BUSINESS IN ALL LINES CONTINUES DOWNWARD TREND

AGRI-PRICES LOWERED IN THIS CENTURY, INDUSTRY IS GETTING THINNER

Washingtor.-The flood of agricultural business has been much lower in recent weeks, and March and April are considered so thin that the market of the New York Board of Trade, established in 1875, is probably the thinnest since its beginning.

The theory properly begins with the farmers, and in their present distress, the amount they were running some weeks ago in the States, like trading in Boston, has shearing, holding, a change in wool vacuum in piece goods and made-up goods.

However, money. The Ass'n is certain that it wool and talking wool with him. Farmers enjoy watching him grade fleece was tagged with a number. al work during their lives. Records Most of the college sheep are perform-

Recipe for An Obedient Child

Recipe for An Obedient Child

A Sleeper among its kind, this recipe for an obedient child is sure to be a hit. It's simple, easy to follow, and guaranteed to produce results. Follow these steps:

1. Start by setting clear expectations. Make sure the child understands what is expected of them.
2. Use positive reinforcement. Praise them when they comply, and offer rewards.
3. Be consistent. Stick to the rules and consequences, without wavering.
4. Avoid punishment. It can be counterproductive and damage the child's trust.
5. Be patient. Change takes time, and it's important to give the child the opportunity to learn.

By following these steps, you can increase the likelihood that your child will be obedient and responsible. Happy cooking!
Time Saving Recipes

**Medicated Eggs**

Most medicinal or medicinal ingredients for chickens can be fed on a regular basis without any harm. The most important thing to remember is to keep the medicine fresh and free from dust. The eggs should be gently mixed with the medicated ingredients and then added to the feed. The eggs should be fed only to the sick birds.

**Bakery Filling Aerolys**

Aerolys is a type of filling that is used in bakery products. It is a mixture of flour, sugar, and water. The filling is added to the dough and baked to a golden brown. Aerolys is also used in pastry and cake making.

**Chinese Customs That Are Strange To Us**

1. Kneading
2. Crotch
3. Foot
4. Stick
5. Shell
6. Mortar
7. Pestle
8. Roast
9. Chopsticks
10. Tongue

These are some of the day-to-day activities that are strange to us. They are part of the Chinese culture and are used in their daily life. The Chinese use these activities to make their lives easier and more convenient.

**Home and Family Section**

**JUSE with Confidence**

**COOKING AND IRONING**

It is not always easy to maintain a neat and tidy home. However, with a little effort and some time management, it can be done. The key to success is to stay organized and to have a plan.

**Preparing Now**

The most important part of preparing for the future is to start now. This can be done by setting goals and making a plan.

**Coming to Detroit**

Not time drive direct to Hotel Fort Shelby where alert, courteous attendants will relieve your trip and return at your command, free of charge. You'll be pleased with Hotel Fort Shelby's moderate garage tariffs, and its immediate accessibility to the city's commercial and financial districts. And if it's lunchtime, we recommend any of our three restaurants: the Grill, Coffee Shop or Dining Room. The variety of choices offered in our menu economy is reflected in this typical Club Luncheon at 75c.

**Telephone**

protects farm buildings from fire

When fire threatened the buildings on a farm near Mason, Michigan, neighbors and the village fire department were contacted by telephone, extinguished the blaze before material damage was done.

The owner of the farm expressed appreciation of the protection the telephone afforded in safeguarding property and the lives of loved ones.

Your telephone stands ready day and night to summon aid in case of fire, accident, sickness or other emergency. It is PRICELESS PROTECTION, 44¢ a month.

$1,976,853 Surplus Protects Your Policy

In the State Farm Mutual Auto Insurance Co.

According to Alfred M. Best Co., authority on all insurance in America, the State Farm Mutual Auto Insurance Company of Bloomington, Ill., merits its highest rating for policyholders.

Best shows that Dec. 31, 1931, the State Farm Mutual was in position to pay every liability against it and would have left over $1,976,853 in surplus which is a surplus of 35.6% above the statutory test.

At that time the Company reported that it owned more than $8,900,000 in bonds, 73.75% of which were U. S., Government, State, County and Municipal and Public Utility securities. The balance was in railroad, industrial and Joint Stock Land Bank bonds. None of the list were in default in principal or interest payments.

The Company takes pride in making such a statement of financial strength to policyholders in this time of financial hazards.

Few Changes Made In General Fishing Laws

A few changes have been made in the fishing laws of the state, but none of them will mean much to the sportsman. The main change which is most noticeable is the increase in the creel limit.

The creel limit for fish was increased from 10 to 15, but this does not apply to salmon and trout. The creel limit for trout remains at 10, but the limit for salmon has been raised from 12 to 15. These changes were made in an effort to conserve the fish population.

The other changes are minor and do not affect the sportsman. The law now provides for a license fee of $1.50 for residents and $2.50 for non-residents. The law also provides for a fine of $50 for fishing without a license.

Home Helps

In making window boxes a small amount of change is the same as in putting up the window box. The same principles apply. There will be no change in the window box this year, and it will be the same as last year.

Give Rhubarb And Asparagus a Rest

Rhubarb and asparagus are two of the first vegetables to come into the market. They should be given a rest before being used. When cutting asparagus, cut them only once in the season. The leaves and the shoots of rhubarb should be cut when they are young and tender. They should be cut when the leaves are fully developed.

RATS EASILY AVOID MOST POISON BAITS

The types of baits used to catch rats are more important than the container used to store the bait. Rats are not easily caught by using traps or other devices. They are more easily caught by using a container which is not easy to open.

Cheese And Notions About It

Cheese is a dairy product that is made from milk. It is a food that is used in a variety of ways. It is used in sandwiches, salads, and other dishes. Cheese is a food that is used in a variety of ways. It is used in sandwiches, salads, and other dishes.

SUFFICIENT SLEEP

by DR. EDWARD R. APPENZELL

Any physician thoroughly approves and recommends it for every individual. For that reason, I have been in the habit of commending it to the world. I am sure a sufficient amount of sleep is taken for the body to recuperate from the labors of the day.

It is quite proper that certain medicines and other substances should be taken in order to maintain the health of the body and to insure a good night's sleep. But if a sufficient amount of sleep be taken, the body will be able to recuperate from the labors of the day and to be ready for the coming day.

It is the duty of our medical profession, to diligently advise the patients to take sufficient sleep. The information of the importance of sufficient sleep, which is to be obtained from the best medical authorities, should be carefully studied and carefully attended to.

The rule of the medical profession is, that, if a sufficient amount of sleep be taken, the body will be able to recuperate from the labors of the day, and to be ready for the coming day. The importance of sufficient sleep, which is to be obtained from the best medical authorities, should be carefully studied and carefully attended to.

It is proper that sufficient sleep be taken, as well as sufficient food and sufficient exercise, in order to maintain the health of the body.

Newcomers Need Help

In Van Buren County

By Per Page—Apparently many people are moving into Van Buren County. The Agricultural Agent, W. G. Johnston, reports that there are many newcomers, and a number of whom have just moved to the county. Many of them find practically nothing today.

The problems confronting these newcomers are rather serious, and it is not unusual to meet with a situation in which they are not able to find a place to live. Many of them are not able to find a place to live, and are moving to the county in order to find a place to live.

It is hoped that the newcomers will find a place to live, and that they will be able to make their homes in the county. Many of them are not able to find a place to live, and are moving to the county in order to find a place to live.

FREE MOTION PICTURES

Chicago—The American Farm Bureau Federation continued its somewhat successful attempt to have an uninterrupted supply of free motion pictures for member organizations by holding a noon meeting at the American Legion Post in Chicago.

A TYPICAL SHOW

The local American Legion Post was packed to capacity, and a typical show was held. There were several excellent programs, selected from those shown at previous meetings.

The program of the day was the same as usual, including motion pictures, presentation of a short subject, and the regular meeting of the organization.

One member of the organization, Mr. C. O. Johnson, from the Van Buren Post, introduced a program of short subjects dealing with various phases of agriculture.
