FARMERS NEED A STRONG SEASONED ORGANIZATION TODAY

Farm Bureau Pledges Nation Food in Plenty

Challenges Industry and Labor to Match Work With Agriculture; Says Parity Price Relationship Must Continue

The American Farm Bureau Federation has pledged the nation in wartime supply of food and fiber from American farms that will meet every need.

The American Farm Bureau wrote its war time program at an annual meeting at Chicago the week of December 7 while the United States was being thrust into war with Japan.

Sixty-six members from the Michigan State Farm Bureau were present. They were among the 3,000 representing nearly a half million farm homes holding membership in the organization in 44 states.

Farmers Go All The Way

The farmers of the American Farm Bureau Federation pledged themselves wholly and unconditionally to all efforts to help the government and their neighbors, and to do their utmost to win the war.

The Farm Bureau spoke poignantly in its resolutions regarding farmers' insistence upon a square deal from other groups in the matters of price control and taxes. The Farm Bureau declared that principle of parity price relationships must be continued between agriculture, labor, and industry.

Farmers Need Skilled Help

The nation was told that farm production requires a supply of skilled labor if adequate and efficient production is to be maintained. Service-offsicials agreed that the same consideration to essential farm labor as is given to skilled industrial workers.

In a Farm Bureau report, an immediate and continuing moratorium on all war stoppages, strikes, or other industrial strife for the duration of the war was endorsed.

The Federation unanimously adopted a war time program in 12 resolutions which are presented on page 4 of this edition.

President C. Reed of the Michigan State Farm Bureau served on the AFBF resolutions committee. It was in session for 6 hours.

Farm Prices, Farm Help and Labor Union Policy

FARMERS NEED THE FARM BUREAU

Farm Bureau invites 10,000 to Membership

Members of 45 County Farm Bureaus will Take Story of Organization Progress and Future Aims to Their Neighbors

500,000 Farm Bureau families in 41 states are wholly and proudly dedicated as an organization to the winning of this war. They are also wholly and resolutely dedicated to the idea that a strong Farm Bureau organization and a sound Farm Bureau program will make for farm unity and prosperity now and in the years to come.

Farm Bureau needs more members. 4,363 additional families joined the Michigan State Farm Bureau in 1941. Forty-five Michigan County Farm Bureaus are going to conduct a Roll Call of all farmers in January, February and March to encourage members in their organizations.

Farmers will be asked to do many things in this war. They can and will do a great deal individually in producing food and fiber. They can and will make important contributions to the national effort and to their own welfare through their Farm Bureau organization.

They can and will support farmers and farm organizations for all prices, and at any time.
CIO Moves in on Agriculture

John L. Lewis and his United Mine Workers wing of the CIO have announced that they are moving in on a section of Michigan agriculture.

How successful the marriage between Lewis' UMWA and the CIO and a group of Michigan dairy farmers is remains to be seen.

The Lewis move in issuing a charter to a former CIO organizer and forming up an organization of farmers under the CIO emphasizes the farm family that exists in the CIO between the mine workers group and the United Automobile Workers.

August Scholle of Detroit is head of the CIO in Michigan, which means by and large the United Automobile Workers.

Mr. Scholle has made statements to the press recently that CIO policy is not to organize in the farm field, and that he has had no word to the contrary. Mr. Scholle was attacked and beset by friends of Lewis during the recent CIO convention in Detroit.

The Lewis action simply means that every farmer must be ready to resist in any and every line with the CIO and be dominated by the overwhelming weight of city trade unions in such a set-up, or whether he will become a member of an independent organized farm and maintain it as such.

Price Control Should Include Labor Wages

Farm Bureau Tolls Senate Any Other Arrangement Certain to Fail

The Michigan State Farm Bureau recently held aresolver hearing at Lansing, Mich., the meeting had been called by Chairman Jack D. Bowers of Detroit, to hear statements made to the press recently that CIO policy is not to organize in the farm field, and that he has had no word to the contrary. Mr. Scholle was attacked and beset by friends of Lewis during the recent CIO convention in Detroit.

The Community Farm Bureau During December

A Month Crowded with Great Events

By KEITH A. YACKER

With the beginning of another year, the Community Farm Bureau families are fully awakend to the changing seasons and ready to make the most of this month full of events.

It’s a time of new beginnings, increased activity, and the building of foundations for the coming year. This month alone, the Community Farm Bureau has organized a string of events that bring together members from all corners of the state, providing ample opportunities for interaction and engagement.

The most significant news of the month is the selection of ____________ as the new Farm Bureau member of the ____________ County Farm Bureau. He or she will represent the county at the upcoming state conference and is expected to bring a fresh perspective and innovative ideas to discussions.

In addition to this, the Community Farm Bureau has continued its support and celebration of local agricultural traditions and the value they bring to our communities.

On the night of ____, we had a memorable New Year’s Eve celebration at ‪<party location>‬, where attendees enjoyed live music, delicious food, and a lively atmosphere. The event was attended by local farmers, families, and friends, who came together to ring in the New Year and celebrate the achievements of the past year.

Local farmers and members of the Community Farm Bureau have been diligently involved in the organization of this event, contributing to its success by providing various services such as cooking, decoration, and entertainment.

Throughout the month, the Community Farm Bureau has also worked hard to raise funds to support the local community. One notable event was the ________ which took place on ____. The event was a huge success, raising __________ in support of our efforts.

We are also proud to announce that the Community Farm Bureau has received ____________ from the state government in recognition of our hard work and dedication to the agricultural community.

As we look ahead to the next month, we are excited about the opportunities that lie ahead. There will be many more events planned, and we encourage all members to participate and share their ideas. Together, we can continue to build a strong, vibrant, and thriving agricultural community that will benefit generations to come.
Mobilization For Absolute Victory

With all efforts toward peaceful negotiation exhausted, and seeking to win, America finds herself at war. Over night our program of all-out defense has been displaced by actual warfare. The treachery of a nation whose doctrines were spread to Western civilization by America, has led to war. America’s destiny of Christian leadership in world affairs is determined by an imperialistic rising sun and a contested sea. By reason of an unprovoked attack upon our peace and security, the excess of expenditure of good-will to every people, is now to be followed by an expedition to avenge the crimes of a militaristic clique.

The realities of our position can no longer be a matter of debate. Our democracy must wage unceasing war upon the arrogant tyrannies that seek to crush and dominate. We must continue all aid and support to the fight against the common foe. We must relentlessly guide ourselves in this struggle to achieve a peace that will outlaw terrorism and subversion as instruments of national policy throughout the world.

An America at war demands the uniting labor and all of the blood, wealth, and stores of America now commonplace with the blood, sweat, and tears of Britain. We must devote renewed energies to the battle of production. Any lagging by industry, house, or agriculture will not be tolerated. We must recognize that modern warfare is waged by civilians as well as by men under arms.

The interest of the American Farmers Bureau Federation, here and now, throw themselves into the struggle that will be waged as one, as every American, for the defense of our nation. We dedicate ourselves, our fortunes, and our sacred honor to the cause. We commit ourselves to the sternest effort to support the cause of a nation whose doors were first opened to Western labor and unselfish sacrifice required if our hallowed heritage is to be preserved. We stand by the cause. We commit ourselves to the sacred honor to the cause. We commit ourselves to the

Price Control, Inflation and Taxation

The problem of the Federal budget and its impact upon us is a problem which can only be determined after the war is over. The inflation that has been occurring in the last years must be avoided at all costs. Agriculture and every other segment of the economy through the agencies of the government have been increasing our costs of living. The average person is unaware of the cost of living increases. We must recognize this as an inflationary price increases.

We must not be diverted from the real purpose of the Agricultural Adjustment Act. The purpose of the Agricultural Adjustment Act is to provide a sound farm program. It is to provide a means by which the farmer can live, in which the farmer can earn a living, and in which the farmer can be assured of an adequate income. It is to provide a means by which the farmer can be assured of an adequate income. It is to provide a means by which the farmer can be assured of an adequate income.

Parity Goals, Loans, and Appropriations

The following are the basic principles and purposes of the Agricultural Adjustment Act, and the measures of the various loans and subsidies that have been established. The legislative and administrative powers of the government have been established to provide for the growth of the economy through the loan of funds to the farmer. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment.

In the case of these purchase loans, the farmer will be provided with funds to purchase land and equipment. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment.

We recognize that the farmer is the backbone of our economy. We recognize that the farmer is the backbone of our economy. We recognize that the farmer is the backbone of our economy.

Farm Credit

The farm credit system shall be independent and self-sustaining. The government will not charge any fees or charges against the Farmers Home Administration for the purchase of land and equipment, and for the purchase of farm equipment. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment.

We endorse the policy governing emergency farm credit and the loan of funds to the farmer. We endorse the policy governing emergency farm credit and the loan of funds to the farmer. We endorse the policy governing emergency farm credit and the loan of funds to the farmer.

Leadership Responsibility

The farmer and the industry are equally responsible. We must work together; we must support one another; we must encourage one another. We must support one another; we must encourage one another. We must support one another; we must encourage one another.

The farm credit system shall be independent and self-sustaining. The government will not charge any fees or charges against the Farmers Home Administration for the purchase of land and equipment, and for the purchase of farm equipment. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment. These loans are to be used for the purchase of land and equipment, and for the purchase of farm equipment.

Agricultural Programs

The realities of our position can no longer be a matter of debate. Our democracy must wage unceasing war upon the arrogant tyrannies that seek to crush and dominate. We must continue all aid and support to the fight against the common foe. We must relentlessly guide ourselves in this struggle to achieve a peace that will outlaw terrorism and subversion as instruments of national policy throughout the world.

The mounting public debt and the mounting deficits are pressing upon us a dire necessity of making every possible for the expenditure of public funds to seek, through every legitimate and appropriate channel, broadening the horizons of our own economic boundaries. United States operated by tenants deserves the support of the entire American people. We commit ourselves to the

Agricultural Adjustment Act

If adequate and efficient production results, and if adequate and efficient production results, and if adequate and efficient production results, we will be on our way to victory. We commit ourselves to the

L. W. ALLEN

South Haven

As a part of a story about the contributions of the American Farm Bureau Federation to the nation, the following paragraphs are from a letter written by Mrs. Willard W. Johnson of South Haven, Michigan. She expresses her appreciation to the members of her Farm Bureau chapter for their help in furnishing material for this article. The letter was received by the Farm Bureau Office on December 4, 1941.

Mrs. Johnson says, "I have been a member of the South Haven Farm Bureau chapter for over four years and I have always been impressed with the work that is done by the members. During the past year, the chapter has taken an active part in the production of food for the nation and has contributed greatly to the war effort. I am proud to be a member of this group and I will continue to support its activities in the future."
