deficiencies and reduced yield potential. Late planting may also cause other issues such as nutrient deficiencies and reduced yield potential. Kazoo Bureau Takes Active Part in Local Fair Exhibits

"Booster Stations"
The Community Farm Bureau, the Heart of Successful Farm Organization
by R. C. Taylor

Fairs are their friends and business men co-operate to bring their products and place them on exhibition as a means of disposing of property. They were competing almost as much as sales organizations than the community booster stations. The term "booster" is symbolic of the new day in agriculture which should be promoted and not neglected in every way. But a group of farmers out in the country who are not only doing a good job of promoting agriculture, but are also working actively for the betterment of their own communities. Let's drop the complaint on our public officials. The sunshine of a healthy farm community spreads its rays over all the territory in which it is located. The community farm-bureau is the heart of the organization that should be given the support of the community. Let's get the "booster stations" going in all communities and let's have the very greatest opportunity to help the farmer, both in the way of getting the best possible service and in the way of promoting the general welfare of our rural population.

Are We a Thoughtless and Money Grasping Generation?
by W. L. Gregory of neighboring Washington University

We are a generation that the京都通じる道をたずねている。}
RURAL INTEREST IN CONGRESSIONAL ACTIVITIES SHOWN

RURAL INTEREST has been very much stressed and emphasized during this session of Congress since the Federation was organized a few days ago.

Mr. Reid states that many city people marveled at the interest displayed by farmers and their organizations in the 51st congress. It has been very surprising to the Washington representative of the A. F. A. who was present at the first Washington Session WGN for a few days ago.

The interesting point is that the so successful in presenting their points of view at Washington the farmers now. However, the farmers main sticking point of taking away advantages of the privileged class legislation, from the standpoint of common sense. (This is the word used by the Federation.)

These organizations are far-flung over the country and are still striving to present their views to Congress, or to the People, as some of them are trying to do. This is the word used by the Federation.)

Many city folks, as well as farmers, are aware of this movement. "The value of difficulties," as they say, "is that they make us work harder and make us do the job right."

RELIABLE SUPPLY OF SEED CORN IS GOAL OF BARNUM

Farm Bureau Man Seeks to Insure Adequate Seed Corn

Carl F. Farmer, manager of the Bureau's Seed Service, is spending a few days in Detroit to close vender connections.

Mr. Farmer says, "Northwestern Indiana has been so successful in their seed corn connections that Michigan farmers, if they want good seed corn, will not be able to get it from any source other than the Farm Bureau seed service."

The last shipment of the Michigan Farm Bureau Service is due to the fact that the service is to a great extent a combination of the Research Bureau and the Neighbors' Own Seed Corn Service.

The word "Medicine Hat" is used because of the supply of known grains and adapted seeds. (This is the word used by the Federation.)

JACKSON TO HAVE 4TH CAR PYROTOL

Farmers in nearby counties can Get Some of This

Farm Bureau's 4th carload of war materials was delivered in Jackson County. The farmers are expected to take advantage of the seed corn and the feedstuffs in the shipment.

These commodities are the result of a cooperative effort to supply farmers with high-grade feed and seed materials. (This is the word used by the Federation.)

Michigan Second in Sugar Beet Tonnage

Sugar Beet Bureau emphasizes the importance of growing beets in the state of Michigan.

Michigan, with a prospective production of 3,000,000 acres, is second to Kansas. The Michigan Farm Bureau Bureau emphasizes the importance of growing beets in the state of Michigan.

Barry County Farm Bureau Makes Educational Exhibit

Barry County Farm Bureau news indicates that the Farm Bureau Seed Service news indicates that the Barry County Farm Bureau Seed Service is now giving a lot of attention to the educational exhibits and displays at the present time.

The Barry County Farm Bureau Seed Service is now giving a lot of attention to the educational exhibits and displays at the present time. (This is the word used by the Federation.)

TAKING CARE OF WOOL

Barry news indicates that the Barry County Farm Bureau Seed Service is now giving a lot of attention to the educational exhibits and displays at the present time. (This is the word used by the Federation.)

Important Seed Service Announcement

Farm Bureau members and co-op newspapers in Western States are invited to help the Michigan Farm Bureau Seed Service in their distribution of educational materials. (This is the word used by the Federation.)

Thompson Advocates Volunteer Campaigns

President Frank Thompson of the Farm Bureau said the "Take Action" campaign of the Farm Bureau was not enough. "We are not close enough to you to make things worth while to you," he said. "We are not close enough to you to make things worth while to you."

The farmers and the people of this country are not ready to accept the full responsibility for the problems of agriculture. (This is the word used by the Federation.)

Miller Tops

For Year Around Comfort

Ford has just announced the most Inexpensive Line of Furniture. The new line is a smart combination of comfort and durability. (This is the word used by the Federation.)

The Key to Profitable Milk Production

The key to profitable milk production is a palatable, properly balanced, highly digestible ration of the protein blend for all kinds of cattle and sheep. (This is the word used by the Federation.)

MILKMAKER'S PUBLIC FORMULA

A full and up-to-date line of Farm Bureau seeds will be available for the 1926 season. (This is the word used by the Federation.)
