FARMERS UNION GETS NOWHERE AT MILK PRODUCERS
Expected Fight for Control Is Squelched by Attorney General

East Lansing—Squash on effort of the Farmers' Union to force the Michigan Milk Producers Federation to submit to a non-partisan election. Mr. Robert F. Billings, Treas. of the Federation, said Monday that the decision to submit the question to the people was made by the Farmers' Union leaders and that the election was not regular. The local Farm Bureau leaders met in the Hendricks Hotel Monday morning and acted on a motion to permit further discussion, but the meeting wound up in a general discussion of other matters, and the motion to permit further discussion was tabled.

Farm Bureau's Position on 3% Sales Tax

FEBRITON
Presented to the
STATE BOARD OF TAX ADMINISTRATION
on July 26, 1933

MICHIGAN STATE FARM BUREAU

In behalf of Michigan farmers, we, the Michigan Farm Bureau, do protest against the adoption of the 3% sales tax measure and suggest the following plan as an alternative:

1. A sales tax of 2% on all tangible personal property sold at retail.

2. A 3% sales tax on all services rendered.

3. A 3% sales tax on all intangible personal property sold at retail.

We believe that this plan would provide a fair and equitable distribution of the tax burden and would not adversely affect the agricultural community.

Farmers' Union Gets Nowhere at Producers

The Michigan Farmers' Union has had little success in persuading the producers to support any of the amendments. They have been advised that the amendments would not provide adequate protection for the farmers and that they would have to bear a substantial part of the burden of the new taxes.

With Farmers Union At Demonstation Hall

The Farmers Union has been holding demonstrations at various locations in the State. The demonstrations have been well attended, and the farmers have shown their support for the amendments. However, the Union has been unable to gain the support of the public at large.

November 12 Set for Farm Bureau Sales Tax Suit

The Farm Bureau has decided to bring a lawsuit against the State of Michigan over the adoption of the 3% sales tax measure. The Bureau will contend that the tax is unfair to farmers and will seek to have it struck down as unconstitutional.

In Case of Fire

Telephone service provides outstanding fire protection for the farm.

For by telephone, help can be called the instant fire is discovered. In many cases, lack of telephone protection has resulted in destruction of houses, barns and stock.

In any emergency, such as fire, sickness, accident or prowlers, just one telephone call may be worth more than the cost of the service for a lifetime.

Juries Are Generous
With Other People's Money

Sentiment and sympathy are likely to influence a verdict in a damage suit arising out of an automobile accident. Consequently, juries are often very generous to others who have lost money in the damages awarded, in the opinion of the defendant.

The most careful driver may find himself involved in an accident and have to prove in court he was not at fault. Mr. G. M. McCrady has said that in 87 percent of the cases in which he has appeared for over 20 years, juries have given verdicts favoring the plaintiff. In 1 per cent of the cases, the verdict has been for the defendant. In the other 12 per cent, the verdict was for the plaintiff but the amount was reduced so much it was not material.

Juries, however, are generous with the other person's money. In one case, a man who was found to be at fault was ordered to pay $4,000 to the plaintiff, but the verdict was reduced to $200. The plaintiff did not appeal the decision and was satisfied with the $200 award.

Why not let the State Farm Mutual Automobile Insurance Company, a strong legal reserve company, assume your driving risk at a reasonable rate? Let us show how strong this legal reserve company is in comparison with other companies. We can show you the low rates for protection against loss by fire, theft, collision, property damage or public liability. There is no obligation.

For example, one policyholder had his car stolen and all its valuable contents, including a cash register. He made a claim and was reimbursed in full. Another policyholder had his car damaged in an accident and was reimbursed without a deduction for depreciation. The company's claims department is efficient and well staffed.
