TO OPEN JAN. 31

Special Program to Include Observance of M. S. C.

FARMERS' WEEK IS TO OPEN JAN. 31 AND CLOSE FEB. 4

Buck for the annual Farmers' Week, which is set to open at 9:30 a.m. Wednesday (Jan. 31), and continue through Feb. 4, for the purpose of acquainting the public with the conditions of the farm business. The week is divided into two parts, one being devoted to a study of economic conditions, and the other to the problems of agriculture. The sessions will be held in the auditorium of the Michigan Agricultural College.

SEED CLASSIFICATIONS

The fruit seed market, requiring that all imported seed be of high quality and that it be treated in a uniform manner. This is the purpose of the week's program." The program will be conducted by the Michigan State Bureau of Agriculture, which is responsible for the inspection and certification of seed. The week's program will be devoted to a study of the problems of agriculture, and will include lectures, discussions, and demonstrations.

MICHIGAN POTATO GROWERS

Subscription Price 50c Per Year, included in dues of Farm Bureau. Entered at the post office at Charlotte, Mich., as second class.

Saving farmer taxpayers $67,350 excess equalization in Calhoun, Ingham, Washtenaw, general property levy.

Announcement has been made by the Farm Bureau that it has found means that a certain authority must step in, accept their option terms as forty times. If the optioneer does not show up with his payment, the tax assessors have stepped in, accepted their option terms as indicative of valuation, and boosted their taxes from five to twenty-five times. This is the reason why the system of option is giving farmers such serious trouble.

It is true. A motion to adjourn the meeting is to be made by any member in order to bring up any matter not included in the order of business. It is also an order of the day. It may be made by any member, and it may be seconded by any member.

Mrs. Amanda Johnson, of 111. N. Michigan Pigeon Show. "Mrs. Johnson is seeking to secure for farmers adequate full coverage at reasonable rates from the insurance companies."

"I had rather be active and adventurous than to sit around the fire and wishing you 'hadn't been so disinterested' " Mrs. Johnson says. (k) The ordinary form of voting is by ballot. (l) No owner shall be able to give an owner of a farm in any one of the states or from the decision of the Chair as to the time, place, and manner of the election. (m) The question of personal privilege." Mrs. Johnson asks; "why certainly a woman can run a farm! I've aged the affaire of two farms since I was a child, and I admire any woman who can run a farm; I've certainly a woman can run a farm; I've run 'em," she asks; "why certainly a woman can run a farm!"

Work has not made her a wither. She enjoys living; by going wholeheartedly into the affairs of her farms. She says, "Run 'em," she asks; "why certainly a woman can run a farm!"

"It's the experience of the 'way' that counts," Mrs. Johnson says. "I had rather be active and adventurous than to sit around the fire and wishing you 'hadn't been so disinterested' " Mrs. Johnson says. (k) The ordinary form of voting is by ballot. (l) No owner shall be able to give an owner of a farm in any one of the states or from the decision of the Chair as to the time, place, and manner of the election. (m) The question of personal privilege."

Mr. and Mrs. J. M. Threlkeld, of 111. Michigan Poultry and Pigeon Show. "Mrs. Threlkeld speaks for the interest of the pigeon fanciers present." Mrs. Threlkeld speaks for the interest of the pigeon fanciers present.

LAND BANKS BRING MICHIGAN FARMER CUT IN INTEREST

Loan Rates New Ave. Down. Two Per Cent From Peak of 1916

BANKER EXPLAINS PLAN

President of St. Paul Bank Tells Auditors

Federal Loans

although Michigan farmers have been able to obtain loans from the bankers of other states, it is, as a rule, only the more creditworthy farmers who have been able to get these loans. Many of the less prosperous farmers have not been able to get these loans, but have been forced to go to the State Land Bank and other financial institutions for terms. These loans have been made at a higher rate of interest than the Federal loans, but they have been necessary to provide the necessary funds to keep the farms going.

U. S. Agr'l Dept. Gives No Approval of Stained Seed

Chief of Federal Bureau of Plant Industry Tells Gov't. Stand

By Wm. S. Taylor

"Although some cases of stained seed have been reported in this territory, there is no sufficient evidence to indicate approval of the Federal Bureau of Plant Industry," the chief of the bureau announced. The case of stained seed in the territory has been investigated, but there is no evidence to indicate that it is widespread. The chief of the bureau believes that the seed is not of sufficient quality to be a menace to the farmers.

INDIA SHOWS INTEREST IN FARM BUREAU WORK

Crops Authorities of M. S. C. Call Exhibit of Seed to Case of Seed

The chief of the bureau announced that the government of India has shown considerable interest in the work of the Bureau of Agricultural Economics. The Indian government has expressed a desire to establish a similar bureau in India. The United States government has expressed a desire to cooperate with the Indian government in the establishment of such a bureau. The chief of the bureau believes that the establishment of such a bureau would be of mutual benefit to the United States and India.

CASS COUNTY WOMEN FORM ORGANIZATION

Estimates show women's work in Cass Co. to be worth $5,000,000

Estimates made by the Cass County Women's Organization show that the work of the organization is worth $5,000,000 to Cass County. The organization has been active in the county for several years, and has made many contributions to the welfare of the county. The organization is composed of women who are interested in the welfare of the county, and who are willing to devote their time and energies to the work of the organization.

RAIL ABANDONMENT Fought by Bureau

Hearing on Abandonment of 102 M. & M. Line Held

A. F. Barlow, of New York City, and E. B. Temple, of San Francisco, appeared before the United States Court of Claims on behalf of the Illinois Great Northern Railroad Company. The company is seeking a favorable decision from the court. The hearing was held on the 25th of last month.

Michigan Master Farmers Are Visited By German Couple on Tour of U. S. to Study Farms

Capt. Paul Arndt and his brother, German couple on tour of U. S. to study farms, arrived at this city last week. The couple has been visiting the farms in the vicinity of this city, and has been examining the methods of farming in the country. The couple plans to visit other cities in the country, and to study the methods of farming in other parts of the country.

HOG CHOLERA IS

Hog cholera

is a disease of hogs caused by the bacterium Actinobacillus suis. It is a serious and deadly disease that can devastate hog populations. Hog cholera is highly contagious and can be spread through direct contact, by contaminated food or water, or by aerosols from infected hogs.

The disease is caused by the bacterium Actinobacillus suis, a Gram-negative coccus. The bacterium is transmitted through direct contact with infected hogs, by contaminated food or water, or by aerosols from infected hogs.

The disease is highly contagious and can spread rapidly through hog populations. It can be prevented through good hygiene practices, such as keeping hogs clean and healthy, and by vaccinating against the disease.

Hog cholera is a reportable disease in many countries, and affected hogs must be destroyed or treated to prevent further spread. Treatment is not always successful, and the disease is often fatal.
