TRI-COUNTY FARM BUREAU MEETING WELL ATTENDED

Several Hundred From Huron, Tuscola, and Huron Counties Gathered at the Huron County Auditorium, Depew Memorial Auditorium, and the New Huron County Fairgrounds in Bay City

Friday, April 6.

Mrs. Edith Wagar, home and community director for the Michigan State Farm Bureau and Mrs. Ruth Powell, director of the American Farm Bureau Federation, addressed the meeting. Mrs. Powell was introduced by Mr. John P. Michalski, chairman of the special committee which had the task of arranging the meeting with Mrs. Powell.

Mrs. Powell, in a brilliant address which drew enthusiastic applause from the large audience, presented a comprehensive view of the work of the American Farm Bureau Federation and its member bureaus. She emphasized the importance of unity in the fight for agricultural issues and the need for active participation by all members. Mrs. Powell's talk was a clear and vivid exposition of the facts, backed by statistics and figures, which she used to drive her points home. Her speech was a call to action, urging all farmers to become involved in the fight for their rights and to support the Bureau's programs.

The meeting, which was well attended, included representatives from the Huron, Tuscola, and Huron counties. The atmosphere was one of excitement and enthusiasm, with the audience responding warmly to Mrs. Powell's address. The meeting concluded with the announcement of plans for future activities and a call for volunteers to assist in the upcoming programs.

Crops Approved for Land Taken Out of Wheat

The Michigan State Board of Control, under the direction of Mr. John P. Michalski, has approved the following crops for land taken out of wheat:

- Barley
- Buckwheat
- Buckwheat
- Clovers
- Field corn
- Flax
- Millet
- Oats
- Red clover
- Sweet clover
- Timothy grass

The approval of these crops is effective immediately and is not subject to cancellation. Farmers are encouraged to plant these crops in accordance with their needs and to follow the directions of the Michigan State Board of Control and the local cooperative extension service.

Write to Our Senators to Help This Farm Bill Fail

The Michigan Farm Bureau has called upon all members to write to their senators to oppose the Farm Bill being discussed in Congress. The Farm Bill, which seeks to provide federal assistance to farmers, is being debated in both the House and the Senate. The Michigan Farm Bureau believes that the Farm Bill is not in the best interest of the farmers and that it will lead to higher costs and reduced profits for them. They encourage all farmers to write to their senators and to remind them of the importance of protecting the interests of farmers.

Powell Directing Assembly of Wool for the 1934 Pool

Wool As Tied to 25 Per Cent on Maturity Dates

The Michigan Cooperative Wool Marketing Association has approved the following wool for the 1934 pool:

- 100% Purebred Fleece
- 50% Purebred Fleece
- 25% Purebred Fleece
- 10% Purebred Fleece

These recommendations are effective immediately and are subject to change. Farmers are encouraged to contact their local cooperative extension service for more information on the current status of the wool pool.

SPECIAL SESSION SUMMARY FROM FARM VIEWPOINT

Some Tax Relief; Some Bad Bills Killed; Sales Tax Relief Denied

The Michigan Farm Bureau Board of Directors met in special session to consider a number of proposals. One of the key issues discussed was the proposal for sales tax relief. The Board was divided in its support of the proposal, with some members favoring it and others opposed. The Board eventually voted to deny the proposal.

Another proposal that was considered was the ranking of state cooperation agencies and the proposal for relief for cooperatives in the state. The Board voted to deny this proposal as well.

The Board also considered the proposal for some tax relief. In this proposal, some tax relief was granted, but other tax proposals were rejected. The Board voted to approve this proposal.

The Board of Directors also considered the proposal for some bad bills. In this proposal, some bad bills were killed, and others were approved. The Board voted to approve this proposal.

The Board of Directors met again in special session last week to consider a number of proposals. One of the key issues discussed was the proposal for sales tax relief. The Board was divided in its support of the proposal, with some members favoring it and others opposed. The Board eventually voted to deny the proposal.

Another proposal that was considered was the ranking of state cooperation agencies and the proposal for relief for cooperatives in the state. The Board voted to deny this proposal as well.

The Board also considered the proposal for some tax relief. In this proposal, some tax relief was granted, but other tax proposals were rejected. The Board voted to approve this proposal.

The Board of Directors also considered the proposal for some bad bills. In this proposal, some bad bills were killed, and others were approved. The Board voted to approve this proposal.
No Imports Means No Rubber, Tin, Coffee

Senator Fletcher is a speaker on January 17, 1917, when he made the President of the Senate this offer: if you lift the embargo on our imports of rubber, tin, and coffee, and do without silk clothing or goods. These three items, he said, could be solved as insolvency, unless distribution and price are the result of a national policy of conservation. The President is as a rule favorable to our domestic industries and cotton. But the embargo would be the result of a national policy of conservation, and Mr. Fletcher said it was high time for the embargo to be removed because the embargo will pay his adjusted debt against it. Nevertheless, public interest demands that legislation be opposed by guilty and powerful manufacturers of the products in question.

Masonic Farm Bureau Band Concert April 18

Scottville—Wednesday evening April 18 at 8 p.m. the Masonic Farm Bureau Band will give a concert at the Scottville Community Church. Two novelty plays will be presented to the Masonic Farm Bureau Band and the program is being given in lieu of the Masonic County Pork Bureau Band.

Butter Was 76c Per Pound

The highest market retail price for butter in Michigan was 76 cents per pound in the month of December, 1915. This was the average price for the year.

Hensery Goen LISTED

This list includes all the henseries that are included in the Michigan Farm Bureau Band in the month of the last March, 1915.

How Cotton Destroyed

HOMED 111,000,000 pounds of cotton was produced in 1914 when cotton was ripe. This was the result of the work of the Michigan Farm Bureau Band in the last March, 1915.

INFECTION SAFETY CLAYS

Clays have taken some advantage for their economic development under a national climatic policy, which requires unsatisfactory conditions and ratified in those states.

What is Legal and Taxable in Michigan May Not Be in Missouri

Missouri has enacted a sales tax on the sale of goods and services. It is in effect in Missouri, but not in Michigan. Missouri, by a sales tax law, taxes certain goods and services. Missouri, however, taxes the sale of water, and Michigan does not.

Drenching and Dipping Cheap and Payes Well

In the days of the California gold rush, it is perfectly true that there was a demand for cheap and payes well.

ECONOMICAL ADVANTAGES

The Michigan Farm Bureau Band has been operating in Michigan for the past five years, but the Michigan Farm Bureau Band has not yet been able to operate in Michigan. It is hoped to operate in Michigan in the future.

FARM BUREAU MEMBERS IN ONE DAY

GOT 72 FARM BUREAU MEMBERS IN ONE DAY

By BERT BROWN, TOLUCA

When we took a look at the size of our FARM BUREAU, we were impressed with the number of members we had. We decided to see if we could increase our membership by organizing a FARM BUREAU in a short time. We then asked our members to sign up for the FARM BUREAU and we were surprised to find that we had 72 members in one day.

FIRE SHOWS FARMER THE VALUE OF HIS TELEPHONE

Mr. M. — walked through his office to answer the telephone. Times had changed, he thought, as he took his telephone service for granted.

While he was there, his wife telephoned him on the farm, asking for the operator that was out in the fields to report that the fire was out.

Mr. M. thought that this was odd, as he had just hung up the telephone. He didn’t understand what was going on.

Alfalfa is the Cheapest Protein

Price and demand for hay is strong. Price of Farm Bureau alfalfa seed is attractively low, despite the national shortage of alfalfa seed and increased demand. Alfalfa hay and pasture is the cheapest source of protein for all classes of livestock, in periods of low or high prices. In good times alfalfa makes the long profits for dairymen and feeders.

Many farms are short of alfalfa acreage in comparison with the stock they have. Two acres per dairy cow is a good measure. Ask any man who has alfalfa and he will tell you it’s the best investment he ever made. When pastures were so dry last year, alfalfa fields were green. They produced pasture and hay. This spring you can still buy Farm Bureau Brand No. 1 seed under prices of other years. When you have fitted and limed ground, why take a chance on anything but Farm Bureau’s clean, tested, high germinating and high yielding varieties of alfalfa? You can slow fewer pounds of it per acre and get more hay per acre.

INSIDE INFORMATION ON FERTILIZER
Fertilizer prices will be much below balances of the fertilizer code. But QUALITY will mean more to you than money in the bank.

Regulators, NITROGEN in Farm Bureau Fertilizers is 99% soluble in water and immediately available to the plant. Mode low requirements only 5% soluble. Farm Bureau does not use low grade sources of nitrogen.

Fertilizer nitrogen is three to give medallions a STRONG start. The first 2 inches of corn will use all the nitrogen in the amount of fertilizer generally applied for corn. After the soil warms up, the plant gets its own from the soil. Our super-phosphate and potash are the very best. Farm Bureau fertilizer is what you want. Easy to regulate in the drill. Use Farm Bureau Fertilizers for Beans, Beets, Corn, Truck.
