GIVE DETAILS OF NEW CORPORATION TO MARKET WHEAT

Eight Per Cent Dividend

LAND IN LIPON

For Earings.

In order to encourage more farmers to form or join cooperatives, the Federal Farm Board has issued a pamphlet containing all the details of a new corporation that is to be formed for the purpose of marketing wheat. The corporation is to be known as the "Wheat Marketing Corporation," and it is expected to become a significant factor in the marketing of wheat in the future. The pamphlet contains information about the organization, objectives, and methods of operation of the corporation, as well as details about how farmers can become members and participate in its activities.

MICHIGAN ADOPTS ROYALTY PLAN OF OIL LAND LEASING

Recent legislation has been passed in Michigan that gives farmers the right to lease their oil land and receive a royalty on the oil produced. This new plan is expected to provide a significant source of income for farmers in the state, and it is hoped that it will help to increase the production of oil in Michigan.

Michigan Farm Bureau News

In going through a merger by the Farm Bureau, have taken their first attempt at forming just how much traffic they’re receiving. As a result of this, the Farm Bureau has inaugurated its township road traffic survey which will help the farmers of the agricultural sections to get a new for their road dollars in lateral roads as others get.

The survey is being conducted under the supervision of the Michigan Farm Bureau and other agencies involved. The survey is intended to provide information about the use and performance of township roads, which will help the farmers determine the most effective use of their road dollars.

Amendments Made

Amendments made to the farm loan law provide for the establishment of a new federal loan agency to assist farmers in obtaining credit. The amendments also provide for the establishment of a new federal loan agency for the purpose of making loans to farmers for the purchase of farm property.

LIVING EXPENSES

On 22 Farms Are Shown in Survey

With the availability of more information about the costs of living on different farms, it is possible to make better decisions about the future of farming. The survey provides valuable information about the costs of living on different farms, which can be used to make better decisions about the future of farming.

Special Sales

Special sales have been announced by the Farm Bureau for the purpose of increasing the sale of farm products. These sales are intended to attract more farmers to the Farm Bureau and to increase the sale of farm products.

Michigan Volume of Farm Crops Is Lower This Fall

Harvest Benefited By Ideal Fall Weather. Crop Is Light.

RECORD HAY CROP

By Seaborn Smith (grade a)
Commercial Fruit

Before harvest, the state is now enjoying what promises to be the best fruit season in recent years. The apple, the peach, the cherry, the blueberry, the strawberry and the grape are all giving yields that are considered good. The orchardists of the state have been experiencing fine weather almost without fail since May that has been favoring the ripening and maturing of the fruit.

Aid Health With Christmas Seals

A distinctive blue banner, destined to be one of the most effective advertising devices in the Christmas season this year, will be seen on the streets and in the windows of retail stores throughout the state. It was designed and adopted at the recent meeting of the 1929 Christmas Seals. The campaign for the sale of Christmas Seals is conducted by the state office of the Michigan Farm Bureau, in cooperation with the Michigan Red Cross, the United Mutual, Home and Farm Bureau, and the local Agri club chapters.

In a further effort to intensify the Seals drive, the Michigan Farm Bureau is making one of its most unique advertising devices. A distinctive banner is being distributed to the county organizations throughout the state. This banner is a distinctive blue and red banner and is a most effective advertisement for the Seals drive.

Michigan Farmers Learning
What Fruit Trees Are

Fairies of Michigan, who have polished and clothed fruit orchards for years, have set the date for this year's field trip, which will be held on the 27th at 10 a.m. The purpose of the trip is to acquaint the members with the different types of fruit trees and their care. The trip will include stops at various orchards, where the members will be shown the different varieties of fruit trees and how they are cared for.

In the past year, the Michigan Farmers have been working hard to improve the quality of their crop. This year, they have set a goal to produce extra wide range of exotic flowers. This will require a lot of hard work and dedication, but the members are confident that they can achieve this goal.

The Michigan Farmers have set a target for the year, which is to increase their yield by 15%. This target is based on the current crop and the expected weather conditions.

The Michigan Farmers have also set a goal to increase their crop yield by 20% in the next three years. This goal is based on the current crop and the expected weather conditions.
