Moving Unemployed to Land Not the Answer

The history of cooperatives and the agricultural community's work to improve the lot of the unemployed has been well publicized. Today, the unemployed are being given the opportunity to work on the farms of Michigan. The Michigan Wool Marketing Association has taken the lead in this matter by making available to unemployed men the chance to work on wool pools in Michigan.

The Michigan Wool Marketing Association has established a program to employ unemployed men on wool pools. This program is designed to provide employment for unemployed men in the wool industry and to help the wool industry grow in Michigan.

Wilson Compares Reactionary, Progressive And Radical Ideas on the Money Question

The public mind has been so entirely occupied by events of immediate moment that the deep and fundamental issues have been largely ignored. It is the purpose of this article to show the differences between the reactionary, progressive, and radical views on the money question.

A Corrupted Proof

Each of the great parties has its followers. The reactionary party is composed of those who believe in the retention of the gold standard; the progressive party is composed of those who favor the adoption of a gold and silver standard; and the radical party is composed of those who favor the abolishment of the gold standard.

The reactionary party believe that the gold standard is the basis of all sound currency; that it is the foundation of all stable government; and that it is the保障 of all free enterprise and freedom of trade.

The progressive party believe that the gold standard is an absurdity; that it is a fraud; and that it is a means of enriching the few at the expense of the many.

The radical party believe that the gold standard is an anachronism; that it is a relic of the past; and that it is a means of perpetuating poverty and inequality.

In the reactionary party, there are many who believe in the retention of the gold standard, but who are not opposed to the adoption of a gold and silver standard. These are called "moderates" or "conservatives".

In the progressive party, there are many who believe in the adoption of a gold and silver standard, but who are not opposed to the retention of the gold standard. These are called "moderates" or "reformers".

In the radical party, there are many who believe in the abolition of the gold standard, but who are not opposed to the retention of the gold standard. These are called "moderates" or "anarchists".
