Behind the Wheel
with J. F. Yaeger, Organizer

Like a "Best Seller"
Joe Berlin never tells a story much different from the others to his listeners, but there is one exception. He has a secret plan for the next road show he visits Mr. Berlin and gets his story in more detail, if he's willing, and return to America and the buying of a farm. He has been living in France since he was 20 years old, and is now a successful businessman.

The story of water power, electricity and the Mediterranian countries, arrest the interest of over 100 Americans on each of the 100-miles-long train. The reason for this is that the power companies shall consider the consumers' interest.

Why Farm Road Taxes Have Gone

Our Hill country farmers are finding that their county has suddenly become a financial paradise, when compared to the high taxes they paid last year. This tax reduction is due to the fact that the legislature has reduced the tax rate in many cases. However, there are still some drawbacks to consider. The reduction in taxes has caused a decrease in the amount of revenue that is available to the county. This has led to a decrease in the amount of money that is available for public works and other essential services. On the other hand, the decrease in taxes has allowed farmers to keep more of their money, which can be used for other purposes. In conclusion, the reduction in taxes has been a mixed blessing for the farmers of this area, as it has caused both positive and negative effects. ---

Wool Ass'n Thinks Lower Price Is Not WARRANTED

Facts on Wool Don't Support Seven Cent Drop in Selling Time

By STANLEY S. POWELL

Pondcress Woolen Mills, Inc., has announced that it will not make the seven cent drop in selling time which has been suggested by the Farmers Wool Marketing Association of Michigan. In making this announcement, Mr. Powell stated that the Falling wool prices and continued and increasing need for wool for production of blankets and other woolen goods have prevented the seven cent drop. He further stated that his company has adhered to the policies of the Farmers Wool Marketing Association in the past and intends to continue to do so in the future.

Northern Michigan Has

Farm Bureau Activities

Not in the communities of Marquette, Iron, and Kewaunee counties, this fall Michigan Farm Bureau has been active in organizing new counties into the organization. These counties, Marquette, Iron, and Kewaunee, have been held in the past due to the economic depression and the lack of funds. However, the Farmers of these counties have shown a great interest in the organization and have worked hard to get the counties organized. The organization has now been established in these counties and the work of organizing new counties will continue.

To the communities of Marquette, Iron, and Kewaunee counties, this fall Michigan Farm Bureau has been active in organizing new counties into the organization. These counties, Marquette, Iron, and Kewaunee, have been held in the past due to the economic depression and the lack of funds. However, the Farmers of these counties have shown a great interest in the organization and have worked hard to get the counties organized. The organization has now been established in these counties and the work of organizing new counties will continue.
Farm Women of the World Meet at Washington

Women of Many Nations to Confer Together

In March 1848, at the Women's Rights Convention in Seneca Falls, New York, a call was made for the establishment of a women's rights organization. This call was answered by the formation of the National Woman Suffrage Association, which had the goal of securing the right of women to vote. The women of many nations have come together to discuss the issues that affect their lives, and to work towards a common goal of equality.

Folks in the Farm Bureau Family

Almost—"Almost in the fruit grown

W. E. Bretzol, agricultural editor of the Farm Bureau News, discussed the importance of fruit growing in the United States. He emphasized the need for better soil management and genetic improvement to increase yields. He also highlighted the role of the Farm Bureau in promoting the fruit industry.

New IDEA Hay Mowing Machines

Roebuck and Co. are anticipating and doing whatever is necessary to meet advancing tastes may demand, to give you . . .

THE GRASS THE OTHER SIDE

You can excuse a horse for gulling his neck on a barbed wire, trying to reach the scrappy grass on the other side of the fence, when he's already standing knee-deep in Clover for a day and a half, but you can't excuse intelligent horsemen for making the same mistake.

Every day you hear people gossiping about "the good old days", and then wishing they could have all the things that are all around them, to make the grasshopper's ground to slow down.

Mother, would you like to go back to the old tin cupboard and woodbox? Would you like to drink your water out of an old washbowl, make your own soft soap and boil your clothes in an iron kettle? Father, would you like to take a washtub and get out of the horse's stable? Would you like to make your own shoes, cut and sew your own clothes, and work in your own garden? All these things we enjoy today are but a side issue with him. Apple culture is just the same thing, using cellophane paper for protecting your trees from cold, from birds, and from wind. It is also so ductile and tightly packed that it will be able to stop the ravages of insects of no automobiles, or movies . . . no newspapers or magazines, but not always . . . the newest and best for less money.

The high quality, low prices and advanced processing methods of Sears Gold Star Catalog will be necessary, convince you that Sears, Roebuck and Co. are anticipating and doing whatever is necessary to make your visit a happy experience.

MICHIGAN LEADER IN GROWERS AND ALFALFA ACREAGE

72,276 Farmers Harvested Nearby a Million Tons in 1935

Michigan's alalfa acres of the past will not be as large this year due to the much cooler temperatures. The area now leads in number of growers and in acres for alfalfa hay, over 22,000 acres being grown. The acreage should be harvested early in the season, however, due to the cool weather. The Michigan Co-op Wool Marketing Ass'n, 221 N. Cedar St., Lansing, Mich., has made arrangements for a wool marketing program this year.

A SUIT FOR DAMAGES CAN Take This Farm

Every time your car or truck goes out on the highway, there is the possibility that it may become involved in a traffic accident. Severe accidents bring about costs which determine your responsibility and damages.

A judgment for damage might require your farm and personal property to pay it. The work of a lifetime could be swept away. It happens somewhere every day. Your chances of such no accident are much greater than the chances you will have a fire.

Why expose yourself to such a financial risk when we will provide adequate public liability and property damage insurance at very reasonable rates? Our local agent will be glad to explain our complete service, and without obligation.

Tricky Seed Descriptions Are Costly to Buyers They Hook

WEET Words Build Impression of Quality That Is Not There

Washington.—Most seed vendors have a trick for selling seed and few buyers know what to do. Every time a catalog comes to the buyer, he gets a chance to look at the manner in which the seed is described. A seller has to make an impression on the buyer if he is to get his seed ordered. A catalog of seed is a public relations job.

The "extra-fancy" label is one for big buyers. When the seller does not sell his idea, he will lose his business. If the seller is good he is able to get his material in front of the buyer without much difficulty. Often the weevil words are in fine print and escape the attention of the buyer.

The catalog will contain statements such as "this crop seed", leaving an actual purity of from 5 to 10 percent. Frequently "98.9% Pure" is written in the other 6 or 7 percent, of "other stuff".

Investigations of the Bureau of Plant Industry have shown that these clover and alfalfa "barren" seeds may germinate, the seedlings become4 or 5 inches long, and then "dies". Often the weevil words are in fine print and escape the attention of fair-minded readers who expect fair dealing.

Weevil Words Build Impression of Quality That Is Not There

Michigan Variegated is a Good Buy!

R. W. Bennett, Manager of Farm Bureau's Seed Service, Says—

NOW THAT SUPPLIES OF CERTIFIED Hardigan and Grimm alfalfa seeds are on their last leg . . . almost out . . . our next best bet is Michigan Variegated. This variety is made up of uncertified, Michigan affidavit Hardigan, Grimm and Cossack seed. It has a purity of 90-95% or better. It is selected, high germination test seed from the heaviest yielding, longest lived strains of alfalfa we have.

MICHIGAN VARIEGATED IS CHEAPER THAN IT WAS last year at this time. However, with certified Hardigan and Grimm about gone, and stocks of western alfalfa getting low, this favorable price situation may change.

**DO YOU KNOW THAT NEW SEEDINGS of alfalfa, clover, or any beans can draw soil building grants under the Soil Conservation Act that will almost pay the cost of seed? Take a look at this:**

<table>
<thead>

<td>85%</td>
<td>$8.00</td>
</tr>
</tbody>
</table>

**THE MOST IMPORTANT JOB WE HAVE is to assure you of Michigan adapted seeds of the highest quality.** We feel so strongly about it that we have always guaranteed the description, purity and germination of Farm Bureau Brand seeds to the farmer to their full purchase price. We guarantee them to be as described on the analysis tag. We pack our clovers and alfalfa in sealed branded bags, and ask you to keep the tag and sample of the seed for reference.

**FIRST QUALITY SEED CORN**

FARM BUREAU'S CERTIFIED HUSKING AND ENSILAGE corn is now in the hands of Farm Bureau dealers. All varieties we offer grow and mature in sections of Michigan for which they are branded. Their germination is 90% or better. Field planted, good, shelled and graded by corn specialists. We also have some uncertified husking corn. We offer these certified corns:

**HUSKING CORN**

Certified M. A. C., Pickenden, Golden Glow, Polar Dent, and Jordan's Yellow Dent Varieties

**Ensilage Corn**

Certified M. A. C., Pickett, Golden Glow, Polar Dent, and Jordan's Yellow Dent Varieties

**Seed Corn Information**

HuskCor M. A. C.—grown near Detroit. Adapted to northern and northeastern Michigan.

Golden Glow—adapted to most central and northern sections of Michigan.

Pickett's Yellow Dent—adapted to much central Michigan. 

Jordan's Yellow Dent—adapted to southern Michigan. 

Polar Dent—adapted to southeastern and southwestern Michigan.

**FERTILIZER TELLS THE STORY**

Any Forage Crop Seeding is a Good Investment. We have a GREAT CROP FOR FARM BUREAU SUPPLIES

**SUGAR BEET RESULTS**

**HUNDREDS HAVE BEEN SOLD**

**ASK YOUR CO-OP ABOUT FARM BUREAU HARNESS**

We use only No. 1 selected clover hay in all harness and strap work. We get the best in workmanship and hardware. Traps, bridles, straps work are extra strong for long wear. Write for our harness circular.
