They Direct the the Work of the Farm Bureau in Michigan

The work of the Michigan State Farm Bureau is directed by a board of directors. The Farm Bureau and its local and county federations carry on the work of the Farm Bureau in Michigan. It is the job of the Farm Bureau to keep its members informed of what is going on in Washington, D.C., and to keep members informed of the important work done in the state bureaus and offices.

Co-ops Ask Priorities For Farm Supplies

Farm Groups For a General Price Control Program

For Agriculture

Will confer with price-finders for eggs, butter, and other farm products to make sure price trends are handled properly. The council will consider the current price situation and recommend price policies to the Farm Bureau and its members.

The job of the Farm Bureau in Michigan is to keep the members informed of what is going on in Washington, D.C., and to keep members informed of the important work done in the state bureaus and offices.

Farm Bureau Annual Meeting Nov. 13-14

Time to Consider Delegations, Resolutions, and Other Matters

Announcement is made that the Farm Bureau will be held at Grand Rapids, Michigan, on November 13 and 14. Delegations and other matters will be considered at the meeting.

The council membership of the Farm Bureau will be held at Grand Rapids, Michigan, on November 13 and 14. Delegation and other matters will be considered at the meeting.

MILK, WHEAT, EGG INCREASES ASKED OF MICHIGAN

Milk, Wheat, Egg increases asked of Michigan

Milk increases asked of Michigan

The government has asked that the price of milk be increased by 15%, this is greatly contributing to the inflation of the public. Farm families are being asked to increase the price of milk by 15%.

No Ceiling For Farm Prices Only

In August, for the first time in many years, farm prices advanced to the level where farmers attained parity in income. Another way of saying it would be to say that the farmer earned as much as the household dollar to trade even with the products and labor and industry. For September, we had just a little better than parity income through further improvements in farm prices.

A year ago so this time the U.S. Department of Agriculture reported that we were at 24%. This disadvantage in trading farm earnings for manufactured goods.

Now we have better prices and better times and have caught up with the production of the first time in nearly a generation. We are beginning to hear that farm prices are heading us for inflation. We hear that farm prices have the power to force prices up in what may be. Few other than prices in the future, the storemen will put in that the price of the future, the storemen will put in that prices are heading up and the price of the future, the storemen will put in **County Leaders Urge January 1 Membership Date**

Endorse Work of AFRI Dairy, Poultry and Flocks Committees

A recommendation that all Farm Bureau members from January 1 when he attended a meeting of the state board of directors of the Michigan State Board of Agriculture and Forestry at Owosso Jan. 9, was made by Dr. R. B. Lord, president of the bureau.

The recommendation was made in the following letter to the members of the bureau:

"It is the general opinion of the board of directors of the Michigan State Board of Agriculture and Forestry that the members of the bureau should be urged to work on the county level for a January 1 membership date. This is the time when many people are more likely to sign up for membership.

"The board of directors also suggests that the bureau should work closely with the state board of agriculture and forestry to promote this membership drive."
Our Changing Agriculture and the Necessity for New Relations with Other Groups

Farmers Second to None in Readiness to Make Sacrifices for National Defense, but May Not Be Pushed Around as They Were in the World War

ADDRESS BY CLAIRE L. BRODY, TO KALAMAZOO ROTARY CLUB, TUESDAY, SEPTEMBER 16, 1941

In accepting the invitation from Clinton Buell, your president, to speak to you today, I did so hoping I might make some small contribution to the success of this important program of the Kalamazoo Rotary Club. I do not believe that the two are mutually exclusive.

Agriculture is one of any city's most important industries, according to any good city planner, Charles Harrington, manager of the Sunshine Chamber of Commerce.

A high percentage of the members of most distinct classes were born on the farm. Having been engaged in the city for many, many years, at times I think city folks are inclined to attempt to interpret recent or present agricultural developments with the background of farming conditions as they existed in the "good old days." 15 to 40 years ago. At least some of the advice and criticism comes from others who seem to indicate that we farm people on the other hand have been busyly engaged in adjusting ourselves to the rapidly changing conditions and situations and problems and the routine of everyday demands that we are able to see our long-range perspective in interpreting present conditions and situations.

Therefore, from the standpoint of both city and farm people perhaps we will not be amiss to briefly review the history of our American development.

THE GREAT CHANGE FOR AGRICULTURE

Many factors and causes were responsible for this great change in the City of Detroit and of the nation as a whole, but some of the most important ones were the developments of science in agriculture and the industrial revolution. The developments of science in agriculture have had their effect on the agriculture of the whole nation. The industrial revolution has also played an indispensable part in agriculture. The industrial revolution has also played an indispensable part in agriculture.

The developments of science in agriculture have had their effect on the agriculture of the whole nation. The industrial revolution has also played an indispensable part in agriculture.

In the early 1930s to 1940, including the post-World War I period, the development of science in agriculture and the industrial revolution were the two most important factors in agriculture. The development of science in agriculture included the development of new crops, new methods of growing crops, and new methods of handling crops. The industrial revolution included the development of new manufacturing processes, new methods of handling goods, and new methods of transportation.

The developments of science in agriculture have had their effect on the agriculture of the whole nation. The industrial revolution has also played an indispensable part in agriculture.

Over the State with the Junior Farm Bureau

Sixth Convention at College November 8

Export 600 Junior Farm Bureau Delegates from 50 Counties; Group Luncheon and Evening Party Planned

Indications are that the sixth annual convention of the Michigan Junior Farm Bureau at the Fairchild theater at Michigan State Normal College, Ypsilanti, will be the largest in the history of the group. Six hundred boys and girls from 50 counties and women are expected as delegates from 50 county organizations.

Business includes the election of state officers and the adoption of resolutions of policy concerning matters discussed in the past year.

In the field of entertainment, the new feature will be a group luncheon served in the judging of the blind in the Junior Farm Bureau.

The convention committee includes:

Grenville Clark as chairman, Clinton Stobbs and Howard Broom of the College Junior Farm Bureau, Louis Selekdy of Genesee county. Clarence Clark of Livingston county has served on the committee.

CONVENTION PROGRAM

Morning: 8:00, Morning prayer and devotion; 8:30, group meeting and group meeting; 9:00, Dr. Howard McClusky, keynote speaker. Awards were given for outstanding work of the past year. The awards were given for outstanding work of the past year.

Israel County: Will have 500 attendees on October 30

Dr. Egal. S. Keyes, State Associate in Science, will deliver a drive for college students and other college students.

Juniors in the Junior Farm Bureau, under the guidance of the committee and the following officers, have been chosen: President, Mr. and Mrs. Georgetown; Secretary, Mr. and Mrs. Georgetown; Treasurer, Mr. and Mrs. Georgetown; Secretary, Mr. and Mrs. Georgetown; Treasurer, Mr. and Mrs. Georgetown.

LOCAL JUNIOR FARM BUREAU LIST EVENTS

Name: New Country Officer; 1941 Program in Final Stages

GERGEN COUNTY: The last meeting held was called to order by Dr. Howard McClusky. The meeting was held in the evening of October 30 at the St. Andrews Hall. The meeting was addressed by Mr. and Mrs. Georgetown, who thanked the group for their work and their interest in the Junior Farm Bureau.

Wexford County J.F.B. Goes to Town

The Wexford County J.F.B. is made up of the following members: Mrs. Hazel Purcett, chairman; Mrs. Hazel Purcett, secretary; Mrs. Hazel Purcett, treasurer; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member.

The state officers installed were Mrs. Hazel Purcett, secretary; Mrs. Hazel Purcett, treasurer; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member; Mrs. Hazel Purcett, member.

EXPERIMENT FARM BUREAU MEMBERSHIP FOR 1942

For 1 year, 500 dollars for the average size family. If the family is a member of the Fairchild Extension Bureau, the membership is for 1 year for the family.

Big Farms in Western States

The state officers have been busy attending the meetings of the state officers, and have been in charge of meetings in the Western States. The state officers have been busy attending the meetings of the state officers, and have been in charge of meetings in the Western States.

BIRTHS

The state officers have been busy attending the meetings of the state officers, and have been in charge of meetings in the Western States.

Parity Progress and Where We're Going

Background Material for Discussion in October by our 200 Community Farm Bureau Groups

For years, the Federal government has made it a practice to keep a close watch on the procurement and distribution of farm products. The responsibility for this policy rests with the Secretary of Agriculture, who is assisted by a number of experts employed by the government. It is not my intention to make any political attacks on any member of our Cabinet. The purpose of this speech is to outline some of the problems involved in agricultural policy and to present some of the facts which underlie these problems.

QUESTIONS TO KEEP IN MIND

1. What are the reasons for the unfavorable farm price situation?
2. What is the flight against inflation?
3. What is the war and your pocket-book?
4. What can we do about it?

The purpose of this speech is to outline some of the problems involved in agricultural policy and to present some of the facts which underlie these problems.

Flight Against Inflation

The flight against inflation is a phenomenon that has been observed in many countries. It is a reaction by consumers to the high prices of goods and services. The flight against inflation is characterized by a demand for cheaper goods and services, and a movement away from goods and services that are perceived as inflationary.

The flight against inflation has been a factor in the current unfavorable farm price situation. The high prices of goods and services have led to a demand for cheaper alternatives, and this has put pressure on farm prices.

The flight against inflation is a consequence of the high prices of goods and services, which are caused by high demand and limited supply. The flight against inflation is a self-regulating mechanism that helps to control inflation.
