ELEVATOR EXCHANGE AND FARM BUREAU WRITE NEW CHAPTER

Nationally Known Speakers Feature Program; Splendid Entertainments Add to Pleasure; Reports of Most Successful Year in Exchange History

The Sixth Annual Meeting of the Michigan Elevator Exchange held at the new Hotel Olds at Lansing, Wednesday, July 21, surpassed any of the previous meetings held by the organization, established new records and set up some records that it will not be easy to duplicate. The 527 delegates enjoyed a splendid dinner in the banquet hall of Lansing's finest hotel, rejoiced over the heat and big year's business the Exchange has ever done and listened to an array of speakers and entertainers that probably has never been equalled in any farm organization meeting in Michigan. It was a day of speeches, yes, even the weather man knew what to do and provided the boundless fire of the season to test the color of the delegates. The thermometer outside the hotel registered a height of 115 degrees on this scorching day, but the banquet room in the hotel stood at well above 90 degrees.

Treasurer and General Counsel for the Exchange, in addressing the banqueteers in order to order the afternoon program, declared that the weather reminded him of one time down in Arkansas when he became so hot he said a branch was blazing all about and both of them were.

HORTON'S SPEECH PRAISES LOYALTY OF EXCH. LOCALS

Addressing the delegates, Judge Horton, a director of the Michigan Elevator Exchange, said:

"It is with great pleasure that I address you to-day, in the first place, I am sure that you recognize and appreciate the great things you have accomplished as a result of your loyalty, and the great confidence that has been placed in you by every one of our organizations.

"We are proud to have as our friends and to have as our brothers and sisters, men and women of strong character, clean habits, physical vigor, and moral courage, to replenish the earth, the Michigan Elevator Exchange.

"I have no other words but that I wish you all success in the future and may God bless you and your families and your children."

L. A. RANSOM

Rursed 123 bushel tons valued at $1,450,000 in 1921, to-day 862,000 bushel tons valued at $21,000,000, and to-day 1,337,000 bushel tons valued at $42,000,000, of which 98.5 percent has been sold in the刷新中 and 1.5 percent is held.

Program of Farm Bureau Organization and Activity Unanimously Adopted by the Delegates to the Conference Held at East Lansing, Monday, July 21—20, 1926

Your program committee realizes that it has been called upon to face a tremendous task in the writing up of a worthwhile program for putting the great farm body to work on the solution of their own problems of management, education, rural homes, education, prevention, legislation and cooperation to the end that agriculture may not only meet any common ground with other industries in working out those problems which are vital to all mankind, but that from the farm may flow not only food and fiber, but also the men and women of strong character, clean habits, physical vigor, and moral courage, to replenish the earth, the Michigan Elevator Exchange.

"We believe that the state organization can render a real service in presenting the need of agriculture in state and national legislation in order that farm men may be openly treated as equals of such other national government and receive benefits and advantages provided for them."

"We recommend that at the State Farm Bureau meeting in the future the committees to be appointed will consist of four men and two women, and that four or six committee members to be appointed in the state and County Farm Bureau committees to rank matters as taxation, legislation, and cooperation to the end that agriculture may not only meet any common ground with other industries in working out those problems which are vital to all mankind, but that from the farm may flow not only food and fiber, but also the men and women of strong character, clean habits, physical vigor, and moral courage, to replenish the earth, the Michigan Elevator Exchange."

The complete schedule for the meeting of the California Conference of Farm Bureau leaders, held at the Empire State Center in New York City, August 16-20, is as follows:

**Midwest Bureau's Make Plans for Training School**

Leaders from Many States To Hold Western Bank August 16-20

As announced in the last issue of the Journal, the Western Bank of Agriculture will be held in Salina, Kansas, August 16-20. Several states are now reporting that plans are being made for the holding of regional meetings, with a view to the establishment of a directorship in each state. The school will be held in a two-week session, with the aim of preparing leaders for the work of the Bank.

Club Champions Who Were Bureau's Guests

Each of these 300 boys and girls from 34 counties is a County Champion in some club project. This picture was taken while the champions were attending Club Week at the College recently. During the week they were guests of the Michigan State Farm Bureau at a banquet and program. I also inspected the State Farm Bureau headquarters. See the article in the column to the left and read the editorial italicized rules.

Barnum Talks to American Institute of Cooperation

Tells of Remarkable Progress Made in Supplying Seed Of Known Origin

More than 100 cooperatives now supply their members with seed corn free of perfect, and strain-improvement work has been started on these farms. Barnum, in a speech which he made before the American Institute of Cooperation at the University of Michigan, made this statement:

"It is opportune to state at this time that the American Institute of Cooperation has made a study of the present situation in our cooperatives. The results of this study show that the cooperatives are making progress in the supply of seed, and that the trend is upward. The Bureau is interested in the cooperative movement, and we believe that the cooperatives are doing a good job in the supply of seed."

Cup Winning County Plans to Secure Still Larger F. F. Membership

St. John's, July 15—Two hundred and fifty-five boys and girls were the guests of Farm Bureau members on July 15 when St. John's and Clinton county foremen gave a beautiful dinner in their honor. The dinner was held at the home of Mr. and Mrs. Frank Brown, in St. John's. The guests were entertained with songs, speeches, and a fine dinner. The guests were then entertained with a short program which was given by the Clinton county F. F. editors. The dinner was a great success, and the guests were thoroughly enjoyed by all.

Bureau Will Have Booth at St. Fair

At Detroit

As announced in a recent issue of the Michigan State Farm Bureau News, a booth will be set up at the Michigan State Fair. The booth will be located in the same building that the Farm Bureau office is located in. The purpose of the booth is to promote the work of the Farm Bureau and to give the public an opportunity to learn more about the Farm Bureau. The booth will be open to the public during the fair and will be operated by members of the Farm Bureau.

Clay Pigeon

Cupid's arrow alights, to make sure that they will not get away. The target is a heart, and it has been drawn through the air by Cupid's arrow. The trade name is the best possible name for the bird, as the heart is the organ of the bird that is most taken in hold, and it is the organ that Cupid's arrow is drawn through.

Prevent Hot Weather Losses

During the hot and humid days of July, and Detroit market prices show signs of increase in feed grain, one can be assured that the feed grain market will be lower. However, the grain market will not be lower for long, as the corn market is still in the hands of speculators. The corn market will be lower for a few days, and then it will be back in the hands of the speculators.
