Potato Exchange Has National Recognition

Farm Board, Potato States Announce Michigan’s Experience

Caldwell—The Michigan Potato Exchange, with national recognition, is now making a record in potato-growing. The Exchange, with the aid of a cooperative effort of the potato farmers, has been successful in its operations. The Exchange is being operated by Mr. E. E. Osmer, Manager, and Mr. J. M. Johnson, Secretary, and is located at 207 Owen Building, Detroit.

**Certify Potato Exchange**

During the past year, the Exchange has been growing a large amount of potatoes, and the farmers have been growing a smaller amount. The Exchange has been successful in its operations, and the farmers have been growing a smaller amount. COLLEGE SPEAKS ON WHEAT FOR THIS STATE

Sears, Roebucks: Largest Wheat Handle

By ROBERT C. BROWN

In the current season, the nation's major wheat handlers, including Sears, Roebucks, have purchased record amounts of the cereal grain. This has been due to a combination of factors, including high demand for bread and other baked goods, as well as a decrease in the supply of other grain products.

Sears, Roebucks has reported that its wheat purchases have increased by 20% over the previous year. The company has attributed this increase to a higher consumer demand for bread and other baked goods, as well as a decrease in the supply of other grain products, such as corn and soybeans.

President of Sears, Roebucks, John Smith, stated: "We have seen a significant increase in the demand for wheat products, particularly bread and other baked goods. This has been driven by a higher consumer demand, as well as a decrease in the supply of other grain products. We are pleased to be able to meet this demand and to provide our customers with the high-quality wheat products they desire."
Pennsylvania Drought Loss Is 50 Millions

Farmers Are Urged Not to Sell Their Cattle, Livestock.

HARRISBURG, Pa.—Farmers of the central part of Pennsylvania have already suffered a loss of $50,000,000 because of the long-drawn-out drought. This is the estimate given by A. A. Anderson, Secretary of Agriculture for the state.

The forecast indicates that livestock losses, in the form of cattle, hogs, and sheep, now total $50,000,000. This is the estimate given by A. A. Anderson, Secretary of Agriculture for the state.
