"THE NEW FARM ACT"

SATURDAY, MARCH 7, 1936

Soaked the Tax Rolls

Speaker before a group of farmers was the Hon. Thomas F. Jackson, Secretary of Agriculture for the State of Michigan, who told the Farm Bureau meeting held at Ann Arbor last week that the Federal Government should not be compelled to subsidize agriculture.

"The New Farm Act"

A new provision has been added to the 1936 Farm Act, which provides for the establishment of a Farm Security Administration. This Administration will be responsible for the enforcement of the provisions of the new Farm Act, and will have power to investigate and report on all matters relating to farm security.

Michigan Alfalfa

The planting of alfalfa in Michigan this year is expected to be much heavier than in previous years. The state alfalfa market is being advanced by the Bureau of Agricultural Economics and the Michigan State College of Agriculture.

Future Looks Good to Wool Ass'n at Annual Meeting

The Wool Ass'n is making preparations for the annual meeting, which will be held in the near future. The meeting will be held at the Hotel Michigan in Detroit.

Future Looks Good to Wool Ass'n at Annual Meeting

The Wool Ass'n is making preparations for the annual meeting, which will be held in the near future. The meeting will be held at the Hotel Michigan in Detroit.
Soil Conservation Act In Michigan

The Michigan Farm Bureau organization has not he friendly to any program which will permit pasturing or other uses of land in the corn belt and southern States to get into the dairy business. The Farm Bureau is not in favor of making farm land in the corn belt and southern States part of Michigan's diversified farming area. Michigan can use a soil conservation program that is adapted to Michigan. This State should be encouraged to formulate a soil conservation program that will fit Michigan needs.

Costs $100 to Raise Heifer to Two Years

It takes one hundred dollars to raise a sturdy heifer to two years of age, according to the United States Department of Agriculture. The study was based on 243 heifer calves raised by 56 farms in seven states, the results of which were published in 1935 in the Journal of Animal Science.

GROW MICHIGAN CLOVER

NO CLOVER PRODUCES BETTER in Michigan than Michigan grown June and Mismatch. That's what we have. Selected stocks of A-1 quality and purity, germinating 99.25% or better. Alike is not plentiful. We have Sweet Clover, and Timothy.

BE SURE TO TEST SEED CORN!

UNLESS SEED CORN WAS ARTIFICIALLY DRIED EARLY it is probably no good. If your corn does not test up to your standard, see your Farm Bureau dealer at once. Good corn may be hard to find. We offer for EMILAGE: Farm Bureau Seed Beans, Ohio grown, a good heavy producer; Farm Bureau Yellow Rattles, reliable, Nebraska grown. For HUSKING: (Certified) Forney's Yellow Dent; M.A.C. Golden Glow, and a few varieties of uncertified corn. Choice stocks, fair supply, germination 90% or better. Treat seed corn with Semesan, advertised in this paper.

OATS AND BARLEY

CERTIFIED OATS AND BARLEY are dissociated this year, but the germination is high. We offer WOLVERINE oats for light soils, WORTHY oats for heavy soils. For west part of State we recommend certified Spanish barley for pearling and feeding; for the east part, Wisconsin No. 28 barley for milling and feeding purposes. Treat oats and barley seed with Orens, advertised in this paper.

FARM BUREAU SEED GUARANTEE

The Farm Bureau Services, Inc., of Lansing, guarantee to the farmer to the full purchase price of its seed, if the said seed, when planted in Michigan soil, does not, within the first growing season, produce a crop equal to or better than the crop produced by the seed sold by the said farmer at the same time, and when planted in Michigan soil, does not produce a yield of grain, alfalfa, clover, or other seed, equal to or greater than the yield produced by the same kind of seed, when planted in Michigan soil, at the same time, and in the same quantity, by the said farmer.

THE HARVEST TELLS THE STORY

FARM BUREAU FERTILIZERS can make the difference between a fair crop and good profits.

OUR FERTILIZERS ARE—Kiln dried, free running, easy regulating, and drift proof. Nitrogen is 99% water soluble to give young plants strong start.

HIGH PRODUCTION at low COST

Since 1922 Milkmaker open formula dairy feed, with home grown grains and roughages has increased production with low cost feed.

MERMASH FOR LAYING HENS

Mermash is made with or without fish meal. It is a scientifically balanced ration for chicken hens of any age. Two compliments to poultry feed. Handle with care. A Low Cost, Quality Feed. 

Farm Bureau Fertilizers can make the difference between a fair crop and good profits.
