To help the national Farm Bureau spokesman present a real
when any important measure is at hand in the nation's capital.

It is essential to have an organized body of influential leaders to
represent the interests of the agricultural community.

The Farm Bureau Federation has no facilities for circularizing
these prospects out of a fetal of 200 items in which agriculture is
mentioned.

The Senate Committee on Sub-Majority Reports

The Fair Trade Act of 1922, authorizing the President to impose a
temporary embargo of certain foreign products, has been the subject
of discussion in the Senate Committee on Sub-Majority Reports.

The President is authorized to declare any foreign product as "essential"
and to impose a embargo of up to 50% on its price.

The purpose of the act is to protect American industries from unfair
dumping by foreign producers.

The act makes it possible for the President to
impose duties on foreign products that are "dangerous to the interests of American industry.

The act also authorizes the President to suspend the application of
duties on various foreign products for a limited time.

The act is expected to provide a solution to the problem of foreign
dumping, which has been a concern for American farmers.

- **Lansing, Michigan**
- **$45.00 PRODUCED 10.9 More Bushels of Wheat**
- **The Michigan Farmer for August 31 reports that in tests with 1,540 Michigan farmers on fertilizers for wheat developed that an average application of 173 lbs. of 2-1-2-6, or Superphosphate or other wheat fertilizer, per acre at an average cost of $4.50 per acre for fertilizers, increased their winter wheat yield from an average of 16.5 bushels per acre to 27.4 bushels—a gain of 10.9 bushels.**

- **At that rate a ton of fertilizer produces 124 extra bushels of wheat for Michigan farmers.**

- **These farmers used the heavier weight and longer kernels that go with properly fertilized wheat. They observed that fertilizers, especially where quickly available nitrogen in unstable form is used, are more effective for winter wheat because they last longer than nitrogen in other forms.**

- **The report calculates the experience of the 1,540 farmers that the total value of wheat and hay crop increases from the improvement in fertilizer, later, etc., to $17,290 per cwt. in this one instance at a cost of $4.50 per acre.**

Mr. C. L. Brady

I would like some information regarding the weight and number of the state police as of this date.

J. W. Davis

Mr. J. W. Davis, Cleveland, Michigan

I have been informed of recent decisions regarding the distribution of funds under the recent Voter Act and would like more information as to how we can best utilize the banks and deep pocket agencies for the purpose of maintaining the peace and order of this state.

John Smith

I would also like some information regarding the investments of the state police, for which each officer has a free copy of the ballot box and the voters' register.

Henry Johnson

ACT be sent to you. I trust that you will utilize this information in a manner which would be of the greatest benefit to the state and the police force.

Mr. C. L. Brody.

Clark L. Brody.

In a certified record of the last 10 years, there were 3,134 per cent on invested capital in the state, but I am writing to ascertain what the amount to be distributed per $1,000 valuation for the state will be and how the distribution will be made.

Mr. C. L. Brody.

Many officers are now asking for the distribution of these funds to the law enforcement agencies of the state, and I am writing to determine the average amount to be distributed to the state police for the purpose of maintaining the peace and order of the state.
