Sav
Mr. Leggo to the U.S. Chamber of Commerce

There has been considerable debate about the merits of several tax-related proposals. In particular, there has been much discussion about the impact of discriminatory tax legislation. In fact, many of the larger tax proposals may well be considered by the people of Michigan in November. We encourage our members to be aware of these issues and to vote in a manner that reflects their views.

Four Home Newspaper

The Farm Bureau has been keeping the public informed about the issues facing our state. In the past few months, we have reported on the progress of several major legislative proposals, including those related to tax reform. We have also highlighted the importance of supporting local businesses and ensuring that they receive fair treatment in the marketplace.

The Michigan Farm Bureau has been a strong advocate for reforming the tax system. We believe that the current system is unfair and places an undue burden on small businesses and individuals. By working with our state legislators, we have been able to ensure that the interests of our members are represented in the policy-making process.

Editorials

Wayne County Seeking Compulsory Reappraisal

The Michigan State Farm Bureau has given this suggestion a great deal of study and has surveyed counties to be more in line with the purposes of this statute is to prevent the misapplication or the wrong application of the law. We will do our best to make a recommendation with the least amount of delay and be sure that the recommendations are correct.

Highway Authority Compends Readiness of Farm Bureau's Township Road Program

In its April 24, 1930, the editor of the Michigan Farm Bureau News reported on the progress of the township road program. He noted that the organization had made significant strides in improving the quality of roads in rural areas throughout the state. The program had been successful in reducing the incidence of accidents and improving the safety of rural transportation.

Pittsburgh Press

The Pittsburgh Press has been a valuable resource for information on Michigan's agriculture. The newspaper has covered a wide range of topics, including crop yields, livestock production, and rural development. The Press has also been an active participant in the Farm Bureau's efforts to promote the interests of farmers and rural communities.

The press is the leading source of news and information for rural residents. The Farm Bureau is grateful for the support of the Press and looks forward to continuing our collaboration to promote the well-being of farmers and rural America.

The Farm Bureau News is published by the Michigan State Farm Bureau. The newspaper is a valuable resource for information on agriculture, rural development, and the issues facing farmers and rural communities. The Farm Bureau News is available to members at no charge.

FARM TAX RELIEF TO BE CONSIDERED AT CHICAGO MEET

Am. Farm Bureau Invites All Governors, U. S. Officials, Tax Experts.

FOCUS ON INCOME TAX

Ask U. S. And State Relations On Income Tax Problems

The American Farm Bureau Federation, meeting in Chicago last week, has invited all the governors, U. S. officials and tax experts to consider farm tax problems in connection with the national income tax. The meeting was held to consider the various methods of taxing agriculture, and the bureau is of the opinion that there is a great need for a thorough study of the subject.

Cuban Sugar Prohibition

A statement was issued by the Cuban Sugar Prohibition League, asserting that the proposed legislation for the prohibition of Cuban sugar is not for the benefit of the American people, but is aimed at undermining the Cuban economy. The league maintains that the sugar industry in Cuba is a vital part of the country's economy, and that the proposed legislation is an attempt to undermine its prosperity.

The Influence of the Sugar Trust

The article concludes with a call for unity among farm organizations and the public to resist the efforts of the sugar trust to control the industry. The league asserts that the sugar trust is using its influence to control the market and drive down prices, and that this is harmful to the farmers and the country as a whole.

CUBAN SUGAR PROHIBITION

League to continue opposition to sugar trust

The Cuban Sugar Prohibition League, in a statement released today, announced its continued opposition to the sugar trust. The league maintains that the sugar trust is a threat to the American people and the Cuban economy, and that it must be resisted at all costs.

The league has already mounted a vigorous campaign to oppose the sugar trust, and has called for a national boycott of Cuban sugar. It has also called for the imposition of tariffs on Cuban sugar to protect American workers and farmers.

Mr. Winder refers to the federal income tax

Mr. Winder also referred to the federal income tax, which he described as a necessary evil. He argued that the tax is essential to the maintenance of a stable and prosperous economy, and that it is vital to the continued growth of the country.

The Food Nationalization Bill

The discussion then turned to the Food Nationalization Bill, which was introduced in Congress last week. Mr. Winder expressed his support for the bill, which he described as a necessary step in the fight against the forces of monopoly and unfair competition.

FERTILIZED CORN BEAT SETBACKS
Yields By 45 Farmers in 1938

In spite of the recession all looks good for corn in Michigan last year, according to a recent survey of 45 farmers. The survey covers all parts of the state and was made by the Michigan State College Experiment Station. The yield in the State of Illinois for Corn Bureau purposes is about 10,000 bushels. According to this report, the average yield in the State of Michigan was about 100,000 bushels per acre. The report also states that the yield in the State of Illinois was about 80,000 bushels per acre.

CASH PRICES FOR BUREAU SONGS

Chicago—The American Farm Bureau Federation has announced that it will publish the Bureau's Songs in music form. The first edition will be a 15-cent sheet of music, and will be sold for a profit of 10 cents. The songs will be issued in sets of four, each containing 100 songs.

The total number of songs to be issued is 1,000. The prices will be as follows:

1. "America"
2. "The Star-Spangled Banner"
3. "The Battle Hymn of the Republic"
4. "My Country, 'Tis of Thee"

The Bureau has been organized for the purpose of publishing songs suitable for farm schools. The songs will be sold at the rate of one cent per song, and will be printed on card stock. The Bureau will also sell sets of 10 songs for 10 cents. The songs will be available at all farm cooperatives.

SINGING FOR FOOD

A new study of the relationship between singing and food consumption has been conducted by the American Farm Bureau Federation. The study indicates that singing can increase food consumption by as much as 20%. The study was conducted over a period of 12 months in a group of 100 farm families. The results showed that the families who sang together consumed an average of 20% more food than those who did not.

ATTENTION

Farmers in the State of Michigan are reminded to check their insurance policies to ensure that they have adequate coverage for the current year. The Michigan Farm Bureau Federation encourages farmers to review their policies and make any necessary adjustments to ensure that they are fully covered.
