CITY CAMPAIGN FOR COUNTY GOVERNMENT CONTROL MAY WIN

Amendment to Constitution Aimed at Boards of Supervisors

Farmers appear to have lent the blessing of their time to a vote to separate revenue from county boards of supervisors in the state of Michigan. The Michigan Agrarian League is now organizing a campaign to have the amendment passed at the state election in November. The amendment is now seemingly on the way for official endorsement.

The amendment to the Constitution provides for the establishment of a county board of supervisors for each county. The board would consist of five members, elected by the county, and would have the power to levy ad valorem taxes for the support of county government.

The amendment would also provide for the funding of the county government through a system of direct taxation, rather than through the sale of bonds. This would ensure that the county government is funded directly by the taxpayers of the county, rather than by the state government.

The amendment has been endorsed by a number of organizations, including the Michigan Agrarian League and the Michigan Farm Bureau. The amendment is expected to be on the ballot in November, and is expected to pass if it receives the necessary support from the state legislature.

Herbert Hoover's campaign for president is being supported by a number of organizations, including the Michigan Agrarian League. The League has been active in supporting Hoover's campaign, and has been working to mobilize support for the Republican candidate.

The League has been working to mobilize support for Hoover's campaign, and has been working to mobilize support for the Republican candidate. In addition to the campaign for the presidency, the League is also working to support the Republican candidate for governor, and to support the Republican ticket in the state legislature.

Let the Fox Fly

More than a few turnkey livestock factories, dedicated primarily to the production of lamb, beef and dairy products, are being built in the United States. This is due, in part, to the rising cost of feed and the financial support with which the Michigan Farm Bureau is working to stabilize the industry. It is believed that when buyers are more assured of getting the kind of stock they want, the market will be more stable.

The Bureau is sponsoring the construction of livestock factories in several areas of the state, including the northern and central regions. These factories will be equipped with modern facilities for handling and processing the animals, including the slaughtering, packing and distribution of the meat products.

In the northern and central regions, the Bureau has been active in promoting the development of livestock factories. This includes providing financial assistance for the construction of the factories, as well as assisting in the training of employees and providing marketing support to help ensure the success of the operations.

In conclusion, the Bureau's efforts in promoting the construction of livestock factories are aimed at improving the economic viability of the industry and enhancing consumer satisfaction. By providing a more stable supply of quality meat products, the Bureau is contributing to the overall health and growth of the livestock industry in Michigan.
FARM BUREAU DEALERS

3 Day All Expense De $757 to the World's Fair

Who suffers by unfair tolls? You and your driver suffer. You are paying for roads that get twenty or more times your local toll fares. The toll collector's fund is divided between: 1. the highway department, 2. the state, and 3. the local road fund. Why pay for a service that all use? And save! The same for taxes on property and the sales tax on groceries and food. Every dollar counted and used for the interest on the bond. It's just as unfair an arrangement as having the owners of the property pay for the roads.

WEST MICHIGAN CO-OPS, FARM BUREAU TO MEET

The Michigan Farm Bureau, West Michigan Co-ops, and the Michigan State Farmers Association will hold a joint meeting on Thursday, September 12th, at the LaSalle Hotel, Chicago, for the purpose of discussing various farm and rural problems. The meeting will be held in conjunction with the annual meeting of the Michigan State Farmers Association, which will be held at the same time and place.

Mrs. Wagner Puts Critic of Farm Groups in His Place

Examination of This Knocker's Co-Operation Agreement

By MR. J. H. WAGNER

"What about the Farmer?" the knockers asked me the other day.

"What's your farm organization? I've heard of the Farmers' Alliance," I said.

"There is a new one," the knockers said, "the Farmers' Co-Operative Alliance."

I was about to ask them what it was, but I didn't get a chance, for they interrupted me with a long explanation of the advantages of the new organization.

This was the impression left by a fellow farmer the other day when we discussed the Alliance. It was disingenuous. Here was a man so eager to sell his wares that he was willing to quote anything and everything that the new organization offered.

I knew he was in earnest, as was any organization that promises a farmer's peace of mind. I could not help wondering how it was going to be, however, if he was as willing to be duped as he was to be with other organizations.

I asked him how many organizations had come to him in the past year. He said he had been approached by three organizations, one of which was the Farmers' Alliance. He said he didn't know how many others there were, but he knew that he had been approached by the Alliance at least once.

He was interested in the Alliance, he said, because he wanted to sell his wares more easily than he had in the past. He wanted to sell them more easily, he said, because he wanted to sell them at a better price than he had in the past. He wanted to sell them at a better price, he said, because he wanted to sell them at a better price than he had in the past.

I asked him how many organizations he had heard of. He said he had heard of three organizations, one of which was the Farmers' Alliance. He said he didn't know how many others there were, but he knew that he had been approached by the Alliance at least once.

SOW ALFALFA THIS SUMMER

Farm Bureau Seeds at Today's Prices

Save Again by Sowing Less of These Certain Seeds Per Acre

FARM BUREAU ALFALFA IN

Monroe County

HARDIGRIM AND GRIFFIN

Certified, None Better for Quality and Yield

Certified Hardigrim or Griffin, Blue Tag, are the best varieties for summer seeding, with
out a chance crop. They have no superior for yield or quality of hay. Riches for produc-
tion of certified seed. Now this superior seed at the rate of 7 to 8 bu. per acre. Farm
Bureau Hardigrim and Griffin stocks are limited. If you plan to sow sooner this summer, see
your Farm Bureau dealer now.

MICHIGAN VARIEGATED

A Great, Low Cost, Long Lived Hay Producer

Michigan Variegated Alfa seed comes from fields from garnet Hardigrim, Griffin, Ontario Variegated, Lushion, or Gemara varieties, which are our best, strongest, longest
and heaviest yielding varieties. These fields were not registered for certified seed produc-
tion, but they have produced seed, which is known as Michigan Variegated. Variegated is an
outstanding hay yielder. The seed is selected, high test and thoroughly cleaned. The price
is a money saver. Why pay fancy prices for "affidavit" Griffin or Hardigrim when you can get
them in Michigan Variegated at lower prices? 8 to 9 lb. Montana Grinnell

Alfalfa Special

The seed of this variety, Montana Grinnell, is the best variety for the Indiana market. The
seed is selected, high test and thoroughly cleaned. The price is a money saver. Why pay
fancy prices for "affidavit" Montgomeri or Hardigrim when you can get them in Montana
Variegated at lower prices? 8 to 9 lb.

FARM BUREAU SEED GUARANTEE

The Farm Bureau Service, Inc., of Lansing, guaran-
tee to the farmer to the full purchase price of its seed,
the vitality, description, origin and purity to be as de-
scribed on the analysis tag on sealed Farm Bureau bag.
