Surplus Control.—By Brains or by Firewalls.

Reserve Bank. The board of the Federal Reserve Bank in New York has taken strong measures to control the flow of gold out of the country. The board has ordered that all gold shipped out of the country shall be accompanied by a permit issued by the Federal Reserve Bank. The board has also ordered that all gold shipped out of the country shall be accompanied by a permit issued by the Federal Reserve Bank. The board has also ordered that all gold shipped out of the country shall be accompanied by a permit issued by the Federal Reserve Bank.

The American Association for the Prevention of Child Labor has prevailed on the Federal Reserve Bank to issue permits only to persons who are members of the association. The association has also prevailed on the Federal Reserve Bank to issue permits only to persons who are members of the association. The association has also prevailed on the Federal Reserve Bank to issue permits only to persons who are members of the association.

President. In his annual report the President of the United States has emphasized the importance of controlling the flow of gold out of the country. He has said that the flow of gold out of the country is a matter of great national concern and that steps must be taken to prevent it. He has also said that the flow of gold out of the country is a matter of great national concern and that steps must be taken to prevent it.

Will Ring of Codes Surround the Farmer? The President has recommended that codes be established to control the flow of gold out of the country. He has said that these codes should be enforced by the Federal Reserve Bank and that all persons who are members of the association should participate in their enforcement. He has also said that these codes should be enforced by the Federal Reserve Bank and that all persons who are members of the association should participate in their enforcement.

Apple Harvest. The President has also recommended that the Federal Reserve Bank be given the power to withhold gold from persons who are not members of the association. He has said that this power should be used to prevent the outflow of gold from the country. He has also said that this power should be used to prevent the outflow of gold from the country.

Feed Soy Bean Meal To Avoid Soft Tanks. The President has recommended that soy bean meal be used to avoid soft tanks. He has said that soy bean meal is a good source of protein and that it can be used to prevent the outflow of gold from the country. He has also said that soy bean meal is a good source of protein and that it can be used to prevent the outflow of gold from the country.

Aking $3. U. S. Loan on Beans, No Peaceful Job. The President has recommended that the United States government should take steps to prevent the outflow of gold from the country. He has said that these steps should include the establishment of codes to control the flow of gold out of the country. He has also said that these steps should include the establishment of codes to control the flow of gold out of the country.

The President has also recommended that the Federal Reserve Bank be given the power to withhold gold from persons who are not members of the association. He has said that this power should be used to prevent the outflow of gold from the country. He has also said that this power should be used to prevent the outflow of gold from the country.

Controlled Inflation Has Begun. The President has also recommended that the Federal Reserve Bank be given the power to withhold gold from persons who are not members of the association. He has said that this power should be used to prevent the outflow of gold from the country. He has also said that this power should be used to prevent the outflow of gold from the country.

The Telephone Provides Protection in Emergencies

It's comforting to know that, should emergencies occur, your telephone will enable you to reach doctor, veterinarian or neighbors instantly... any time of the day or night.

In case of fire, sickness, accident, flood or thievry, there is no quicker way for the farmer to summon aid than by telephone.

When loved ones or property are thus endangered, just one telephone call for assistance may be worth the cost of the service for a lifetime.
We're Buying Seed Now for 1934

We are in the market as usual for this time of the year. Michigan grown June, Mammoth, Alaskan, Sweet Clovers and Alfalfa seeds. Send us an 8 ounce sample of your seed. Make it representative by taking equal amounts from each bag. Write us the amount of seed you have and we will quote you. We send mailing bags on request.

FARMERS' STRIKES

and the President's plan for better prices

UNDOUBTEDLY mean better markets for dairy products soon. Remember, a cow that goes out of condition seldom regains the lost ground as a producer.

GUARANTEED ANALYSIS

Protein.............29.0% Moisture.............10.8% Fat.................6.0% Casein..............9.0% Protein Digestible........15.0% Protein Undigestible........3.0%

OPEN FORMULA

Feeding Instructions:

With 32% Grains

Mile

1 lb. grain mix to 6 lbs. 4% milk; 1 lb. grain mix to 5 lbs. 6% milk; 1 lb. grain mix to 4 lbs. 8% milk; 1 lb. grain mix to 3 lbs. 10% milk.

High Yield—Low Cost

MERMASH 16% protein supplies the goods to pullets and hens.

Now Rising Again

EGG PRICES ARE MOVING UP. The prices or bays that pays is the one that lays, and lays steadfastly through the fall and winter.

MERMAH is a supply that will mean higher profits to the grower and more money to the consumer. Mermah is the best home grown grains, meat scraps and other feedstuffs with ocean kelp and fish meal.

ALL POULTRY responds to MERMASH 16% with increased growth, vigor and production. The standard test is to separate a flock in even groups. Feed one set Mermash, the other set any other ration. Judge by the results. Mermash invites this test.

Price of feed is important. Mermah has always aimed to be about the lowest priced good poultry mash on the market.

Ask your coop about Mermah. Look at the feed tag and see the good ingredients listed pound for pound. Your feed dollar goes far with Mermah.

Oil and 55,000 Miles

Recently we had a 1921 Oldsmobile that had traveled 35,000 miles opened for inspection for the first time. The valves were in perfect condition. Good gasoline and Farm Bureau oil.

Farm Bureau oils are made from the best paraffin base mid-continental oil. Superior refining equipment and the right process of refining makes Farm Bureau oil cheaper than the best competitors. Low priced, Farm Bureau oil is cheaper than repairs. See your coop.
