GREEN GIVES HIS VIEW
Week Of Potato And Fruit Good Example

Farm relief is not only a social problem. There is also a state problem. Governor Green said the movement in this state is to encourage the local groups, and a state organization at the same time. The purpose is to make the state and the farmers' work more effective.

Cultural allusions to the problem of the farm have been directed toward the growth of the farm. Governor Green said the movement is to encourage the local groups, and a state organization at the same time. The purpose is to make the state and the farmers' work more effective.

The history and business principles of the Potato Exchange are revealed by the story of the Potato Exchange today. The Exchange has had fierce opposition from the time it was established, but the story is that the Exchange is now the leading marketing organization in the state, and it has been responsible for a great deal of good in the cause of potatoes.

POTATO EXCHANGE IN Vol. VI., No. 15
AUGUST 17, 1928

MICHIGAN POTATO GROWERS FINDS AT TENTH ANNUAL MEETING IT IS SELLING 25 PCT. OF STATE'S POTATO CROP

Co-operation Enables Organized Producers In Our Potato Section To Market Production In An Orderly Manner And Get Their Share Of The Market Price

Michigan co-operative farmers will find in inspiration in the tenth annual meeting of the Michigan Potato Growers Exchange held at Cadillac, Aug. 10.

Starting in 1918 from an almost hopeless potato marketing condition, as far as the producers were concerned, the Exchange was organized to provide adequate and co-operative marketing service to Northern Michigan and has been fitted, with the help of the Exchange, to represent the interests of the farmers and to promote the growth of the potato industry. The Exchange is the leading marketing organization in the state, and it has been responsible for a great deal of good in the cause of potatoes.

Ten years ago delegates from a few scattering co-operative organizations began the Exchange. There were then 1,000 producers in Michigan, with an estimated production of 15 million bushels of potatoes.

On the recommendation of what当时市场和经验者认为，我们的成功是保证的。
prices. Insistent efforts have been made in the case of cotton, and the Department as a whole to suppress all attempts to in­
volve the Department in the proceedings.

Without going into a detailed analysis of the cotton situation, it may be stated that the Department has been able to
prevent the development of a speculative market, and it is hopeful that the Department will be able to continue its work
in this direction.

Another season. This is the only hay crop we can sow this sum­
time, and the crop shortage sends the price of seed soaring, we can sometimes take advantage of every move that makes for preparedness
and the Department has been able to assist farmers in this direction.

Future trends of prices will be variable, and the Department
will continue to take every measure possible to ensure the growth of agriculture.

Why The Feed Contract Is Well Worth Your Consideration

Within a few days a representative of the Supply Service and your local co-op or Farm Bureau agent will call on you and explain our special contract starting your September 1 to March 31 (7 months) requirements of

Michigan Milkmaker, 24% and other Farm Bureau Supply Service Public Formula Dairy and Poultry Feeds

I. At a guaranteed maximum price per ton, payable as you take the feed out monthly.
II. Price is protected. It goes below the contract price, you get your feed at market price.

These highest quality feeds are delivered fresh, monthly to your local co-op or agent for you.

IV. Large volume makes for reasonable price. For six years this plan has averaged members substantial savings.

Questions and Answers on the Contract

1. When do we start making feed contracts?

   A. We begin making contracts for service during the month of July.

2. Where do we receive our supplies?

   A. We receive the materials from Minneapolis and Seattle, and ship them to different distributors from whom you get it.

3. When do shipments on the contract period close?

   A. Shipments close on the day the distributor orders his next supply of formula feeds, or on the day the contract period closes

4. How are prices decided upon?

   A. Prices are fixed and determined by the prices that the formula feeds cost us. We try to use the best quality feed that we can get at the lowest price possible.

5. Is there a contract price during the contract period?

   A. Yes. We guarantee you the lowest possible price during the contract period.

6. Will additional orders be taken after the contract period?

   A. Yes. We will receive additional orders after the contract period and ship as long as the material is available.

7. Is there a guaranteed price on the entire line of feeds?

   A. Yes, a guaranteed price is established for all feeds.

8. What is the guaranteed price?

   A. The guaranteed price is established for all feeds, and is determined by the cost of the materials at the time of the contract.

9. What about the guaranteed price?

   A. The guaranteed price is the price that we guarantee you for the entire contract period.

10. What is the guaranteed price?

    A. The guaranteed price is the price that we guarantee you for the entire contract period.

11. How are the guaranteed prices established?

    A. The guaranteed prices are established by the formula of the supply service and are based on the cost of the materials at the time of the contract.

12. How are the guaranteed prices determined?

    A. The guaranteed prices are determined by the formula of the supply service and are based on the cost of the materials at the time of the contract.

13. How are the guaranteed prices used?
