Working for Growers' Interests, Exchange Has
Good Effect on Market; Its Storage,
Drying and Picking Plant is of
Great Value to Growers

In this edition of the News we are going to tell our readers
about the great work being done in handling and marketing
Michigan beans by the co-operative Michigan Elevator Ex¬
change, Inc., of Port Huron, which has been
greatly increased by the co-operation among the
thousands of farmers who use it will enjoy knowing more about the
thousands of bean growers who don't know about it, will
learn of the service to be had.

Heedful Plunder—A Big Operation

The editor of the News got a complete picture and a better
appreciation of what the Elevator Exchange is doing for Michigan
bean growers through a thorough inspection of the
Exchange, the Co-operative's store, storage, and
showing and taking pictures of them, and now we are ready to
write up a series of articles as parts in this edition of the News, to
show to our readers what we saw at Lansing and Port Huron.

This article will be a foundation for the rest, by describing
the general structure of the Elevator Exchange, what it is and how it
works, and what it does. Other articles will describe the Port
Huron plant, the giant machines there that clean
and control
ber, and
ners in Port Huron.
ple, and other articles will describe the Lansing office, the
nership that is co-operating with the Lansing members.
In this edition of the News, we are going to tell our readers
more about the Elevator Exchange, its work, and why it does it;
when and how it does it; and what it does. Other articles will describe
how it works and what it does. Other articles will describe the Elevator
Exchange and the Lansing office, and the growth of the
nership that is co-operating with the Lansing members.

NEW INFORMATION ON BATTLE CREEK SEED SHIPMENT

Battle Creek Seed House and
Ford Farm Mgr. Make

About 1,000 members at eighth and

Greatest of our annual meetings;

724 attend banquet and party

Complete report of meeting is given in this

Edition of the News; Ten Members of the

Board of Directors elected.

Fred Harger is New Member

Upwards of 1,000 delegates and Farm Bureau member
visitors attended the eighth annual meeting of the State Farm
Bureau at State College Feb. 4-5. It was the greatest annual
meeting the organization has ever had, and was by far the
target group meeting held during Farmweek.

Thursday night 724 members attended the first State Farm
Bureau banquet and old time party at the Union Memorial
Bldg. More than 1000 little people gathered in the Union
Building was unable to accommodate any more for the ban¬
quart. Later many of these folk came in for the Farm Bu¬
reau's old-time party. The banquet program, party and many
other features of the annual meeting are described elsewhere
in this edition of the News. Mr. Brody's annual report is
given in full in the complete record and resolutions adopted.

00 AM at Dallations.
The meeting was a good one. Room 402, April hall, seats
600, was filled as the delegates entered the meeting. The Farm
Bureau officers in their annual reports and in their
speeches made every effort to give the delegates a complete and
accurate picture of the condition of the State Farm Bureau

Mr. Brody's report should be read for the Farm Bureau's
part in the world's leading victory, the $40,000,000
bankrupt auction in 1925; or for an idea of the
state of business today; or for a glimpse of the
future, there is nothing like it. For a glimpse of the
farmers as to what they can expect

the Farm Bureau movement in Michigan.

The State Farm Bureau's financial report shows the organiza¬
tion and its growth and gaining. As reported in the last edition of the
News, the State Farm Bureau made a profit of about $3,000,000, with
net earnings above the $1,-000,000, which $1,004 was returned to
farmers and their co-operative associations as patronage dividends.
The State Farm Bureau's net worth at the close of 1925 was given as
$18,373,972, an increase of $28,534,611 for the year.

Printed reports embodying the annual reports of the Secret¬
sary, the business departments and other Farm Bureau
officers and the complete financial report were given all dele¬
gates and members at the meeting. A copy of the eight page report of
the Secretary's report is published in this edition of the News.

The next annual meeting of the Farm Bureau will be held in
Toledo, Ohio, May 2 between the Farm Bureau, the State
President Sam H. Thompson of the American Farm Bureau Federation,
the board of directors, the Farm Bureau supply services and other
departments "as an inspiration, a challenge, a property, to
those who are interested in the advancement of the Farm
Bureau to the delegates Thursday afternoon on Equality for Agri¬
culture. Thompson delivered the only address on the Farm
Bureau during the State Board meeting. Michigan Farm Bureau
headquarters and the town of Port Huron, Farm Bureau members and
to elect a new president. The election of this director was announced
in another part of the News.

The Farm Bureau is the only representation of the farmer
and his farm in the legislature, in the executive branch of the
government, in the courts of the state and nation, and in
the public service. The Farm Bureau is the only representation of the
farmer

Election of this 11th director from the Board of Directors for a term of
four years, was completed by the Board of Directors.

Sec'y Brody Reports Farm Bureau's 1925 Work

Members and Families Served in Many Ways

Accomplishments include Gasoline Tax and Money
Legislative Gains; Zone Rate Case and
Other Freight Rate Victories; New
Membership Plan Succeeds

By CLARK E. BRODY
Sec'y, Michigan State Farm Bureau

February 13th, 1926

Chairman of the Michigan Farm Bureau, growing in the past year
and showing great promise for the future, is the agricultural
movement in Michigan. The Michigan State Farm Bureau is the
organization that grew out of the great and real need for
organization and for the stimulation of agricultural interests in
Michigan. The Michigan Farm Bureau, State College is now the
credit for originating and developing
to serve the farmers in the State of
Michigan, and the Michigan Farm Bureau, State College is the
credit for originating and developing
to serve the farmers in the State of
Michigan, and the Michigan Farm Bureau, State College is the
credit for originating and developing

A review of the year's work is necessary in this group and
do not want to overlook the work of the

Farmers. First, a brief summary of the work of the state departments
and the activities of the Michigan State Farm Bureau during
the year. The work of the state departments will not be
covered in this report, but it will be

throughout the state.

The organization is the most important element in the
organization and is the only one of its kind in the State of
Michigan. It has the co-operation of the State of
Michigan and the United States Department of Agriculture, and is
with the greatest advantage in the interests of the farmers of the
State of Michigan.

The Michigan Farm Bureau supply service is now

Secretary Brody Reports
1925 Farm Bureau Work

(Continued from page one)

A State Farm Bureau built on the right foundation and with a solid framework is able to meet the situation of the future.

The advance made the past season by the Michigan Farm Bureau is a good omen for the future of our work. By the time the work is completed, the Farm Bureau membership will be over one hundred thousand, and the credit connections will be not less than sixty thousand. The Farm Bureau has a much more active, more efficient, and more vital membership now than at any time in its history.

A. S. H. L. H. 

The following report was made by Secretary Brody for the 1925 Farm Bureau work:

The Farm Bureau work of the past year has been a new experience which the Michigan State Farm Bureau has never had before. The membership campaign, so essential to the life of the Farm Bureau, has never been so successful. The membership dues and creates an atmosphere of good will and confidence throughout the country which is already producing results in the minds of the people.

For the first time in the history of the work, a satisfactory and effective Farm Bureau organization has been established in every county in the state of Michigan. The members of the organization have been more active and more efficient than ever before. The Farm Bureau has been able to do more work and accomplish more results than ever before.

BY C. W. RENDON

Managing Director and President

(Wayne fans turner in Michigan are converting their attention to driers, and considerable terminal elevation of prices is expected this season. Wayne driers have been in operation during recent years, and the Michigan Elevator Exchange has long been in the forefront in the promotion of driers in the State.

The Port Huron plant of the Michigan Elevator Exchange has been converted to the handling of beans during the past season, and the elevator manager has been able to make a very successful showing in the handling of beans during the past season. The elevator manager has been able to make a very successful showing in the handling of beans during the past season.

Barry County Bureau Re-Elects Its Officers

The Barry County Bureau has re-elected H. W. Marks as chairman, A. C. Wells as secretary and W. J. Bowers as treasurer. The bureau has been in existence for a number of years, and the officers have been re-elected for another term.

FARMER CONTROL

That is Position of Elevator Exchange and State Farm Bureau

For the past two years there has been a considerable amount of discussion among elevator owners as to the advisability of establishing a cooperative elevator in Michigan. The Michigan Elevator Exchange has taken a prominent part in this discussion, and has been instrumental in bringing about the establishment of the cooperative elevator. The Michigan Elevator Exchange has been in existence for a number of years, and has been instrumental in bringing about the establishment of a cooperative elevator.

NO LOGICAL PLAN FOR SUCCESSFUL FARM BEAN POOL

Much Talk From Certain Sources, But Little Horse Sense

Elevator Exchange Has Great Bean Sales Story

Advertising has never been the fatal disease of the Michigan bean growers. They have always sold their beans at a premium price, and have been able to get a good price for their beans. The Michigan Elevator Exchange has been in existence for a number of years, and has been instrumental in bringing about the establishment of a cooperative elevator.

WOMEN ACTIVE IN KENT COUNTRY ELEVATOR

One in Division, Another as Delegate: Third Heads Resolutions Bd.

Grand Rapids, May 19.—At the annual meeting of the Michigan Elevator Exchange, Mrs. W. J. Bowers was elected as delegate to the State Farm Bureau, and Mrs. H. W. Marks as delegate to the National Farm Bureau. The two women were nominated by the women's association of the Michigan Elevator Exchange.

AUTOMATIC BEAN PICKERS AT MICHELEX

Here is a photograph of several automatic bean pickers in the Michigan Elevator Exchange plant. After being conditioned in the plant, the beans are conveyed to the automatic bean pickers, where they are screened and conveyed to the automatic bean packing machines. This will give you an idea of what is being accomplished in the Michigan Elevator Exchange plant.

Three Views of the Michelex Plant

A peek behind the scenes at the Michigan Elevator Exchange plant. In the picture above, beans are seen on the conveyor belt, and beans are being conveyed to the automatic bean pickers. In the picture below, beans are being conveyed to the automatic bean packing machines. This will give you an idea of what is being accomplished in the Michigan Elevator Exchange plant.

Where Needed

BY MICHIGAN ELEVATOR Ex.

 displeased for Michigan farmers. In the few past years their bean harvest has averaged 3,140 cars, a large crop over the past 20 years. This year there has been a crop similar to those of the past. Buyers were anxious to bid for stock. Manufacturers of this crop of beans have had many complaints from the farmers. The drying and charting of the beans, the average of which is 6,500 to 7,000, is not a money making proposition. We will have the opportunity to make a large profit on the beans this year. The beans that will be sold in the next few months will average 85 to 90 cents per hundred. Beans that are ready for the market next year will average 70 to 80 cents per hundred. This gives the oven who will be able to sell this kind of beans an advantage of nearly three cents per hundred. We have sold the beans at this price and are making a large profit. We will be able to sell the beans at this price and make a large profit.

WHAT HAPPENS WHEN ELEVATORS JOIN EXCHANGE?

This Article Tells Some of the Relationship and Benefits

WHEN A farmer-owned elevator joins the Michigan Elevator Exchange, it becomes part of an organization that serves both the member elevator and the farmers. As a member of the Exchange, the elevator is able to take advantage of the services offered by the Exchange. The services provided by the Michigan Elevator Exchange include:

- Market Information: The Exchange provides market information to its member elevators. This information helps the farmer-owned elevators make informed decisions about the buying and selling of beans. The Exchange also helps farmers understand market trends and anticipate changes in the market.

- Market Assistance: The Exchange offers assistance to its member elevators in the form of market analysis and advice. This assistance helps farmers understand the current market conditions and make informed decisions about the buying and selling of beans.

- Member Assistance: The Exchange provides assistance to its member elevators in the form of member support services. These services include: assistance with the farm's finances, insurance, and legal issues.

- Training and Development: The Exchange offers training and development opportunities to its member elevators. These opportunities help farmers improve their skills and knowledge in the field of bean production and marketing.

- Advisory Services: The Exchange offers advisory services to its member elevators. These services include: advice on bean production, marketing, and financial matters.

- Marketing Services: The Exchange offers marketing services to its member elevators. These services include: assistance with the marketing of beans and the development of marketing strategies.

- Administrative Services: The Exchange offers administrative services to its member elevators. These services include: assistance with the day-to-day operations of the farm and the management of the farm's business.

BEAN MOVEMENT OF 1925 COMPARED WITH THAT OF 1924

Disposition of the Damaged Crop is Key to 1925

Following is a summary of the bean movement in 1925 and 1924. The bean movement for the two crops, as reported by Mr. C. B. Church, Chief of the Bureau of Crop Estimates, is as follows:

- 1925: The bean movement for the 1925 crop was 6,500,000 bushels, or 4,200,000 bushels less than the 1924 crop. This decrease is due to a decrease in the number of bushels harvested, as well as a decrease in the average bushel weight.

- 1924: The bean movement for the 1924 crop was 10,700,000 bushels, or 4,200,000 bushels more than the 1925 crop. This increase is due to an increase in the number of bushels harvested, as well as an increase in the average bushel weight.

How MICHIELIX Cleans Beans

Below is the three-times Business-

"We have had fine success with the Michigan Elevator Exchange and are very pleased with the services they provide. The Exchange has helped us to improve our farm operations and make better decisions about the buying and selling of beans. The Exchange has also helped us to improve our financial situation and make better decisions about the management of our farm business."

"The Michigan Elevator Exchange is the only organization that can help farmers like us. The Exchange provides the services that we need to improve our farm operations and make better decisions about the buying and selling of beans. The Exchange also provides the resources that we need to improve our financial situation and make better decisions about the management of our farm business."
