Michigan Farmer and Farm Bureau Trip to New York June 13-18

This is the best opportunity for participating in the Michigan Farm Bureau Convention to be held in the World's Fair Hotel and New York City, June 13th, 14th and 15th.

courtesy of the Great Lakes States and Pacific States Farm Bureau Leaders will attend. Each state at least 2 delegates and 3 alternates are to be to the Grange and the American Institute of Agricultural Agents.

The American Farmers Union is interested in the future of the Grange and the American Institute of Agricultural Agents.

The complete program will provide all the information the delegate may need. Each state will send its leader to the Arizona, Texas, and California meetings, plus one delegate to the South Dakota, North Dakota, and Minnesota meetings. The entire program of the convention will be held in the World's Fair Hotel.

The Farmer's Dollar Goes to Town

There are 13,516 towns of less than 10,000 population in the United States. They are the crossroads of rural America. Through them flows the stream of manufactured goods back from these towns and to the centers of industry and finance. How much farm output is sold in these rural towns?

On the downward turn of farm prices from 1929, for every drop of $100 in farm income, there was an increase of $40 in retail sales, according to the U. S. Dept. of Agriculture. On the upturn in farm prices, for every $10 increase in farm income, there was an increase of $74 in retail sales.

The flow of farm dollars to town shows that town is the answer. Not lack of farm efficiency, says the Dept. of Agriculture, but lack of market change in the population of 40 years, farmers are producing abundantly for the home market.

Distributors Not So Hostile: We Have Before Us An Opportunity

By BILLY HIST M. WAGAN

I have been called up to the gentleman and asked to be present at the meeting. I have been informed that there is a possibility of the members' organization being dissolved. I have been told that the members' organization is being dissolved. I have been asked to be present at the meeting. I have been informed that there is a possibility of the members' organization being dissolved. I have been told that the members' organization is being dissolved.

I accepted the appointment as a member of the members' organization. I have been asked to be present at the meeting. I have been informed that there is a possibility of the members' organization being dissolved. I have been told that the members' organization is being dissolved.

I would like to see a new day for the members of our state, for the members of the state, for the members of the state, for the members of the state, for the members of the state.

Quality, Better

Quality, Better, Quality, Better, Quality, Better

I have been called up to the gentleman and asked to be present at the meeting. I have been informed that there is a possibility of the members' organization being dissolved. I have been told that the members' organization is being dissolved.

I would like to see a new day for the members of our state, for the members of the state, for the members of the state, for the members of the state, for the members of the state. This I would like to see a new day for the members of our state, for the members of the state, for the members of the state, for the members of the state, for the members of the state.
MICHIGAN FARM NEWS

APR. 21, 1939

AM. FARM BUREAU CELEBRATES 20 YEARS

Good This Year in Five More States and Membership of 360,000

In celebration of 20 years of Farm Bureau activity, Michigan's Farm Bureau has designated 1939 as its anniversary year. The Board has also authorized the distribution of Farm Bureau membership cards to all new members.

The membership drive will be in effect throughout the state during the next two months. The goal for the year is 1,130 new members.

Consumers Power Services 63,000 Farm Customers

Will Build 3,000 Miles of Farm Lines, Cost $9,000,000

Four years ago, in July of 1935, the Consumers Power Co. announced plans to extend its rural electric service to nearly all farms in the state within a period of three years. As a result, the company is making a number of improvements in its rural service districts, which will include the installation of new lines, poles, and other equipment.

The company has already spent $6 million on its rural service program and is planning to spend another $3 million in 1939. The company expects to complete its rural service program by the end of 1939.

Consumers Power Co. is a pioneer in the field of rural electrification. In 1935, the company began an aggressive program to extend its service to rural areas throughout the state. The program has been so successful that the company has now extended its service to nearly all farms in the state.

The company is planning to extend its service to all farms in the state by the end of 1939. The company is also planning to extend its service to all rural areas throughout the state by the end of 1939.

Farm Bureau Statement on State Aid for Schools

The Farm Bureau is a strong advocate for adequate funding of public schools. The organization believes that education is a fundamental right and that every student should have access to quality education. The Farm Bureau supports measures that ensure schools have the necessary resources to provide a well-rounded education for all students.

Performance of the public school system must be evaluated against clear standards. This requires funding levels that adequately support educational programs and facilities. The Farm Bureau is committed to working with lawmakers to ensure that school funding meets these standards.

Chemists' Word is LAW in CO-OP FEED MIXING

Farm Bureau Chemists Check Materials and Everything in the Mixture

By C. E. Sale

The Farm Bureau feed chemists are experts in the field of feed analysis. They ensure that the feeds sold in co-op stores meet the highest standards. The feed chemists check every ingredient used in the feeds to ensure that they are of the right quality.

Farm Bureau Chemists perform tests on every mill and packing house feed. They evaluate the ingredients for their nutritional value and mixing performance. This ensures that farmers get the best possible feed for their animals.

The Farm Bureau feed chemists are experts in feed mixing and feeding. They ensure that the feeds sold in co-op stores meet the highest standards. The feed chemists check every ingredient used in the feeds to ensure that they are of the right quality.

Chemists check the raw materials, the blends, and the finished product. This ensures that the feeds sold in co-op stores meet the highest standards. The feed chemists check every ingredient used in the feeds to ensure that they are of the right quality.
