NASH EQUIPMENT CO.

The government defense agencies have been urged to encourage or do something to quiet the clamor. Office of Production Management officials are doing a credit business, all in a steady and effective manner.

Broody Speaks For Co-ops at Washington

In the interest of Michigan Farm Bureau's efforts to encourage and assist cooperatives, the following message was put out:

NATIONAL FARMER'S UNION

"The government defense agencies have been urged to encourage or do something to quiet the clamor. Office of Production Management officials are doing a credit business, all in a steady and effective manner."
Wickard Agrees With Farm Bureau

The program of the National Farm Bureau has agreed with the Farm Bureau that no ceiling should be fixed for farm prices at less than 110% of parity, and that farmers should work with the government to improve the marketing of their crops.

In 1940 as compared to an average mortgage for $2,534 the debt which society owes them ledges the individual owes to society.

The average age of a Michigan farmer is just over 50 years. Two-thirds of the farmers have been on their farms for a long time. The average mortgage for $2,534 is a telephone. Two-thirds of the farmers have been on their farms for a long time. The average mortgage for $2,534 is a telephone. Two-thirds of the farmers have been on their farms for a long time. The average mortgage for $2,534 is a telephone.

PARITY IS CAN TIED TO DOG'S TAIL

Mr. Earl Boyes, president of the
Farm Bureau recently asked that the
annual dinner of the Farm Bureau be held
and that the Board of Directors be
formed by the Board of Directors.
The Board of Directors shall hold
meetings at least four times a year.

National Leaders to Speak at
AFBF Convention

Wicklend, Bankston, Cannon
And Arnold Coming
To Chicago

The new Federal Reserve system will
be discussed by Arthur C. M. Clark,
chairman of the Federal Reserve System,
at the 7th Annual Meeting of the
American Farm Bureau Federation to be
held at the Palmer House in Chicago
on November 23rd. The meeting will
be attended by over 5,000 delegates from
all parts of the country.

Bureau Urges State Directors
Another Program for Farmers

On the program will be: A new
Executive Secretary, Mr. Frank
P. McManus; Mr. E. F. Thomas,
and Mr. W. H. Johnson, both of
the National Farmers Union;
and Mr. W. H. Johnson, of the
American Farm Bureau Federation.

A good day for campaigning and
visiting the State Directors and
memorandum meeting were
held. The meeting adjourned by
the President.

Most of the questions that were
asked concerned the parity program
and the need for more training for
the farmers. The delegates were
informed that the parity program
was a necessity for the continued
survival of the farmer and that
more training was needed to
prepare the farmer for the
future.

Young Man... You’re in Luck

If your age is between 16 and 35
You may be eligible for our
Youth Program. The Youth Program is
open to all persons aged 16 to 35
and is designed to help young people
develop skills and knowledge in the
agricultural industry.

Convention At College November 8
Parke County Junior Farm Bureau men will be represented by eight members at the State Junior Farm Bureau convention to be held at Michigan State University, East Lansing, Nov. 27-28.

It is requested that all members of the Parke County Junior Farm Bureau send in their membership cards for the annual check before the convention.

At Camp Roberts
Around State With Junior Farm Bureau
Detroit Junior Farm Bureau held their winter meeting in the hall of J. B. Anderson's garage, Detroit on Tuesday evening, Dec. 1.

Robert Clark, editor of this paper, was the guest speaker at the meeting. He discussed the importance of the Junior Farm Bureau. He also spoke on the importance of voting in the approaching presidential election.

Community Farm Bureau Activities
Membership Extension and Education
The West Allis County Farm Bureau is trying to expand the membership of the farm bureau. They are doing this by sending out recruitment materials, setting up membership drives, and conducting educational programs.

Bureau of Animal Industry

The Bureau of Animal Industry is responsible for the health and safety of animals in the state. They are also in charge of inspecting and regulating the meat and poultry industry.

The bureau is responsible for the following activities:

1. Conducting research on animal diseases and injuries
2. Developing and implementing disease control programs
3. Providing training for animal health professionals
4. Monitoring animal health and welfare
5. Enforcing animal welfare laws

This bureau plays a crucial role in maintaining the health and safety of animals in Wisconsin.

BARGAIN DAY FOR ELECTRICITY

While prices of some things have gone up, that's not true of electricity. Cheap electricity is still your best bargain. Do whatever you can to economize, and you'll have a lot of extra dollars to help you get through the tough times.

In my business, I know what a penny can mean—and when I stop to think how much I can buy for so few cents—I know what it means to the family "bookkeeper"—the housewife.

BARGAIN DAY FOR ELECTRICITY

In my business, I know what a penny can mean—and when I stop to think how much I can buy for so few cents—I know what it means to the family "bookkeeper"—the housewife.

WHAT DO YOU MEAN—IT'S ONLY A PENNY?

In my business, I know what a penny can mean—and when I stop to think how much I can buy for so few cents—I know what it means to the family "bookkeeper"—the housewife.
Producers-Consumers Relationship

Background Material for Discussion in November

By our 200 Community Farm Bureau Groups

By EMMETT T. JONES

Montgomery, Ala.

Furniture and clothing are worth a lot, but they are not as important as food, shelter and clothing. The three are the necessities of life, and if they are not provided, the others cannot be provided.

The three necessities are not produced by the consumer, but they are consumed by the consumer. A good example of this is the fact that the farmer or the manufacturer does not consume the products he produces. He sells them to the consumer. The consumer, in turn, uses the products he buys, but he does not produce them.

This is a simple example, but it is a good one. It shows that the consumer is the one who really consumes the products of the producer. The consumer is the one who is really satisfied when the producer's work is done.

The producer, on the other hand, is not satisfied until the consumer is satisfied. The producer is not satisfied until he has sold his product to the consumer, and the consumer is not satisfied until he has bought and used the product.

This is a simple example, but it is a good one. It shows that the producer is the one who really produces the products, but the consumer is the one who really consumes them.

The producer must sell his product to the consumer, and the consumer must buy and use the product. Without the consumer, there would be no producer, and without the producer, there would be no consumer.

This is a simple example, but it is a good one. It shows that the producer and the consumer are two different things, and they are both necessary to each other.

The producer is the one who produces the products, but the consumer is the one who consumes them. The producer must sell his product to the consumer, and the consumer must buy and use the product. Without the consumer, there would be no producer, and without the producer, there would be no consumer.
