SOAPMAKERS TO SIDETRACK FARM TARIFF VICTORY?

Would Stamp Duty Until Philippine Islands Are Investigated

Washington—Clean-up operations, including the big stamp duty currently charged against Philippine Islands, have been investigated by the House Ways and Means Committee. This was not a small issue when it was last discussed, but the committee has been unable to reach any conclusion.

Wool Futures Look Good to Ass'n Meeting at Chicago

Buyers' Quick Profits Drop Market, But Demand Stays Strong

LONDON—The Michigan Cattlemen's and the Western States Association, who met here early this week, are preparing to make the agricultural trade associations stronger than ever before. The meetings of the two organizations have been successful and it is expected that they will be able to cooperate in the future.

General action by private buyers by the wool market during the past 10 days has resulted in a sharp drop in prices. The market has been affected by the current depression and prices have been lower in all parts of the country.

SHOWS HOW EXTRA YIELDS PER ACRE RUN UP PROFITS

Sims Says in Crop Reduction Program, Keep Up The Yield Per Acre

LONDON—Everyone should understand that we and our trade are in a crisis, and that the results of the past few months have been disastrous. The market has been affected by the current depression and prices have been lower in all parts of the country.

Alfalfa Seeds in June or Early July Has Advantages

Clean, Firm Seed Bed, Warm Soil and Showers Help, Paul Alger Says

By FRED G. MEYER

Michigan State College specialists state that next year's alfalfa harvest can be improved if seed is planted in June or early July. Alfalfa seeds will be handled if proper conditions are met.

Michigan Department of Agriculture officials state that proper conditions are met. Alfalfa seeds will be handled if proper conditions are met.

Three May Days That Mean More Than Trips and Movies

By JOHN SULLIVAN WARD

The season of May brings to our hearts a beauty and a serenity that is felt everywhere. It also brings Chase, the Michigan College of Agriculture and Applied Science, and the beginning of the season for the Michigan State College of Agriculture and Applied Science. The weather has been quite perfect for the rebirth of the season, and we are encouraged to see the beauty in the scenery.

And what of the season of romance? Will there be a renewal of sentiments and wise words, or the same old stories? There are certainly many problems that will be faced during this period, but it is also a time of new beginnings and hope. We should be encouraged by these new beginnings and hope.

A Quarter of a Century of PROGRESS!

اسب بحث عن القدرة على الاستماع إلى الإعلانات في الساحة الإذاعية، أو على ما يطلق عليه بالمراعاة، فإن عمرنا التجاري والثقافي واضح.

Several of these problems have been identified during the past quarter of a century, and the solutions have been proposed. It is important to understand the nature of these problems and to work towards developing solutions.

Ford to Help Farmers Manufacture Soybean Oil

Barry—Ford is playing a significant role in helping farmers produce soybean oil. The company is working with farmers to help them produce a high-quality soybean oil.

Farm Bureau

The Farm Bureau is an organization that represents the interests of farmers across the country. It works to promote the interests of farmers and to advocate for policies that benefit farmers.

Co-ops Lead All Firms on the Buffalo Market

East Buffalo, N. Y.—The week ending April 27, the Produce Exchange of Buffalo, the Commodity Association and the Buffalo Stock Exchange, led all other firms in the market. The Buffalo Stock Exchange leading across the way for city merchants to follow and get every opportunity to help farmers.

Our amendment vested in the Legislature the sole right to initiate legislation. This is the law.

Our task is to defeat the Detroit plan of county home rule.

Farm Bureau

The Farm Bureau is an organization that represents the interests of farmers across the country. It works to promote the interests of farmers and to advocate for policies that benefit farmers.

In 1900 a common way of packing poultry for shipment was to "ice it" in barrels. The refrigerator cars used by Swift & Company today are as superior to the old "iced barrels" of the past as a late model automobile is to the ex-curt of pioneer days.

Each car is a gigantic leather box on wheels. In it are compartments big enough to hold about 6,000 pounds of ice and axle. These hold the car's contents under the same temperature during an entire trip.

Gustavus F. Swift, founder of Swift & Company, was one of the first to visualize the need for such cars in transporting meats. More than 7,000 of them are now used by Swift & Company for poultry, dairy products and meats.

A central market of improved methods is seen in the Swift plants of the Ohio stock markets.
Support your fellow workers
-BUY THEIR PRODUCT!

It should not be unmaintainable to ask one American
farmer to support another American farmer.

If you know that Michigan farmers grow the sugar
beans from which is made our highly refined Beet Sugar
you should take it as a personal patriotic duty to buy
all you can of Michigan-sugar at its lowest price of
a penny a pound.

Do you know that Beet Sugar is rich in 
minerals and vitamins, and contains
no sugar alcohol (sorbitol)?

Beet Sugar is good for you.

Alfalfa Is the Cheapest Feed!

Michigan Variegated, Great, Low Cost, Long Lived Hay Producer

Michigan Variegated Alfalfa comes from fields grown to genuine Michigan, Ontario Variegated, Lelandia, or Oenothera varieties, which are our hardest, longest lived and最爱的 varieties. These fields were not registered for certified seed production, but they have produced seed which is known as Michigan Variegated. Varieties are in an excellent hay yielder. The seed is selected, high test and thoroughly cleaned. The price is a money saver. Why pay fancy prices for "affordable" Grim or Hardigan when you can get them in Michigan Variegated at lower prices?

Certified Hardigan and Grim, blue tag, seeds are very lucky. Be superior for yield and quality of hay. Eligible for production of certified seed. You may buy more than you need! These are the best varieties for summer feeding without a nurse crop. At the rate it's going, there won't be any Farm Bureau Hardigan and Grim left for sale.

June Alicate Mammoth Sweet Clover
JUNE, the old reliable for hay and a cash seed crop. ALACLEI for low cost hay and seed crop. MAMMOTH cheap and abundant burden to plow under—long heavy hay. SWEET CLOVER for low cost pasture, hayyield, hay crops, green manure, seed.

Husking and Ensilage Corn
Certified H. A. C. F6, Golden Glow, Polar Dent. Ford's Yellow Dent. We have a good supply of Ford's. Act toady in 1 year crop. Butted and tipped. Small cob, heavy skiker. Ripe with good vool and mois from Big Bay City to Lake Michigan.

Our Ensilage Corn: Farm Bureau Yellow Rattle, White Oat, C.0. Bond, Leaning, Barusa, Sweepstakes, Reid's Yellow Dent.

Special
If interested in sweet clover for pasture or hay, Farm Bureau YELLOW BLOOMER sweet clover is a good tiny this spring. It produces an excellent stand and is not so coarse as the white bloomer. While the red clover is coarse and the price is lowering the yellow bloomers level. This seed is Michigan grown and very good.

FARM BUREAU SEED GUARANTEE

The Farm Bureau Service, Inc., of Lansing, guarantees to the farmer to the full purchase price of the seed, description, origin and purity as to be described on the tag accompanying the Farm Bureau seed.

FARM BUREAU FERTILIZERS FOR YIELD

Corn Potatoes Beans Beets

Organic farm Bureau fertilizer's 80% water soluble fertilizers for a quick start, to heavy hay yield and early maturity before frost.

Potatoes usually pay in extra yield twice the cost of 200 to 300 lbs., or more fertilizer per acre. More includes per acre extra yield of potatoes.

Beans respond to farm Bureau fertilizer with extra dollars from the extra yield. They mature earlier. We recommend Robust beets.

SUGAR BEETS report in the 99% water soluble nitrogen in all farm Bureau fertilizers. We use the highest grade sources of phosphorus and potash. Farm Bureau Fertilizers regulate easy in drip.

Good alfalfa pastures respond to phosphate and potash fertilizers by carrying more stock and saving in feed costs.

Mermash, the Life Time Feed

We have been using Mermash and have put it to every test and have used it under practically all conditions found on a large poultry farm, a farmer told us recently. He said that Mermash:

1. Produces stronger chickens.
2. Chick lees are lower.
3. Pulls are well developed, early layers.
4. Pental yolk in younger eggs.
5. The egg savings per has in higher.
6. The eggs are hollower shelled.
7. Mermash boosts old hens through the mill

Only Mermash contains Pacific Ocean holy, (a plant) and ocean fish meal, both rich in digestsible fats and other minerals essential for health and growth. Michigan crops and sales are low in these elements. Mermash contains general yellow eggs, pure white yolk, fine mold, blue tag, clean label, ready and fresh.

Mermash has Mermash. Proved low.
