FLYNN ACT EXEMPTS FARM SUPPLIES FROM 3% SALES TAX

GOV. FITZGERALD SIGNS BILL BEFORE FARM BUREAU AND CO-OP MEN WHO LED 23 MONTHS FIGHT FOR CHANGE

Farm Bureau Believes End of Tax on Production Supplies Will Mean a Greater Organic Agriculture

More Annually; Farm Bureau and 180 Co-ops Make Good

When Governor Fitzgerald signed the Flynn law on May 23, it marked the successful conclusion of 23 months work by the Michigan Farm Bureau in getting the legislature to co-operate to exempt farm supplies from the 3% sales tax. The Flynn Act was effective with the Governor's signature.

During the 23 months period since July 1, 1932, it is estimated that farmers paid nearly $1,800,000 on the sales tax on seeds, feed, fertilizers, nursery stock, machinery, tools and other materials bought to produce goods to be sold eventually at retail. Statements by State Board of Tax Administration officials have indicated that farmers were paying about $950,000 annually in sales tax.

Exemptions Under the Flynn Act

Senator Coldwell's Act (Senate Bill 27), introduced in January amends the Michigan general sales tax law. It provides exemptions from the 3% tax law of various classes of goods "for consumption or use in industrial processing or experimental production, for production purposes or for any purpose for exemption; presented to the sales tax board in July, 1932. They were included in the Farm Bureau's law and against the board, and were declared exempt by Judge Carr of the circuits court because of the question of whether the tax board was determining the tax under the Flynn law or under the state law for the purpose of determining the correct interpretation of the sales tax law. The Michigan State Farm Bureau, in its effort to have the amendment accepted by the legislature, invited the Farm Bureau to submit a bill to the legislature to provide a solution for the farm problem. The bill was passed by the legislature and signed by the governor.

The Flynn Act also provides that sales to churches, schools, hospitals, charitable, educational, social institutions, children's homes, and public and private colleges and universities, is not operated for profit, and sale of books and food to students by educational institutions not operated for profit are exempt from the sales tax.

Proceeds Go to General Fund

The Flynn Act authorizes the Michigan State Tax Commission to turn all proceeds into the general fund of the state, to be disbursed by the Board of Education for the benefit of agricultural education and the Michigan State College at East Lansing.

The Act was passed by both houses of the legislature and signed by the Governor.

The Michigan Department of Agriculture, under the direction of the Michigan State Bureau of Tax Administration, has been held responsible for the prompt interpretation and enforcement of the act. The Michigan State Farm Bureau, in its effort to have the amendment accepted by the legislature, invited the Farm Bureau to submit a bill to the legislature to provide a solution for the farm problem.

The bill was passed by the legislature and signed by the governor.

Farm Bureau Begins Sales Tax Fight with This Petition

Rejected by Sales Tax Board; Was Foundation for Court Victory

In behalf of Michigan farmers and for the future of the state, the Michigan Farm Bureau has come out against the proposed sales tax measure. It has been the farm organizations' position for several years, and the Farm Bureau has been in the forefront of the fight against the tax.

The Farm Bureau argues that the proposed sales tax would be a regressive tax, putting a burden on the lower-income groups, while benefiting the higher-income groups.

The Farm Bureau believes that the proposed sales tax would be a regressive tax, putting a burden on the lower-income groups, while benefiting the higher-income groups. It is also concerned that the proposed sales tax would put a burden on the lower-income groups, while benefiting the higher-income groups.

Does Your Fire Policy Offer Full Protection?

Where Farm Mutual in Michigan will do is what the policy carriers do in the open market today.

The members of the Hillsdale County Farm Bureau will speak at the after noon session of the County Achievement Day women's group and will meet at the Lansing warehouse of the Michigan Wool Marketing Corporation, where the various wool pool officials. They will visit the seed, supply, and other service departments of the organization and hear the explanation of the consignments and how they are looked after.

Mr. Upham reports that the wool clip before realizing any increase the tonnage of co-operative consignments. Growers who have applied the chain letter principle to the marketing on a non-profit basis. Let'sed to serve and benefit you and the local packers. 

The male mosquito has a short life span, which is only about one week. Pasture any vigorous alfalfa till late fall and early spring pasture. Stop pasturing heavily-grazed pastures. The male has a short life span and does not attack humans; it is the female that is the blood-sucker. The male has a short life span and does not attack humans; it is the female that is the blood-sucker.

Wool Growers Adopt Chain Letter Principle

The chain letter principle in being advocated by the Michigan Wool Growers Association in increasing the usage of co-operative services. The policy provides for a small, personal consultation in the home, with the idea of meeting the public. This method has been used by the Michigan Wool Marketing Corporation in increasing the usage of the services of the corporation.

Company officials have reported that if you take the time to get acquainted with the policy and how it works, you will find it to be a valuable service to your customers.

If you are interested in knowing more about the policy, please contact your local Wool Growers Association office.
No Terror

This issue was dedicated to the memory of the 1916 teaching
heroes who were committed to their profession and
with the call of a pure and simple message: Service to
their students was more important than any material thing.
They were heroes.

What shall we do about them?
