Recipe for Farm Power Line Ruckus

In many instances, the folks who build roads are getting into a position where the broad of electric service for the farm is in the air.

So far as we can see, a substantial of electric power from this field of natural resources is in the air.

In a number of states, the public has been made aware of the possibilities of the power line. And in a number of localities, the public is on the move to establish this service.

It may be that the public has been made aware of the possibilities of the power line. But it may be that the public is on the move to establish this service.

The public has been made aware of the possibilities of the power line. But the public is on the move to establish this service. It may be because the public has been made aware of the possibilities of the power line. But the public is on the move to establish this service.

In the market for power, the public has been made aware of the possibilities of the power line. But the public is on the move to establish this service. It may be because the public has been made aware of the possibilities of the power line. But the public is on the move to establish this service.

The public has been made aware of the possibilities of the power line. But the public is on the move to establish this service. It may be because the public has been made aware of the possibilities of the power line. But the public is on the move to establish this service.

The public has been made aware of the possibilities of the power line. But the public is on the move to establish this service. It may be because the public has been made aware of the possibilities of the power line. But the public is on the move to establish this service.

In the market for power, the public has been made aware of the possibilities of the power line. But the public is on the move to establish this service. It may be because the public has been made aware of the possibilities of the power line. But the public is on the move to establish this service.

Aero’Cyanamid in Nitrogen plus Lime

Well sue you!

This slogan is heard not long after strawberries—or even neighbors—get tangled with each other in an automobile accident. There's no use for you to be paid for.

It sounds bad—and it is bad. If ever it's started and you have no insurance, you have a lawyer, and perhaps buy both damages and cars after all. Who or how, it’s bad on us.

It is so important to carry an automobile insurance that will stand all legal expense and sue the person, according to the policy, in case you should have an accident. The unintended expense of such protection in the State Farm Mutual Insurance Company is very reasonable.

Neatly 100 Youths Study Co-ops at Waldenwoods

Second Conference on Purpose Of Michigan Farm Organizations

Nearly 100 youths and women in various farm organizations attended the third weekend of farm co-operative week at the Waldenwoods conference in the Michigan State Farm Bureau. The conference was held at the Waldenwoods camp site in Newaygo County, Michigan, on October 14th and 15th.

The purpose of the conference was to acquaint the Michigan State Farm Bureau with the co-operative movement in the farm community. The conference was attended by representatives of the various farm organizations in Michigan.

Waldenwoods is a beautiful set of camp grounds with lake and swimming beaches located in a beautiful site just outside of Newaygo, Michigan. It is open to groups interested in cooperation to the

Power May Build 4,000 Miles of Farm Lines This Year

According to a report by the Farm Power Association, the Farm Power Association has contracted for the construction of 4,000 miles of farm lines in the United States during the current year. This is a significant increase from last year's estimate of 1,500 miles. The Farm Power Association is working closely with state and local authorities to ensure the proper installation of farm power lines.

The increased demand for farm power is due to the growing awareness of the benefits of electricity in agriculture. Electricity is used for a variety of purposes, including irrigation, refrigeration, and processing.

Farmers are adopting new technologies and equipment that require electricity to operate. The Farm Power Association is working to meet this demand by developing innovative solutions and collaborating with local authorities.

Newsguy’s Guest

J. E. J. Strange

Guest of the Newsguy

J. E. J. Strange, a prominent agricultural journalist, is this week's guest of the Newsguy. He will be sharing his insights on the importance of agriculture in shaping our future.

Strange has been a leading voice in the agricultural community for many years. His work has been instrumental in promoting the importance of sustainable practices and the need for a strong agricultural sector.

Strange will be sharing his thoughts on the current state of agriculture and the challenges facing our farmers.

**Farm Bureau Insurance Service Touches Daily Lives of Thousands of Farmers**

By ALFRED BENTZEL

Farm Bureau Insurance Service for the Michigan Farm Bureau

Eight years ago the Michigan Farm Bureau was the first insurance organization to hire an organization of its own to serve as its Farm Bureau Insurance Service. The State Farm Bureau Insurance Service is conducted on a co-operative basis with the American Farm Bureau in many states. The program is conducted in all 81 Michigan counties where 87% of the farms are insured directly by the State Farm Bureau through their co-operative agents.

State Mutual Fire Insurance Co. of Michigan

**Mr. LIVESTOCK PRODUCER**

The Michigan Livestock Producers is a board of select meat inspectors, to operate in Michigan, to keep track of the quality of the meat produced in Michigan. The inspectors are to be chosen by the Michigan Livestock Producers and are to be paid by the Michigan State Board of Agriculture.

The Michigan Livestock Producers, a non-profit corporation, is formed to promote the interest of the livestock industry in Michigan. The corporation is to be governed by a board of directors, to be elected by the members of the corporation.

To secure all the benefits that are included in the corporation's insurance for farmers, one must be a member of the corporation. Farmers who are not members of the corporation are not eligible for the benefits.

We also encourage our farmers to join the corporation, as it is the only way that the corporation can operate. All the benefits that are included in the corporation's insurance for farmers, one must be a member of the corporation. Farmers who are not members of the corporation are not eligible for the benefits.

FARM BUREAU FERTILIZER AND CERTIFIED WHEAT ARE GOOD PARTNERS

Mr. Emery S. Townsend of Ionia, R. L. is known as one of the best live stock farmers in Michigan. He also produces a lot of wheat. Last fall, in cooperation with Farm Bureau Services dealer Johnathan Hake & Sons at Ionia, Mr. Townsend divided a 36 acre wheat field. To one-half he applied Farm Bureau 0-20-0 fertilizer at 200 lbs. per acre. The other half was not fertilized. At harvest he compared results:

Unfertilized 14 acres
Total Yield 479 bu.
Acreage per Acre 17.9 bu.
FERTILIZED 14 acres
557 bu. 39 13 14 bu.

The wheat tested 59.2% at $1.06 a bushel, the return was $54.60 more per acre on the fertilized half. The fertilizer cost was $2.30 per acre. Therefore, the fertilizer paid for itself and earned a profit of $3.20 per acre. Each dollar of fertilizer investment paid back $2.53 in increased yield.

Certified Fall Grains
Certified Wheat and Rye out-yield ordinary seed and produce top quality grain. Their small extra cost per acre is a good investment. The varieties below are the best and highest yielding for Michigan. Produced by the Michigan Crop Improvement Assn.

Spring Tooth Harrow
Every farm should have one of our spring tooth harrows. Built to last and to do all things well that a spring tooth should do. Works with tractor. Settles can be added.

Automatic Tractor Disc
This harrow is the last word in convenience and working efficiency. It is entirely automatic in all operations. Built extra strong and will stand up under hard service. Bearings are coted from bottom.

Buy at Farm Bureau Stores and Co-op Agents.
