Includes 40,000 Cattle

FARMERS WEEK
PROGRAM FOR 1932
FARM BUREAUX
ANNUAL DUES CUT FROM $10 TO $5
New Dues Are Effective Now: Include All Privileges, Services
TO CONTINUE LIFE PLAN
$10 Annual Premium Matures A Full Membership In 8 To 9 Years

BY L. E. HARRIS, EDITOR

Dairy City—The Michigan Holstein-Friesian Ass'n reports about 40,000 cows in its records. Dairymen in Michigan who have not been members are strongly urged to join. The annual dues of $5 are revised this year to $10, but the plan is continued to renewable membership. Members who pay $10 today may become members for life for $500. The membership at present is about 500. The importance of the organization to the dairymen is well shown by the record of Holstein herds in the state. The two herds of J. H. Kress in Saginaw County and the Michigan Holstein-Friesian Ass'n, working hand in hand to increase the production of dairy cows, are shown to the credit of the state. The average test of the two herds of J. H. Kress is 3.75 per cent. The average test of the Michigan Holstein-Friesian Ass'n is 3.87 per cent. The average test of the two herds of J. H. Kress is 3.75 per cent. The average test of the Michigan Holstein-Friesian Ass'n is 3.87 per cent.

FARM BUREAU Radio Program February 13

Howell, Michigan—Jim McMillan, the first Michigan farm agent to be "on the air" on the Farm Bureau radio program, will make the broadcast February 13, in the 1,000 Farm Bureau radio stations. Mr. McMillan will make the program for the Michigan Farm Bureau, and the Michigan Farm Bureau will broadcast the program for the whole Farm Bureau organization.

Noel Taft, President of the Board of Supervisors of the Eaton County Farm Bureau, was one of the speakers at the Farm Bureau annual convention in Chicago, February 1st. Mr. Taft said that "the Eaton County Farm Bureau is very proud of its association with the Michigan Farm Bureau and the Farm Bureau organization of the United States. It is a proud day for us when we can come together in the interest of the farmers of this country."

Mr. Taft said that "the Eaton County Farm Bureau is very proud of its association with the Michigan Farm Bureau and the Farm Bureau organization of the United States. It is a proud day for us when we can come together in the interest of the farmers of this country."

FARM BUREAU Radio Program February 13

Chicago—Second of the monthly programs presented by the Farm Bureau Broadcasting network. The program will be broadcast at 8:00 p.m. central standard time, February 13th. The program will also feature a message from the Farm Bureau Secretary, Dr. W. D. M. Stuart, and will include announcements of forthcoming Farm Bureau activities.
Holstein Advanced Registry
Testing Was Established 47 Years Ago

Advanced Registry was set up in 1885 by the Holstein-Friesian Ass'n of America to enable Holstein breeders to prove the production of their cows.

Since that time over 27,000 cows have been tested in the Yearly Division, with an average of about 18,700 pounds milk, 510 pounds fat, 4.8 per cent butterfat.

In the Ten Months’ Division the average for the past 5,000 years is practically 14,000 pounds milk, 415 pounds fat. The short time, or “Brevier” record, although not officially withdrawn by the breed association is virtually discontinued.

The difference between the Yearly and the Ten Months’ Division is that, besides the length of the record, in the “Ten Months” the cow must qualify by producing a stall born within fourteen months of previous freshening. There is no such qualification in the Yearly Division.

Michigan Honor Holsteins Advanced Registry

The Holstein-Friesian Association of America reports for 1935 the following Michigan Holstein cows that produced Fifty Percent, or more, ABOVE entrance requirements to Advanced Registry, which are as follows:

Minimum Pounds Fat Production Required for Entry to Advanced Registry in Various Age Classes

"BUY CO-OPERATIVELY"

With every outstanding dairyman, the work of the Dairy Herd Improvement Associations is as important which his success revolves. With its choice of proper supplemental dairy feed is a real factor for profitable production. Poor dollars must be invested wisely.

Dollars spent for Milkmaker bring back many dollars profit. It is proven by the fact that several hard working dairymen have successfully used and are still using Milkmaker. Milkmaker 24% and 28% are more results—better production climbed and climbed until their well known records were attained. Good management, good sizes and good feed are the three essentials in herd improvement.

'All Over Michigan' Milkmaker means Moneymaker. Ask your way for Milkmaker folder and complete details.
