If regarded in many quarters as the out- unsettled are regarded as of prime of these measures which were left over for the December session. Many total of 13,909 bills introduced at little, if any, objection.

The above map shows the Senate to be followed by the House and National Farm Bureau officials, who will speak at the opening of the 20 farm bureau legislative rallies announced in this week's MCFAF. The event starts at the office of the Secretary of Agriculture, Wednesday, Aug. 28, and runs at Marshall, full swing.

The exact wording of the question on the ballot for the 1926-27 debate season will be: "The present tax laws on income are essentially doing the same as last year, except for the changes made by last year's legislature. The income tax is a much more equitable method of taxation than the present law. If the income tax is not to be understood that the income tax is a proper and just method of distributing the burden of the public debt?"

August Nature Calendar

August is the month of great beauty. Locusts, ashberries, and other trees and shrubs are in their prime. The moon is full on the 1st and 17th. The Harvest Moon rises on the 15th at 10:05 p.m. and sets on the 17th at 9:05 p.m.

Take advantage of the lovely weather to enjoy a trip to the countryside or to a nearby park. The colors of fall are just beginning to appear, making it a perfect time for a nature walk. Don't forget to pack a picnic and spend some time outdoors.

Reduced Rates On All Railroads

August 15, 1926

MICHIGAN STATE BUREAU NEWS

MICHIGAN FARM BUREAU NEWS

Dear Member,

As a member of the American Farm Bureau Federation, you are invited to attend the 19th Annual Convention of the Michigan Farm Bureau, which will be held in Detroit, Michigan, from October 8th to 10th. This convention is your opportunity to meet with other farmers, learn about the latest agricultural developments, and participate in the important work of the Farm Bureau.

In addition to the main events of the convention, there will be a variety of social activities, including a luncheon, a dinner, and a reception. The convention is open to all members of the American Farm Bureau Federation, and registration is free for all attendees.

Please mark your calendars and plan to attend this important event. We look forward to seeing you in Detroit.

Sincerely,

[Signature]

Chairman, Michigan Farm Bureau

A Little Story about a Big Fair

The Great Michigan State Fair is Your Fair

You're going to love it, we're sure!}

Timely Hint For Alfalfa Seeding

Many of Michigan's most successful growers of alfalfa have observed that the best results are obtained when the crop is seeded in late September or early October. This is the ideal time for seeding, as it allows the seeds to germinate and establish a strong root system before winter sets in. Additionally, seeding in this time frame allows the crop to become well established before the spring growth period begins, which can help to reduce the risk of disease and pest problems.

To ensure the best results, be sure to follow these tips:

- Choose a high-quality seed
- Use the correct seeding rate
- Plant in well-prepared soil
- Apply the proper amount of fertilizer

These tips and many more can be found in the Michigan State University Extension publication "Alfalfa Seeding and Management: A Guide for Growers". This publication is available for free download on the University's website.

We hope you find these tips useful and look forward to hearing about your success with alfalfa seeding.

Sincerely,

Pioneer Writes Poem on St. Lawrence Waterway

We are very pleased to print herewith an original poem on the subject of the St. Lawrence Waterway, written by the author, Mrs. M. Hilliard, of Bay City, Michigan. This poem was inspired by her trip to the area in 1926 and is a wonderful expression of the beauty and majesty of this great waterway.

OLD MICHIGAN AND THE WATERWAY

St. Lawrence Seaway that saw one million years more before the prairies were green, and the pines set up home by the shores of ancient lakes, the waters of which we now call great lakes. Give us the right to create a new world in our own way and the future of our country will be assured.

First we must have a waterway straight to the seaports. For all the world to see, our fair land, its beauty, its wealth, its strength. We shall be able to export the products of our land and bring in the wealth of other lands.

Let us have this system made in a straightforward way. Let us have it, not in a half-hearted way, but with all our might and with all our resources.

We are the leaders of the World, and we must show the world how to build a great nation. We must build a great nation, and we must build it on the strength of our own resources.

Thank you for your support, and we look forward to seeing you at the convention.

Sincerely,

[Signature]

Chairman, Michigan Farm Bureau
Gasoline Tax, Marketing Measures Head the List

BY STANLEY M. POWELL

Any list of the Michigan Farm Bureau's legislative achievements would have to include gasoline tax and marketing measures. The gasoline tax is one of the most tangible contributions ever made by Michigan farmers to their state and country, according to Mr. Powell, President of the Michigan Farm Bureau. He pointed out that the Farm Bureau was instrumental in strengthening the tax on gasoline. Marketing, on the other hand, has been of even more importance to farmers, he pointed out.

Our National Legislative Activities

Our legislative activities include: study of the Farm Bureau's legislative program, study of the development of legislation, and study of the development of legislation. The National Legislative Program is the one that the Farm Bureau is working on all over the world. The Farm Bureau is trying to get a better understanding of the legislative process and to study the development of legislation.

Farmers' Day is Big Attraction

9,000 People Are Thrilled by Home Packing Contest

Doole Speaker

Farmers' Day is the highlight of the Farm Bureau's legislative program. The Farm Bureau is working on this program, and the effects of the program are felt throughout the state. The Farm Bureau is working to get a better understanding of the legislative process and to study the development of legislation.

Does Your Farm Bureau Support

Your Local Farm Bureau?

Yes, it does! The Farm Bureau is working on all levels of government to get a better understanding of the legislative process and to study the development of legislation. The Farm Bureau is working to get a better understanding of the legislative process and to study the development of legislation.
