End of Double Taxation Sought by the States

$1.17 Wheat in France

Farmers in France are organizing because their controlled price for wheat goes down to 1.17 per bushel whereas American farmers have called a number of sessions and 5 hits would go up to that point.
The average daily make of butter was secret-
operating the plant. The total volume monthly for cream, .ess actual cost of

Farm Bureau Fence made of Copper Bearing Steel lasts longer

This is the only outdoor fencing made in the manufacture of Farm Bureau from past three weeks. In the photo you can see how the copper content of not less than 95%, this material is remarkably resistant to corrosion. The fence does not suffer from the corrosion of other materials, preventing the growth of rust and providing a longer service life.

New Pastures

Now they're cheaper!

ECONOMIC conditions call for increased production of clean, white meats. This is necessary to meet the needs of the market. The quality of Kentucky Blue Grass is in direct proportion to its purity. Kentucky Blue Grass of the highest quality is now available direct from the farm to the fence builder. The order blank is printed on a silver background and is available below.

NATIONAL OIL PRODUCTS COMPANY, INC.

DEPARTMENT 192, DETROIT, MICHIGAN

These Four Make a Market

1. Producer and Livestock

2. Swift & Company

3. Retailer

4. Consumer

Swift & Company has to sell quickly, mostly as meat, the animals it buys daily. First, meat is perishable and would lose its value if not passed into retailer's hands promptly. Second, consumers must be cleared for new supplies coming in. Otherwise, producers would have to hold their livestock and watch stores become less valuable.

On Western ranges and in Mid-West feed lots, hogs, beef and hog cattle mature daily. Once finished and ready, any delay in their sale would mean loss to the producers. Through Swift & Company's daily nationwide marketing service, the producers from these animals are always salable. The grower sells them and is paid spot cash.

2. Swift & Company

Swift & Company has to sell quickly, mostly as meat, the animals it buys daily. First, meat is perishable and would lose its value if not passed into retailer's hands promptly. Second, consumers must be cleared for new supplies coming in. Otherwise, producers would have to hold their livestock and watch stores become less valuable.

Swift & Company has to sell quickly, mostly as meat, the animals it buys daily. First, meat is perishable and would lose its value if not passed into retailer's hands promptly. Second, consumers must be cleared for new supplies coming in. Otherwise, producers would have to hold their livestock and watch stores become less valuable.

Once "browned", meat can not be withheld from the consumer. He cannot be compelled to buy it if he must be persuaded. The price of meat is, always and has been, the highest which the consumer will pay, through his retailer, and absorb the entire supply of each kind.

Swift & Company's receipts from mật and hog products must pay for the livestock and the control of handling them. Handling efficiency is high and cost low.

Producer and livestock market, packing industry, retailer, consumer—these four factors make up the market. Swift & Company offers the highest quality of meats in Swift's Breded Beef and Lamb and Swift's Premium Hams and Roasts, Swift's Breakfast Biscuit and Eggs and many other quality products.
