HIGHWAYS & WATERWAYS ON NATIONAL CONVENTION PROGRAM

MILK PRODUCERS AIM TO CONTROL TRANSPORTATION

Another Supply Service Is Added

After considerable investigation, the Wisconsin Farm Bureau service has taken on a new line of farm input service. Namely, the aim is to add a new sheet to the Farm Bureau service, to be called "Farm Market Commodity Service". This new service will be offered in Wisconsin. The service will be available for the benefit of Wisconsin farmers, and will be offered at no cost to them.

MALT TAX STAMPS MAY BECOME PROOF OF LAW VIOLATION

Women Are Leading in Membership Work

The women have the main work on their plate of work. The work has gone on in the past few months, but it is now time to change our emphasis to membership work. The women have been working very hard on this problem, and have made considerable progress. The women have been very active in their work, and have been able to make a significant impact. The work has been very successful, and the women have shown that they are capable of handling this important task.

FUT ON COMMITTEE FOR SALES AGENCY

Unser J. Johnson, Elmer J. Altermatt, of Detroit, Michigan Farm Bureau, and President of the Michigan Farm Bureau, have been appointed to the committee for sales agency. The committee will be responsible for the development of the sales agency program in Michigan.

AMERICAN FARM BUREAU FEDERATION ANNUAL CONVENTION IS SCHEDULED TO BE HELD AT CHICAGO DEC. 9-11

Agricultural Marketing, Rural Child Health, Secondary Highway Development, Farm Taxation and Farm Finances and Waterways To Be Discussed.

The eleventh annual convention of the American Farm Bureau Federation will be held this year from December 9 to 11 at the Hotel Sherman, Chicago. It is the first national assembly of the Farm Bureau since the passage of a farm bill. In the annual meeting of the Farm Bureau Convention, some of the counties of southwestern Michigan, especially, will be represented by comparatively large delegations for both the annual convention and the training school.

Alexander Legge, chairman of the Federal Farm Board, and the man entrusted to President Hoover with responsibility for administration of the Farm Relief Law, is to be the principal speaker on the first day of the convention. Mr. Legge is a supporter of the Farm Board's policy, and is expected to outline to the Farm Bureau the opportunities which may be available under the law, and to make the farmers familiar with the legal framework of the consolidation of the entire farm sector of agriculture.

Five other topics of utmost importance to American agriculture are to be discussed by outstanding authorities on the various subjects. These are: rural child health, secondary highway development, farm taxation, and farm finances and waterways. The purpose of the convention is to formulate a concrete and practical plan to show the Farm Bureau how the various policies can best be co-ordinated, and to show how the Farm Bureau can best co-operate with the Farmers' Cooperative Credit Associations.

War Secretary to Speak

Secretary of War, Mr. Stimson, will speak at the opening session of the convention and will discuss "Waterway Development and the Farmers' Cooperative Credit Associations." The convention is the first of its kind to be held in the Midwest, and it is expected to have a great effect on the future of agriculture in the region.

MONROE SPONSORS ALL DAY MEETING

All Farmers of County Are Asked to Participate

In Bureau Rally

The Monroe County Farm Bureau, the largest in the state, has been active in organizing rallies and meetings to promote the Farm Bureau's objectives. These events are held in various locations throughout the county, and are designed to educate farmers on the importance of the Farm Bureau's work.

The Farm Bureau is the organization that represents the interests of farmers, and is dedicated to promoting the well-being of the agricultural community. The Farm Bureau provides a platform for farmers to speak out on issues that affect their livelihood, and works to ensure that the voices of farmers are heard in the political process. The Farm Bureau is committed to representing the interests of farmers, and is dedicated to promoting the well-being of the agricultural community.
Editorials

AGRICULTURAL ECONOMICS

We hear the word "sovereignty" used a lot these days and sometimes wonder if its use is not somewhat overdone by the very people who do not have a feeling of independence or understanding of a real right of their own. It is the desire of some to make us think that only a few powerful men are able to act on our behalf, but in reality, we are all sovereign as far as the laws of the land are concerned, and are sovereign in our own decisions about how we wish to live.

The tremendous advantage gained by the farmer from the mechanization of his farm has been well documented, and the benefits that come from innovations in farming practices are more evident than ever before. The ability to secure fresh food and the ability to feed the world are now within reach of every farmer.

The ability to secure fresh food and the ability to feed the world are now within reach of every farmer.
FARM BUREAU Mashes Make More Eggs
Because—

They contain more egg-making food per ton than do ordinary egg mash. THAT'S TRUE. DO YOU KNOW—

THAT 500 lbs. of Oat Flour in Farm Bureau Egg Mash will make the same number of chicken eggs as the same amount of ground oats, used in egg making?

THAT 100 lbs. of Rice Mash in Farm Bureau Egg Mash will make the same number of chicken eggs as the same amount of oatmeal used in egg making?

THAT nearly all poultry keepers who get started on Farm Bureau feeds find that the same amount of ground rice, mill run or bran, will replace the same amount of ground wheat, oatmeal or corn used to make egg mash?

THAT White Wheat Farm Bureau supplies have the same or better egg-making qualities as those made from the same amount of White Wheat feed sold under the name of Farm Bureau?

THAT nearly all poultry keepers who get started on Farm Bureau feeds find that the same amount of ground rice, mill run or bran, will replace the same amount of ground wheat, oatmeal or corn used to make egg mash?

If you are not using Farm Bureau Poultry Foods, it will be well worth your while to try them and see. Your Farm Bureau man will be glad to give you any information that you desire regarding our Farm Bureau Supplies.
ELECTRICITY HAS REDUCED WORK OF WOMEN ON FARMS

Many inventions of Thomas Edison are deserving of appreciation. The Electric Light is one of these inventions. It is a source of light that is so bright, so strong, so reliable that it is the only light used in the homes of Americans.

There are many other inventions of Edison that have made life easier and more comfortable for women on farms. Among these inventions are the Edison Phonograph and the Edison Oil Lamp.

The Edison Phonograph is a device that allows people to listen to music and other sounds that are recorded on cylinders. This invention has made it possible for women to listen to music while they work on the farm.

The Edison Oil Lamp is a device that provides a bright light when it is lit. This invention has made it possible for women to work on the farm even when it is dark.

These inventions of Thomas Edison have made it possible for women on farms to have more time for themselves and their families. They have been able to spend more time doing the things they enjoy, such as listening to music and spending time with their families.

Education Costs Show Rapid Rise

Doubling Of Enrollment Is Accompanied By A Toodled Cost

A survey of nine of the 12 most important systems of higher education in the United States and Canada shows that the cost of education has doubled in the last 10 years. This increase has been due to a combination of factors, including inflation and rising costs of living.

During the last 10 years, the cost of education for a typical student has increased by 100%. This increase has been due to a combination of factors, including inflation and rising costs of living.

Education costs have increased for a number of reasons. One reason is that the cost of living has increased. This increase has been due to a combination of factors, including inflation and rising costs of living.

Another reason is that the cost of education has increased. This increase has been due to a combination of factors, including inflation and rising costs of living.

The increase in education costs has had a significant impact on students. Many students are finding it difficult to afford the cost of education.

A number of organizations are working to address this issue. One organization is the National Association of Student Financial Aid Administrators.

The National Association of Student Financial Aid Administrators is a national organization that provides information and resources to help students and families pay for college.

The organization offers a variety of resources, including information on financial aid, scholarships, and grants.

The organization also offers a number of programs to help students and families pay for college.

One program is the Federal Direct Loan Program. This program provides low-interest loans to qualified undergraduate students.

Another program is the Federal Work-Study Program. This program provides students with the opportunity to earn money while they are in school.

These programs and others like them are helping to make college more affordable for students.
