Barn Farm Members Are Invited

Howell Co-operative Pays Good Dividend

Howell Co-operative is a company that distributes dividends to its members based on their purchases. The company has a history of paying good dividends, which has contributed to its growth and success.

Ottawa Campaigners Were There in 1920

Ottawa campaigners were present at a political event in 1920, indicating a strong local presence and engagement in the community.

1,000 FAMILIES ADD TO BUREAU ROLL THIS MONTH

Isabella is First County to Elect New Members

During September about 1,400 farm bureau members were added to the rolls of the Michigan Farm Bureau. Two new counties, Ingham and Eaton, were added to the rolls. The total number of members in the state is now 1,000. More than 1,000 new members have been added to the rolls of the Farm Bureau this month.

Fishing Gadget is Illegal

A fishing gadget is illegal in Michigan, which means that fishing with such a gadget is a violation of state law.

Keep Up the Fight Against Farm Credit

The Farm Credit System is an important source of financing for farmers, and the fight against it is to prevent any legislation or policies that could harm farmers and their access to credit.

Relation of Cost of Feed to What Eggs Will Bring Is Favorable

By PATRICK J. CLARK

Poultry Specialist, Farm Bureau

Producers indicate that the cost of feed is to be of much importance in the period from April to the first of December, as it will be necessary for the producers to pay the high cost of feed and the reduced poultry prices for this time of year, and the sustaining market prices will be favorable for the poultry raiser if it is for the benefit of his own business.

The cost of feed is to be of much importance in the period from April to the first of December, as it will be necessary for the producers to pay the high cost of feed and the reduced poultry prices for this time of year, and the sustaining market prices will be favorable for the poultry raiser if it is for the benefit of his own business.

Improving Egg Production

The raising of poultry is to be of much importance in the period from April to the first of December, as it will be necessary for the producers to pay the high cost of feed and the reduced poultry prices for this time of year, and the sustaining market prices will be favorable for the poultry raiser if it is for the benefit of his own business.

A Cold Winter Needed

At unusual or abnormal winters the best for the poultry season is the best that the poultry season can be.

In an unusual or abnormal winter the best for the poultry season is the best that the poultry season can be.

The results of an unusual or abnormal winter are sometimes the best that the poultry season can be.

Propects Good for Supply of Michigan Grown Seed for 1938 Season

Alfalfa Plentiful; Quality to Excellent

BY ROY W. BENNETT

Muncie, Indiana Farm Bureau

The good season for growing alfalfa seed is drawing to a close. We have had one of the most plentiful alfalfa seeds this season that we have had in many years. The yields have been such that the field is in a good condition to be seeded. We have had a very light seeding and the planting is about 70% complete. We have had a lot of happy customers who are satisfied with the quality of seed that they have received.

June Clover Seed A

Muncie, Indiana Farm Bureau

June clover seed is a very good seed. It is a hardy plant and grows well in any soil. It is very easy to cultivate and does well in any soil. It is a very good seed for use in hay or for silage. It is also a good seed for use in gardens and for erosion control.

Sweet Clover Seed A

Muncie, Indiana Farm Bureau

Sweet clover seed is a very good seed. It is a hardy plant and grows well in any soil. It is very easy to cultivate and does well in any soil. It is a very good seed for use in hay or for silage. It is also a good seed for use in gardens and for erosion control.

Michigan Egg Producers Ass'n's Planned

The Michigan Egg Producers Ass'n is planning a program for the Michigan egg industry. The program is designed to promote the production, distribution, and consumption of Michigan eggs. The program includes educational programs, market research, and consumer education.

New Study on Michigan Eggs

The American Egg Board has announced a new study on Michigan eggs. The study is designed to determine the nutritional value of Michigan eggs and to compare them with eggs from other regions. The study will be conducted by a team of experienced researchers and will be published in the near future.

Milk Sales in Michigan

Milk sales in Michigan have been declining steadily. The reasons for this are many and complex, but include increased competition from other milk producers, changes in consumer preferences, and changes in the economic conditions.

A Friend with Cash

is a friend indeed in a highway liability suit

By ALFRED RENTWALL

Motor Fire Insurance Service

June 24, 1934, George Wittery, then a young auto owner on Long Island, New York, was stopped for speed by the police. It turned out that he was speeding, but he didn't care. He had insurance.

While the traffic man was writing the ticket, Wittery turned to the officer and said, "What's the matter? I have insurance." The policeman was nonplussed. He couldn't believe the offensive remark. The officer got the ticket and Wittery was on his way.

The incident is one of many that could have been prevented had automobile owners read the fine points of their insurance policies.

Just a few years ago, if you had been involved in a collision with a motor vehicle, your chances of recovering damages were slim. The motorist who was at fault would usually settle for the smallest possible amount. Today, the situation has changed. You can be assured that if you are involved in a collision, you will have someone to pay the damages involved.

Motor Fire Insurance, a leader in the field of automobile insurance, is proud of the fact that it has paid more than 1,000,000 claims in the last five years. This is due to the fact that the company is always ready to help its policyholders.

Motor Fire Insurance offers a wide range of policies to meet the needs of its customers. From the most basic to the most comprehensive, Motor Fire Insurance has a policy that will meet the needs of any motorist.

Motor Fire Insurance policies are designed to protect you and your family in the event of an accident. They provide coverage for your property, your liability to others, and your medical expenses. With Motor Fire Insurance, you can be assured that you will have the protection you need.

Motor Fire Insurance is proud to offer its customers a variety of benefits that are not found with other insurance companies. These benefits include:

- Free roadside assistance
- Emergency medical evacuation
- Extended coverage for rental cars
- Accident forgiveness
- And much more

Motor Fire Insurance is committed to providing its customers with the best possible service. We are proud to say that we have the highest customer satisfaction rating in the industry.

Motor Fire Insurance policies are designed to be affordable. We offer a variety of payment options to make it easy to fit your insurance into your budget.

Co-op Creameries Make Third of U. S. Butter Production

Michigan Creameries Are Doing Well With Their Mid-West Producers Creameries, Inc.

By E. J. ROYER, Mgr.

Mid-West Producers Creameries, Inc., at Detroit, Michigan, a modern mid-western creamery similar in many respects to the Detroit creamery, better producing industry of the state, has been in operation since mid-September. The company is manufacturing over 25% of the total butter produced in the United States.

Creameries Get Together

A recent survey has shown tremendous growth in many of the creameries. Growth in creameries has been rapid, and creameries are now being formed in many parts of the country. There is a trend towards specialization, and many creameries are specializing in the production of milk, cream, butter, and cheese. This trend is likely to continue, and many creameries are planning to expand their operations in the near future.

Members of the Mid-West Producers Creameries, Inc.

- Chairman: Mr. J. W. Smith
- Vice-Chairman: Mr. R. B. Brown
- Treasurer: Mr. J. W. Johnson
- Secretary: Mr. J. W. Davis

For the past year, the Mid-West Producers Creameries, Inc., has been in a steady growth period. The Federal Producers will auction their surplus of butter under new regulations, and creameries will have more profit on their sales. The company is planning to expand its operations in the near future.

Electricity has lifted all these chores from the shoulders of farm mothers

Electricity is lifting all these chores from the shoulders of farm mothers. The days of hard work are over, and the modern farm has become a place of comfort and convenience. The electrical revolution is bringing about a new era of efficiency and simplicity in the home.

College to Sell Purebred Horses

A college is planning to sell purebred horses. The college has a collection of purebred horses, and they are looking for new homes for them. The college is offering the horses at a reasonable price, and they are looking for interested buyers.

Consolers Power Company

Consolers Power Company is offering a power company service to farmers. The company is offering a new power service, and they are looking for interested farmers to take part in it.

JURIES ARE GENEROUS WITH OTHER PEOPLE'S MONEY

Juries are often very generous with other people's money when damages are awarded. The most wrongful driver may find himself involved in a suit. He may have to pay more than he expected, but the jury does not have to consider the testimony of the other driver in the suit. An unfavorable verdict may still result.

Whose Socks? A farmhouse does not have to be clean and tidy in order to have a productive farm. It is important to keep the farm clean and tidy, but it is not necessary to have a perfect house. The farmhouse is a place to call home, and it should be comfortable and inviting.

MERMASH MAKES MORE MONEY FOR POULTRYMEN

A lifetime ration and a complete food

FIRE has less chance on the CONCRETE FARM

Concrete farm homes and buildings are more fire-resistant and better insulated than wooden structures. They are more resistant to pests and are more likely to be protected by fire insurance.

FARMERS NEED MORE ELECTRICITY

Electricity is becoming a vital resource for farmers. It is important for farmers to have access to electricity, and the government is working towards increasing the availability of electricity for farmers.

State Farm Mutual Auto Insurance Co.

BLOOMINGTON, ILL.

JURY IS NOT RESPONSIBLE FOR ITS OWN ACTIONS

The jury is not responsible for its own actions. The jury is not bound by the testimony of the other party in the suit, and the jury is free to consider all evidence presented.

WHEN BENTED STEEL IS FABRICATED

Bent steel is fabricated when it is cut, bent, and formed into a desired shape. The process is used to create a variety of objects, including metal frames, pipes, and structural elements.

FARMS THAT INCREASE ELECTRICITY USE

Farms that increase electricity use are more efficient and productive. The use of electricity allows farmers to automate their operations, reduce labor costs, and increase their output.

WHEN ENSO IS THE ISSUE

When ENSO is the issue, it is important to consider the impact on agriculture. ENSO events can cause significant changes in weather patterns, which can affect crop yields.
