COUNTY FARM BUREAU EFFORTS BRING CUT IN STATE TAX

EQUILIZED VALUE AS WELL AS TAX PERCENTAGE IS GREATLY REDUCED WHEN BUREAUS MAKE COUNTY STUDY

Sanilac Farm Bureau President and Director Initiate Move Within County Which Is Meaning a Considerable Benefit to Taxpayers Who Operate Farms

Diligent research and persistent effort to "make a showing" has resulted in a state tax cut this year for farmers of the Thumb district. Twelve counties have nine per cent reduction in the equalized valuation in Sanilac County, five per cent in Tuscola County and about four per cent in Huron County.

This lowering of the equalized valuation has been due to the extensive work done by the County Farm Bureaus under the direct leadership of John W. O'Connell, president, and John J. O'Connell, director, of the Sanilac County Farm Bureau. These two men initiated their move several months ago, to show inequities in the evaluating of the agricultural properties within Sanilac County and the move later extended into the other counties of the Thumb district with a consultant worker who had brought a tax cut for 29 per cent from a per cent of $588 to 468 for Sanilac County; from 49 per cent to 44 per cent for Tuscola County; from .538 per cent to .5 per cent for Huron County.

These percentage figures are approximate, taken from figures compiled by the County Farm Bureau in the several counties. The Sanilac County per cent of the state tax is 0642781 where we show it .468 and the same for the other counties.

While these counties have secured considerable reductions in the hands of the state board, all agricultural counties have favored favorably this year, according to the official figures.

Counties in which the principal cities are located have experienced a slight increase in equalized valuation.

Oakland F. B. Names Winners at Picnic

While some picnic grounds were visited by various organizations, the Farm Bureau of Oakland County was the only one of several in the county that was kept busy that day.

The Farm Bureau, after getting a tentative date of July 20 for its annual picnic at Pomona, made it very much a mighty big event by holding it on July 6, at the Pomona Country Club.

The weather was very perfect weather for the rally. The rally and the community of the county are quite a sight. The Farm Bureau met to address a large group of people and a very good rally.

Four crops specialists from Michigan State University, afternoon of Friday, June 26, for the purpose of obtaining an accurate determination of the value of the crops going to market.

The sports program was administered by F. L. Whitlock and Willard Wright of the Farm Bureau district director.

TRAFFIC HELP IS GIVEN IN JULY

Fine Farm Bureau members were called to the Board of Trade to listen to the traffic program which was administered by the Farm Bureau district director.

The sports program was administered by F. L. Whitlock and Willard Wright of the Farm Bureau district director.

France Would Stop All Farm Bureaus

The French are working, through legislative action recently passed, to prevent the purchase of any book or magazine by persons who have not passed through a course of instruction in the cultural industry.

The bill was introduced by F. L. Whitlock, chairman of the Farm Bureau, and passed by the board of directors.

The bill provides for the issue of a certificate of attendance at the School of Cultural Industry, in accordance with the provisions of the law, and such certificate shall be presented to the person who purchased the book or magazine.

State Farm Bureau Manager Address American Woman

Miss Ruth Keeler of the State Farm Bureau addressed the American Woman's Club in Detroit.

She stated that the Farm Bureau was not only a political organization, but a social one, and that it was working for the betterment of the agricultural industry.

She said that the Farm Bureau was working for the betterment of the agricultural industry, and that it was working for the betterment of the agricultural industry.

The Farm Bureau Board of Directors voted to bring an action on the state tax this year. Bureau.

The board issued the following statement:

"The board has proposed to reduce the present rate of taxation by 10 per cent per cent of the property value, and to reduce the rate of taxation on farm property by 10 per cent.

The board has also proposed to reduce the rate of taxation on farm property by 10 per cent and to reduce the rate of taxation on farm property by 10 per cent.

The board issued the following statement:

"The board has proposed to reduce the present rate of taxation by 10 per cent per cent of the property value, and to reduce the rate of taxation on farm property by 10 per cent.

The board has also proposed to reduce the rate of taxation on farm property by 10 per cent and to reduce the rate of taxation on farm property by 10 per cent.

The board issued the following statement:

"The board has proposed to reduce the present rate of taxation by 10 per cent per cent of the property value, and to reduce the rate of taxation on farm property by 10 per cent.

"The board has proposed to reduce the present rate of taxation by 10 per cent per cent of the property value, and to reduce the rate of taxation on farm property by 10 per cent.

The board has also proposed to reduce the rate of taxation on farm property by 10 per cent and to reduce the rate of taxation on farm property by 10 per cent.
In a message appearing in the August issue of Bulletin Farms, official publication of the national organization, Mr. Thompson appeals to every member of the Farm Bureau to step forth and help elect outstanding farmers behind the Farm Bureau banner.

Mr. Thompson believes, as the state's capital to be visited in the national interest of the candidate and the country, and to make completely and effectively the benefits of the Farm Bureau system. Success of this program, he says, depends on a majority of farmers wishing to be led, as he is.

The platform, which has been advanced as Farm Bureau program since the organization was given governmental sanction by Secretary of Agriculture Hyde, in public and private addresses throughout the nation, stresses the agricultural situation, has stressed the needs of farmers to organize their own affairs. All of these problems cannot be overcome by the individual producer. The organization, he says, is the answer. The organization is the solution. The organization is the answer to our problems. The organization is the answer to our needs.

The American Farm Bureau Federation has made the entire bulk of the states to do as many things as possible in the interest of the farmers. It has a multitude of problems to solve. It is helping the farmers of the nation and the states to improve their conditions and to help them to better conditions. The organization is the answer to our problems.

In every state, executive officers of the state federation have already pledged their support to improve upon the relatively small number of farm organizations. They are the ones who have been holding them up to the standards of the organization and to help them to improve conditions.

Mr. Thompson makes the point that the American Farm Bureau Federation has made the entire bulk of the states to do as many things as possible in the interest of the farmers. It has a multitude of problems to solve. It is helping the farmers of the nation and the states to improve their conditions and to help them to better conditions. The organization is the answer to our problems.

Michigan Farm Bureau Supply Service Lansing, Michigan

**Kill Weeds With Atlacide**

Get busy on that patch of quack or other weeds before September 1. Get an application of Atlacide on now and another about October 1. Ground treated with Atlacide this fall can be planted to many crops next spring.

Atlacide, the chemical weed killer is safe to handle. Non-poisonous, non-explosive and non-inflammable. Spray with two pounds per gallon of water per application. Quick and easy to apply. Square rod of ground. Two or three applications about 30 days apart usually required to clean up new growth.

Packed in 50 lb. and 100 lb. air tight drums. Easily applied and a great labor saver. See your local Farm Bureau dealer for further information and prices.

**LEGGE SAYS POLICY OF BOARD WILL BE TO ASSIST CO-OPS**

Mr. Legge is in market demand on co-operative topics. He is a member of the Marketing Department of the National Bureau of Economic Research, a member of the Social Science Research Council, and a fellow of the National Academy of Sciences. His work has been recognized by the National Institute of Social Science, the American Statistical Association, the American Sociological Association, and the American Economic Association. He has received numerous awards and honors for his contributions to the field of economics.

**Engineer's Birthday**

August 7, 1932 marks the 82nd birthday of the great automobile engineer, Henry Ford. The "Mother of Invention" was the greatest chapter in the history of the automobile. It was his vision and determination that led to the mass production of cars that made them affordable for the average family. Ford's innovative ideas and leadership continue to inspire engineers and inventors around the world.

**Vacation Trips**

Take us on a grand tour through the countryside and among the great outdoors. It's hard enough to have an automobile accident or theft, but much more to lose a life, and a possible family.
