Michigan Pool Takes Wool; Pays Advance; Will Help Get Loans

By Robert F. Bailey, Michigan Wool Marketing Bureau

Silk, nylon, and wool are ever increasing in popularity. Wool, which was the first of these man-made fibers to be adapted to commercial use in the United States, is having a Renewed popularity. New synthetic fibers are beginning to compete with the traditional natural materials, but wool remains a staple in the American textile industry.

adventure. The group is known for

its outdoor activities and educational

events. The group's activities are

designed to promote personal growth

and community building.

CONTEST BRINGS THOUGHTFUL LETTERS

A Farm Platform For My Legislators

Lett...
Why the Dead Cats?

When two pounds of dead cats are sold to a blood-distributor or to a blood-bank to be used in haemotherapy or for the production of antitoxins, how much of the money is available to the farmer who supplied the cats? How much does it take to raise a pound of dead cats? What about the hands that are used to collect the cats and prepare them for shipment? How much of the money that was earned by the farmer who supplied the cats is actually returned to him?

All these questions are relevant, but one question that is often overlooked is the economic impact of the sale of dead cats on the local community. The sale of dead cats can have a significant impact on the economy of the area where they are collected. It is estimated that the sale of dead cats provides a significant source of income for many farmers and small businesses in rural areas.

The Sugar Social

The Sugar Social is a tradition that has been carried on in many communities for generations. It is a celebration of the harvest of the sugar maple trees and the production of maple syrup. The event is usually held in the spring, when the sap is running, and it is a time for people to gather and enjoy the results of the harvest.

The sugar social is more than just a celebration of sugar production, however. It is also a time for community building and socializing. People come together to share stories, eat good food, and enjoy each other's company. The sugar social is a reminder of the hard work and dedication that goes into producing maple syrup, and it is a celebration of the community that makes it possible.

Neglect Takes Heavy Toll on Farm Machinery

Neglect is a major problem for farmers, and it can take a heavy toll on their machinery. In this article, the author provides a close-up look at the damage that neglect can do to farm equipment.

Neglect can cause a variety of problems, from minor wear and tear to major breakdowns. When equipment is neglected, it can be difficult to get it back in working order. This can lead to lost time and lost money, as well as lost opportunities for the farmer.

The Memory Lingers

The memory of a loved one is something that stays with us forever. It is a reminder of the love and joy that they brought into our lives, and it is a reminder of the love and joy that we bring to theirs.

The memory of a loved one can be a source of comfort and solace, as well as a source of pain and sorrow. It is a reminder of the good times we shared, and it is a reminder of the times we shared. It is a reminder of the love we shared, and it is a reminder of the love we lost.

Three Menus... and a Surprise

How to make a meal for your family

(1) White onion, apples, and coffee for breakfast.

(2) Poached eggs, apples, and coffee for lunch.

(3) White onion, apples, and coffee for dinner.

In a saucepan mix 1 cup of sugar, 1 cup of molasses, and 1 teaspoon of cinnamon. Bring to a boil, then add 2 cups of water. Cook for 10 minutes. Serve over pancakes, muffins, or waffles.

We're Coming Along

As a conscientious, hard-working family farmer, I am always looking for ways to improve my operation. I am always trying to find ways to make my operation more efficient and profitable. I am always looking for ways to save money and improve my bottom line.

The one thing that I have noticed is that I am always trying to find ways to make my operation more efficient and profitable. I am always looking for ways to save money and improve my bottom line. I have always thought that the one thing that I have noticed is that I am always trying to find ways to make my operation more efficient and profitable. I am always looking for ways to save money and improve my bottom line.

Who Else Does?

The Farm Bureau is a national organization that works to ensure that farmers have the resources they need to be successful. They promote policies that help farmers and provide services that support their needs. They are dedicated to helping farmers succeed and ensuring that their voices are heard.

The Farm Bureau is a strong advocate for farmers and is dedicated to helping them succeed. They work to ensure that farmers have access to the resources they need to be successful, and they are dedicated to promoting policies that support farmers. They are committed to helping farmers succeed and ensuring that their voices are heard.

* * *

We have heard from a number of farmers who have had positive experiences with the Farm Bureau. They have told us that the Farm Bureau has provided them with the resources they need to succeed, and that they have been able to advocate for policies that support farmers. They have told us that the Farm Bureau has been a strong advocate for farmers and has helped them succeed.

We encourage anyone who is interested in learning more about the Farm Bureau to visit their website at www.farmbureau.org. They have a wealth of information available, and they are dedicated to helping farmers succeed.
What Farm Bureaus are determined to have in 4 COUNTIES

U. S. Wool Loan To Aid Growers

That the wool loan program for the United States is needed is evidenced by the fact that wool is one of the most valuable farm products. If you have any questions about wool loan, please contact your local Farm Bureau.

Monroe County

In the Monroe County Farm Bureau, the wool loan program is highly supported. Farmers are encouraged to keep their wool loan accounts up to date.

Lapeer County

The Lapeer County Farm Bureau is also in favor of the wool loan program. They believe that it is a valuable tool for farmers to manage their wool needs effectively.

Shawano County

The Shawano County Farm Bureau has a strong commitment to the wool loan program. They believe that it helps farmers manage their wool needs and reduces financial stress.

High Time That Farmers Take Stock

The time is now to take stock of your wool. The wool loan program can help you manage your wool needs and reduce financial stress.

Machinery Repair Parts

For your convenience, Farm Bureau stores and co-op associations offer a variety of machinery repair parts. Please contact your local Farm Bureau for more information.

Water Supply Systems

See the Dayton water supply systems on display at Farm Bureau stores and co-op associations near you. These systems are designed to meet the needs of farmers and their families.

Nature's Nuts—Here are excerpts from four County Farm Bureau programs as presented to their communities this spring:

Keiter's Note—Here are excerpts from four County Farm Bureau programs as presented to their communities this spring:

Lapeer County

1. "The wool loan program is needed to help farmers manage their wool needs and reduce financial stress."

2. "In Monroe County, the wool loan program is highly supported. Farmers are encouraged to keep their wool loan accounts up to date.

3. "In the Lapeer County Farm Bureau, the wool loan program is also supported. Farmers are encouraged to keep their wool loan accounts up to date.

4. "The Shawano County Farm Bureau has a strong commitment to the wool loan program. They believe that it helps farmers manage their wool needs and reduces financial stress.

Act To Control Chicken Diseases

Poultry fancy, as conducted by the Michigan Poultrymen's Association, has accelerated the use of antibiotics in controlling chicken diseases. The General Chemical Company, manufacturer of antibiotics, has made a pledge to spend $20,000,000 during the next ten years to develop and promote antibiotics for use in the poultry industry.

Every Farmer Wants Results from the FARM BUREAU
Well, Here they are—

IN MICHIGAN

1. LOWER INTEREST RATES—
American Farm Bureau helped reduce interest on farm land bonds from 4.5% to 3.5%. That means Michigan farmers save more than $10,000,000 annually.

2. SOIL CONSERVATION—
The Farm Bureau was instrumental in the passage of the conservation act, which provides a federal loan guarantee of more than $10,000,000 to Michigan farmers.

3. ADAPTED SEEDS—
You are protected from dangers of wrong variety, a problem that is costly because of lack of knowledge of the proper seeds and methods of their cultivation. The Farm Bureau wins the vote of Michigan's farmers.

4. FARM-MARKET STORES—
The American Farm Bureau has long worked for a federal farm-market road building program. Now men have been selected from the farm people of the United States who are ready to establish proper markets.

5. FARM INCOME UP—
Early this month the American Farm Bureau presented a report of the farm income of the country by departments. The report shows a marked increase in the farm income of the country.

6. FARM ELECTRIFICATION—
This is a farm electrification program, a national program. The American Farm Bureau has worked for the establishment of this program as a service for the farmers of the country.

AND THERE ARE MANY OTHERS!

The count depends only on the farmer's personal efforts and the number of people who understand the importance of the program.

Junior Farm Bureau

We sometimes speak of the Junior Farm Bureau, the young farmers of the country, as a group that is not very well known. Yet, they are doing a wonderful work in the development of the country. They are given an outstanding position in the national organization of the American Farm Bureau, which was established in Michigan.

Senior Farm Bureau

The American Farm Bureau has long worked for a federal farm-market road building program. Now men have been selected from the farm people of the United States who are ready to establish proper markets. The Farm Bureau wins the vote of Michigan's farmers.

15th Court Action Against Seed Farm

In recent court cases, the destruction of new shipments into Alabama by the Farm Bureau of Seed Farms, Inc., has been challenged, making it illegal to move such shipments. In this case, the District Court of the United States for the Southern District of Alabama ruled that the Farm Bureau of Seed Farms, Inc., had no authority to destroy such shipments. The court also held that the Farm Bureau of Seed Farms, Inc., was not entitled to any compensation for such destruction.

13.6% MORE YIELD

BY TREATING SEEDS THIS WAY...

Dip your seed potatoes with New Seed Treatment, this wonderful way to increase your potato yield of better potatoes—at lower cost—keep potatoes perfect for years.

Actual test of potatoes, running up this quick dip in a special seed 100 cases of seed potatoes over a period of 90 days showed results of potatoes treated with Seed Treatment. Seed potatoes treated with Seed Treatment produced an average increase of 13.6% in yield. Regular potatoes showed no increase.

Nursery Stock Carded

Michigan law recommends that seed stocks be carded to prevent the sale of seed stocks which are not carded. The law also provides that seed stocks which are not carded shall be banned from sale.

Cow Rotation

A recent study of cow rotation systems indicates that rotation systems are widely used by farmers in the state. The study shows that rotation systems are used by more than half of the farmers in the state.

FARM BUREAU SERVICE CENTER

The Farm Bureau Service Center is a service to members of the Farm Bureau. It is a place where members can come to get help with their problems of farming. The center is staffed by trained farm bureau agents who can give members help with their problems.

M. STOCK PRODUCER

The Michigan Livestock Exchange in Grand Rapids, is the center for livestock transactions. It is a place where farmers can come to buy and sell livestock.

BREEDING

A recent study of breeding practices indicates that breeding practices are widely used by farmers in the state. The study shows that breeding practices are used by more than half of the farmers in the state.

SEEDSMEN BEL this year's crop of seedsmen.

SEMISAN BEL

M. over the Michigan Farm Bureau listings are seedsmen whose seeds are certified and used by farmers in the state. They are the people who supply the farmers with the seeds they need.

SEMISAN BEL

The Michigan Livestock Exchange, Detroit, Michigan.

LET'S TELEPHONE THE COUNTY AGENT

The County Agent can be a big help to you. He has been educated and trained to give you the latest information on his business of farming. Get the facts from him the day you need them...

by telephone.

The shortest route to market, to your kinsfolk in another part of the state, or to your neighbor across the way, is the telephone route. Almost anything that can be settled in ordinary conversation can be done by telephone. Keep in touch by telephone.

MICHIGAN FARM BUREAU CO.
Don't Brood Over Weather ... Put Electric Weather Over Your Brood

Electric brooders change the outlook for chick raisers. They bring advantages long-desired and now made possible with the uniform heat and automatic, positive control of electricity.

You know about cold-room brooding and its superior points. Did you know that electric brooders are the "partners" of this method—making insulation of the building unnecessary. Users report success at temperatures below zero, the electric heat in the brooder being sufficient.

Ends cannibalism, too. That's another saving you can put on your books. In fact, the mortality rate from all causes is lowered to a percentage that raises the average profit from the broods.

And electricity? Economy is a feature. Measured in total kilowatt hours over a brooding period or getting down to the fractions per chick, electric brooders do the job best—best for the chicks, best for the raiser.

We are glad to cooperate with our customers in this and other electric sales matters. A letter or visit is welcome.

Consumers Power Company

---

Milk Campaign Has Opened New Markets

(Correspondence offices of Chicago and New York, March 25.)

alford Webber, director of the Bureau Farm Bureau Insurance Department, reports that Pennsylvania Farm Consumer Advisory Committees in 1938 in ten of the first 25 counties made 1938 the most successful year for milk campaigns. This success was largely due to the cooperative advertising plan of the Bureau and the close cooperation of the Pennsylvania Farm Bureau leaders in the various counties.

Coal Carpets

Coal carpets were introduced in 1938, and sales are showing an increase. The Bureau will continue to promote the sale of coal carpets in 1939.

---

Letters to the Editor

Dr. Bigler

Dear Dr. Bigler,

Every farmer wants to see his children succeed, and who would like to see the Farm Bureau program. Also to trade leadership in study, discussion, and participation in the program.

Predicts 33,000 Traffic Deaths, Unless

Highway Safety Measures Are Improved

(Chicago, March 25.)—At least 33,000 traffic deaths would be avoided each year if a long overdue traffic safety drive were mounted in the United States, according to the annual report of the National Safety Council, here today.

The report states that if the safety drive had been in progress in the United States since 1930, a total of 120,000 traffic deaths would have been avoided.

The report states that 120,000 traffic deaths would have been avoided if the safety drive had been in progress since 1930.

High Speed Chromalox Units

The making test of the entire range is in the large 8-in. high, 10-in. high, 12-in. high, 14-in. high, 16-in. high, and 18-in. high. These units are covered and propped against spillage, etc. They offer a wide assortment of sensitivities for various conditions. The wood and coal side-top surfaces are smooth, polished cut.

Nitrogen 95% Water Soluble. Quickly Available and Best for Early or Late Planted Crops.

MERMASH 16% Protein

Chick Starter and Growing Ration. A lifetime ration and a complete feed. Buy at Farm Bureau Stores and Co-op Ass'n's.

We Recommend—

Certified Worthy Oats for heavy soils. Great yields. Resist lodging. Certified Wolverine for light soils are scarce. Worthy can be used.

We advise Spartan or Wisconsin No. 38 barley.

FIELD SEEDS

Order Alfalfa & Clover Seeds Early

MICHIGAN GROWN or MICHIGAN ADAPTED alfalfa and clover seeds are scarce and in strong demand. Order them now. Michigan adapted seeds will produce forage crops that will qualify for soil conservation payments. Farm Bureau alfalfas and clovers are select, high test, thoroughly cleaned seeds that have no superior for hay or seed production. We offer through farmers' co-ops and Farm Bureau dealers:

Alfalfas

Certified Grim and HARDIGAN
Michigan Grim and HARDIGAN
MICHIGAN VARIATED
IDAHO GRIMM

Soy Beans — Sudan Grass

MANCHESTER SOY BEANS are best for Michigan. Our stocks are high germinating. We also have some Marches containing 3 to 5% of Miller Manchester. Both good buys for emergency pastures or hay crop, or for soil building, purposes. FARM BUREAU SUDAN GEAR SEED comes from Texas. High quality seed, and of good germination.

ROBUST BEANS

CERTIFIED ROBUST BEANS can be depended upon to outyield most varieties. This year you can be safe on seed beans if you use certified Robust. Remember, certified Robust beans must pass the germination and purity tests of the Michigan Crop Improvement Ass'n. You take no chances with beans of this quality.

First Quality Seed Corn

FARM BUREAU HUSKING CORN is ready and will soon be with our dealers. All varieties we offer are recommended for the sections of Michigan where they will grow and mature. Germination is 98% or better. Field selected, dried, chafed, and graded by corn specialist. HUSKING CORN: Certified M.A.C., Pickers, Golden Glow, Polar Dent, Freda's Yellow Dent. Also several uncertified varieties. ENHANCED CORN: Farm Bureau Yellow Ensilage, the old standby, and from new foundation stock; Red Cob, Improved Red Cob, Learning, Improved Learning, Sweepstakes, Reed Yellow Dent, Burks Ensilage.
