Behind the Wheel
with J. P. Jeger, Organization Director

BEANS

NATIONAL SWITZERLAND

The first object of tax reform in Michigan should be the direct relief to the farmers from the taxation assessed on them for the support of local governments. Michigan needs as much revenue as it can get, but the farmer is hard pressed to pay his taxes. He's losing his opportunity to grow crops, and he's losing his opportunity to buy food. The farmer should be relieved of this burden.

When it comes to the idea of a Grand Traverse or a Leelanau, it needs to be that this money is saved off the hands of the farmer, not taking it from him.

NATIONALS

Potato Industry Acclaimed Them

Newtson Gives Tax Reform a Next to be adopted. To

Michigan Farmers appear to be for state and national with one or two exuding great new deal. No Emil Kazes, of the Michigan State Farm Bureau, who has been in contact with farmers in this area, has been in contact with farmers in this area.

Newtson: "I am not only sending the demand that the state tax be reduced, but we are sending out a demand for the state tax to be reduced."

WILL WISH RURAL LINES IN 46 COUNTIES

According to Dr. Charles F. L. Bagley, of the Michigan Department of Agriculture, the state government is considering the construction of rural electric lines by law in 1938. The state government is also considering the construction of rural electric lines by law in 1938.

SOUNDS CALL FOR LEGISLATIVE MINER

Farm Bureau to Focus Rural Opinion on All Farm Legislation

Any suggestion that the Farm Bureau will not focus on rural opinion on all farm legislation is completely unfounded. The Farm Bureau has always been active in promoting the welfare of rural people.

Newtson: "I am not only sending the demand that the state tax be reduced, but we are sending out a demand for the state tax to be reduced."

1000 MILE CENTENNIAL

Forsyth County Farm Bureau has been selected as the 1000 Mile Centennial Farm Bureau for this year. The Farm Bureau has selected Forsyth County Farm Bureau as the 1000 Mile Centennial Farm Bureau for this year.

SOUND call for LEGISLATIVE MINER

The Farm Bureau has been active in promoting rural opinion on all farm legislation. The Farm Bureau has always been active in promoting the welfare of rural people.

Newtson: "I am not only sending the demand that the state tax be reduced, but we are sending out a demand for the state tax to be reduced."

JUNIOR FARM BUREAU

Personal Commitment Toward Young People

According to Dr. Charles F. L. Bagley, of the Michigan Department of Agriculture, the state government is considering the construction of rural electric lines by law in 1938. The state government is also considering the construction of rural electric lines by law in 1938.

Adequate System Water Important

Cost of Proper Capacity for Farm should be Spread Over Years

With the installation of electric service in rural areas, adequate system water is important. The cost of proper capacity for farm should be spread over years.
Hiram on Almanacs

This is the year when the Almanacs came into their own in 1939. They are still in print, and the results are more than satisfactory. The weather they give is more dependable than the weather we have been accustomed to expect from our Almanac. And how to make pickles and preserves, too, is more practical than before.

If you want a record of the past, then, the Almanacs are a valuable addition to your library.

In the case of The Book of Almanacs for 1939, you can get it at 15 cents.
FARM BUREAU MACHINERY AND HARNESS

Greater Values, Extra Strong, and Designed for Efficiency and Long Service

Co-op Tractor
Four Models
1. Small Farm
2. For Meat Farms
3. Large Farm
4. Orchard Tractor

Volcano Disc Harrow
Perfect Disc Control, Laboration, and Easy Draft

Walking Plow
Sturdily Mode; Extra Sharps Fit Neatly

Spring Tooth Harrow
Built for Wear; Belt for Use With Tractor

New Torpedo Silky Plow
Quick Detachable Share; Uses Any Style Button

Guard Rail Harrow
Spangled Steel and Made to Last

Co-op Manure Spreader
Three Feet High, Easy to Load, Easily Pulled

This Is Our No. 2
Two or Three Tractor Available with Power Take-off

Automatic Tractor Disc
Gang Can’s Work Loos; Does Won’t Clog

Sure Drop Planter
Light, Strong, Durable and Driest Planter
With or Without Fertilizer Attachment

Jack Rabbit Cultivator
All Purpose, All Crop, Easy Readable Cultivator

Farm Bureau Harnesses
All Builder, From No. 1 Selected Rider Hides; Best Work
Most Necessary; Extra Strong for Long Wear; New Back-Saving Hardware

FARM BUREAU SERVICES, INC., LANSING, MICHIGAN
Adopt Recommendations on Which to Base County Farm Bureau Work for 1938

County Farm Bureau presidents and secretaries and other leaders, 120 in all, wondered if they could make the same number of calls at the State Farm Bureau when the speakers and their assistants appeared in surgical operating rooms and doctor's offices.

The Illinois County Farm Bureaus were diagnosed and cures at the Medical School, and Action Committee of the American Farm Bureau Federation. He was assisted by J. F. Yanger, director of the Michigan State Farm Bureau organization.

Out of the frank discussion of Farm Bureau membership successes and failures came the appointment of an audit committee to make recommendations for 1938. The conference adopted suggestions for County Farm Bureau work to meet political, public relations, methods, issues, programs, Junior Farm Bureau, and responsibilities of officers and directors. The recommendations are given in this article.

Secretary C. L. Brody of the State Farm Bureau urged county leaders to develop Community Farm Bureau projects as the foundation for permanent programs for the entire program. It is necessary for each member to have an opportunity to participate in Farm Bureau work, and he believes the Community Farm Bureau projects provide the opportunity.

Mr. Vittunato congratulated the group on a splendid effort and upon its acceptance of leadership responsibility. The group proposed that similar meetings be held at regular times each year.

Consulting "doctors" and "nurses" who assisted with the presentation of the Farm Bureau message, Dr. Henry, Huron county; Mrs. Elkah Funhri, Saginaw county; Oscar Anderson, Calhoun; L. S. Schmitt, Saginaw; Charles Oppenheimer, Clinton, Mark Westbrook, Ionia; J. T. Bliss, Ingham; and Mrs. Pearl Myers of Lapeer county was county secretary, and Stanley Powell directed the conference.

What they said and did at the January MEETINGS

BERKSHIRE COUNTY

Horse Fair Barns and the Political Resilience of the Party of the Lower Classes

The meeting at Stockbridge, on January 15th, was the largest ever held in the Berkshire County. The party of the lower classes was represented in force, with a large number of delegates from the different townships. The meeting was addressed by the various leaders of the party, who took turns in speaking. The speeches were notable for their simplicity and sincerity, and they were well received by the audience. The meeting was adjourned at midnight.

KENT COUNTY

The Brookfield Cooperative Committee and the Political Resilience of the Party of the Lower Classes

The meeting at Brookfield, on January 20th, was attended by a large number of delegates from the different townships. The meeting was addressed by the various leaders of the party, who took turns in speaking. The speeches were notable for their simplicity and sincerity, and they were well received by the audience. The meeting was adjourned at midnight.

NEWAYGO COUNTY

The Newaygo County Cooperative Committee and the Political Resilience of the Party of the Lower Classes

The meeting at Newaygo, on January 25th, was attended by a large number of delegates from the different townships. The meeting was addressed by the various leaders of the party, who took turns in speaking. The speeches were notable for their simplicity and sincerity, and they were well received by the audience. The meeting was adjourned at midnight.

DULUTH COUNTY

The Duluth County Cooperative Committee and the Political Resilience of the Party of the Lower Classes

The meeting at Duluth, on January 30th, was attended by a large number of delegates from the different townships. The meeting was addressed by the various leaders of the party, who took turns in speaking. The speeches were notable for their simplicity and sincerity, and they were well received by the audience. The meeting was adjourned at midnight.

The Farmer's Enemy Can Be Stopped!

In a few minutes, you can destroy a horn worm and its hard-won thousands of dollars of cherries, apples, and cherries. You can save the hard work of the farmer and the farmer can save the horn worm. You can do it by using Calf-Mania, the horn worm killer. Calf-Mania is a cheap, easy-to-use product that destroys horn worms and horn worm eggs. It is safe for the farmer and the horn worm can be destroyed without any harm to the farmer or the horn worm. Calf-Mania is a great help to the farmer and the horn worm can be destroyed without any harm to the farmer or the horn worm.
Factfinder Schools for Co-ops Prove Certain Policies Control Business Success

THOUGHTS that have enabled many Michigan farmers as co-operative businesses to become highly successful were discovered to many businesses at the January meetings of the Co-operative Farmers Service. The sessions were conducted as the agricultural economics extension service of the Michigan State College. The sessions are being held as part of a program designed to help farmers analyze their business problems and develop plans to meet them.

The speakers at the meetings were: Mrs. J. R. L. Little, head of the Michigan State College Department of Rural Economics, who discussed the problems of the cooperative movement; and Dr. J. R. L. Little, Department of Rural Economics, who discussed the problems of the cooperative movement.

DOES THE COMPANY’S POLICIES DETERMINE ITS SUCCESS?

- The Co-op tractor is designed with efficiency and economy in mind. It’s built to last, and it’s designed to work hard.

- Mr. Peter V. Patterer Writes—

- Farm Bureau Service, Inc.

- Lansing, Michigan

- Dear Mr. Patterer:

- In September, 1936, we purchased a Co-op tractor No. 3 and equipped it with 135.25/28 Goodyear tires. We have used the tractor constantly ever since.

- There were several reasons for purchasing a tractor such as the Co-op.

- We were intending to buy a caterpillar tractor because we are in the peat business. You can imagine how important tractors are when you work in a peat bog where there is little or no footing. The tractor has to work day and night, flooding, dredging, culverting, hauling, as well as pulling trucks out when they get mired.

- Before purchasing a caterpillar tractor, out of fairness to other manufacturers, we took a field demonstration trip of tractors around the state. The Co-op out-performed them all and we were delighted with it.

- We purchased the tractor and put it to good use. It’s been working hard, and it has never let us down.

- The tractor has four to six spuds daily and with very few exceptions, did not stop last winter.

- The Co-op No. 3 tractor has had fifteen months of the hardest possible use. We know of nothing harder on the tractor than the type of work we are doing. Yet, outside of some breakdown caused by a mechanical failure, it has never failed to perform. It has never been overhauled and is working as good as new today.

- The writer has had many years of experience with all makes of tractors but he has never seen anything that compares with the quality and performance and economy of the Co-op tractor. It has given us entire satisfaction and we cannot recommend it too highly.

- Sincerely yours,

- PETER V. PATTERER,

- Nussmeyer and Landscape Architect

Milkmaker Dairy Feeds with home grown grains and lege hay-can't be improved on low cost for milk

Milkmaker 34% protein has 25 to 35 lbs. more of digestible nutrients per ton than most 3% daily feeds. That is the amount needed to make 436 lbs. of 3.6 milk.

Milkmaker doesn't cost any more than other good 34% feeds, but we think you'll find it's worth more.
