HILLSDALE'S SECY HAS MADE MOST OF OPPORTUNITIES

Thorough Knowledge of Bureau Work Has Had Good Results

By Mlle. SMITH WAGAEL

County Secretary of the Hillsdale County Farm Bureau

The importance of having a real knowledge of all the work of the Farm Bureau may be well understood by anyone who has been connected with a local bureau. The idea that the only important work of the Farm Bureau is the selling of its insurance to the members is a mistake. There are many lines of work that are just as important as the insurance work and if the members of the bureau are not made aware of these other lines of work, they will not be interested in the bureau.

The importance of having a real knowledge of the bureau work is not limited to the Secretary. It is just as important for the members to have a real understanding of the bureau work. If the members are not made aware of the work of the bureau, they will not be interested in the bureau and will not take an active part in the work of the bureau.

What Has Tariff To Do With McNary-Haugen Farm Relief?

SENIOR COPELAND TELLS AMERICAN FARM BUREAU HOW THE PROTECTIVE TARIFF "AIDS" FARMING POPULATION

Every Orator Against Farm Relief Defends The Tariff System; Copeland's Figures Are Amazing; That Which Aids Industry Is Hersey Good Farmers

Address by ROYAL S. COPELAND
United States Senator from Illinois. Was made on the floor of the House of Representatives March 23rd, 1926, in reply to the various speeches made by the opponents of the McNary-Haugen Farm Relief bill. Senator Copeland has a large reputation as a public speaker and his figures are considered not only reliable but startling.

"The farmer is the only man left in this world who produces anything that is useful, and... that system has grown up the method of operation of the protected industries."

My training as a sanitarian has taught me the importance of the farmer who is working in the open field of the United States. In that way the protective tariff may be better understood. It was beyond the purse of a New York storekeeper who was trying to make a living by buying goods and selling them. The farmer is the continual victim of these wickedly uneconomic laws. They are set aside by these combinations and the other half is added by the federal government. The farmers know about the use of chains and other tools. The farmer is the continual victim of the economic unsoundness of the system. The farmers are set aside by these combinations and the other half is added by the federal government. The farmers know about the use of chains and other tools.

The fair price of these parts but he is not at all disturbed when I hear the farmers of America use more than have bank balances, volume of production, labor and force, and with their political influence carried to America by plant foods or the manures from the farms of the United States. It may seem strange to the popular farm relief bill is economi­cally unsound."
Producers Co-Op Com. Ass'n  WOULD GIVE FARMER HIS SHARE

NARY-HAUGEN VETO COST FARMS BILLION AND HALF

Why Your Stock Should Go the Co-op Way

Michigan Farm Bureau News

1928. Earl J. Ford, of Jacksonville, Florida, the

President, has announced that he will

Practical Stockman, will preside over the

20th annual meeting of the Michigan Farm Bureau, to be held at

Ann Arbor on Feb. 14. At its meeting last year, the

Convention adopted a resolution favoring a

Federal farm policy, and the leaders of the Michigan Farm Bureau

have been active in this campaign for a year.

The Michigan Farm Bureau is the largest organization of farmers

in the United States, with over 200,000 members in 70 counties.

It is affiliated with the American Farm Bureau Federation, which

represents farmers throughout the United States.

The Michigan Farm Bureau has been active in many important

issues affecting farmers, including

ätt," said he, "and I am glad to observe

that it is not better to have an adjust­

ment of this nature, rather than to have

bread lines instituted on a large scale.

What Has Tariff to do With McNary-Haugen?

The last sentence of the McNary-Haugen bill, which

provides for a protective tariff system un­

til the end of the first term of the

President, has been the subject of much

discussion in recent weeks.

Many of the opponents of the bill

have argued that it is nothing but a

machination of the tariff interests, and

that it will have no effect on the

situation.

What Members Say,
The Michigan Farm Bureau News is Glad to Hear From Members on Matters of Interest.

Rural Roads Should Share Gas Tax Money

Michigan State Farm Bureau writes:

Well, there you have it — a statement of the rural roads bill as of January 14, 1928. If you are interested in this matter, please write and let us know your views.

Haskins Opposes the McNary-Haugen Plan

Haskins, Wisconsin

I am opposed to the McNary-Haugen Plan. It would mean a great saving to you, the farmer. But I think the people of this country are going to be wiser than the McNary-Haugen group.

Wants to Hear College Agricultural Bulletin

Wants to Hear College Agricultural Bulletin

Michigan State Farm Bureau writes:

I am interested in the agricultural bulletins that are issued by the college. They give valuable information on how to raise crops and keep livestock.

Feed More Salt

Are you feeding your cattle salt? If you are not, you should be. Salt is necessary for the health and well-being of your livestock. It is also necessary for the health of your family. The government has recommended that you feed your cattle salt every day.

Feed More Non-Caking Salt

Avoid Hard Feelings

Avoid hard feelings when feeding your livestock. It is important to feed them properly. Feeding them the right kind of salt can help prevent hard feelings.
