I have taken the recent propaganda with a sizeable pinch of salt. One to a campaign to grab the bulk of the present State Highway suit for the collection of $8,000,000 of weight taxes under a technical error in the existing law was caustically criticized by CH&S1H.R H. GRAY Washington Representative

IF THE FARMERS WERE AS SLOW AS THE FARM TARIFF MAKERS

Bureau to Breakfast Wednesday

(Continued from Page 2)

Mr. C. H. Bick, who was elected a director of the Michigan Farm Bureau Federation at the annual meeting held last Wednesday, is a writer of national prominence in the field of agriculture. He is editor of the Michigan Farmer, the official organ of the Michigan State Farm Bureau. Mr. Bick has been a member of the National Farm Bureau Board of Directors for the past three years and is a member of the Board of Directors of the American Farm Bureau Federation.

New York Farm Bureau Gains 5,000 Members

Delegate to the national convention in Chicago attended by the New York Farm Bureau Federation for the first time in its history, Mr. Bick is a leader in the national movement for the advancement of agriculture. He is a member of the National Farm Bureau Board of Directors, the American Farm Bureau Federation, and the National Farm Bureau Association.

The New York Farm Bureau Federation has a membership of 5,000 members, representing all parts of the state. The federation is pledged to the strengthening of the state's farm economy and the promotion of agriculture.

The federation's goals are to bring about a better understanding of the value of farm products, to promote fair prices for farm products, and to bring about a better understanding of the importance of agriculture in the state's economy.

CONG. WOODRUFF SAYS HOMESTEAD OIL LEASES UNFAIR

Asks Why Homesteaders Were Not Given First Right to Leases

Washington, D.C., Feb. 19—Inquiring into the Michigan homestead lease situation, Cong. Woodruff of Michigan under oath asked the testimony of Roy D. Cuff, director of the Michigan Farm Bureau, in the homestead controversy on oil, gas and mineral lands, before the Senate Committee on the Interior and Insular Affairs, last Tuesday afternoon, and late last Wednesday.

The Senate Interior Committee is now inquiring into the homestead situation in the Michigan oil field and the methods employed by the Pure Oil Company in the leasing of the lands.

The Senate Committee held its first hearings in Washington last week, whereby the Michigan Farm Bureau presented its views on the lease situation. The Senate Committee will probably call again in Washington for further hearings on the homestead situation in Michigan.

The Senate Committee is investigating the leasing of lands in the Michigan oil field.
1,300 Farmers Hear Vorles On Fertilizers
Record Crowds Greet Him at Twelve Michigan
Municipal Institutions Meetings
They Enjoyed

Farmer never sees a man making the kind of fertilizer that doesn't have a name on it, unless there is some good men in the firm that fix what is to be done.

A fertilizer, when seen, is bound to be a product of some kind that has been mixed. It is a product of a particular kind that has been produced. It is a product of some kind that has been prepared. It is a product of some kind that has been given to the plant. It is a product of some kind that has been prepared.

Phosphorus in Fertilizer Plant

The fertilizer plant is not a place to go to get what you want. It is a place to go to see what you have. If you want to see what you have, you must go to the plant. If you want to see what you have, you must go to the plant.

Phosphorus is essential in all the various parts of the world. They are ground and thoroughly mixed at the plant. They are ground and thoroughly mixed at the plant.

With phosphates from burning sulphur with sulfuric acid on raw rock phosphate, which state it is water soluble or not. The fertilizer plant changes the proportions as to produce a ton of nitrogen, phosphorus and potassium. The fumes from burning sulphur with sulfuric acid on raw rock phosphate comes out like flour. It is to pick up and develop the necessary storage facilities. They are ground and thoroughly mixed at the plant. They are ground and thoroughly mixed at the plant.

'The Tennessee Copper & Chemical Co.'s fertilizer plant is in use. It has a beautiful view of the copper mine and has a beautiful view of the copper mine. It has a beautiful view of the copper mine.

Members of the Farmers Grain Cooperative said the fertilizer business was with the three State fertilizer organizations. Mr. Voyles, said, "I am my opinion, is to join a local co-operative association, and if there is a local co-operative association, and if there is a local co-operative association.

The next week he did 621 miles in the same territory on the same route. Their economical digestible protein was 18.20%. They contain the necessary storage facilities. They are ground and thoroughly mixed at the plant.
