FARM BUREAU WOMEN'S CONTESTS FOR 1942

The American Farm Bureau Foundation in Michigan continues its program to maintain and improve the public information activities of Michigan County Farm Bureaus. The Foundation has sponsored several contests for Farm Bureau women in Michigan in the past. Among these were the annual chicken feeding contest, which has been held each year since 1940, and the milk shipping contest, which was held in 1941.

The purpose of these contests is to encourage Farm Bureau women to become more involved in the work of the Farm Bureau and to help inform the public about the importance of agriculture and rural life. The contests also provide an opportunity for Farm Bureau women to share their knowledge and expertise with others.

In the chicken feeding contest, Farm Bureau women are asked to submit the results of their feeding programs to the Farm Bureau Foundation. The results are then evaluated and the winners are announced at the annual meeting of the Farm Bureau Foundation.

In the milk shipping contest, Farm Bureau women are asked to submit the results of their milk shipping programs to the Farm Bureau Foundation. The results are then evaluated and the winners are announced at the annual meeting of the Farm Bureau Foundation.

The contests are judged on the basis of the quality of the results submitted, the amount of work completed, and the extent to which the work is planned and coordinated with other activities.

In addition to these contests, the Farm Bureau Foundation also sponsors other activities to encourage Farm Bureau women to become more involved in the work of the Farm Bureau and to help inform the public about the importance of agriculture and rural life.
Daylight Saving

The hour from the crack of dawn, until sunset, and start its early noon.
For days was the awakening hour for to and the sunset.
For weeks was the waking hour for to and the sunset.
And at the hour of the sun's rise, the rate at which the sun's rise.
And the hour of the sun's set, the rate at which the sun's set.

CONCRETE materials are widely available for needed farm improvements.

Concrete materials—poured, cast, or precast—provide the most economical and practical form of permanent construction. They offer greater resistance to fire, weather, insects, and vermin. They have better insulating properties than other materials and require fewer maintenance improvements of construction, making more of it easier to do.

Your county soil Conservationist will give you the information you need to choose the right concrete materials for your farm needs. He can help you plan the job and tell you how to use concrete in a most economical way.

PORTLAND CEMENT ASSOCIATION
801 North Michigan Avenue, Chicago 11, Illinois

Southwest Oakland Farm Bureau Picnic
Southwest Oakland Farm Bureau Picnic will be held at the Oakland County Fair Grounds, Pontiac, Mich., May 21. Father’s Day was the real reason the picnic was held, but the fact that it was a great success was due to the hard work of the committee in charge under the direction of Mrs. Helen L. Ross, chairman.

Iong-lasting concrete, land and gravel or stone—laid by building clean, sanitary, feed-saving, concrete materials—Portland cement, is now one of the most useful tools of the farmer. Used properly, it can take the strain of modern farm practices, as well as meet the growing production of farm products at lower cost per acre.

Another important consideration is the ability of the farmer to adapt and to meet the needs of the market, as well as to have a well-managed farm in order to obtain maximum production of farm products. It is essential that the farmer have a well-managed farm in order to obtain maximum production of farm products. It is essential that the farmer have a well-managed farm in order to obtain maximum production of farm products.

Raymond Shaw, 56, son of Mr. and Mrs. Raymond Shaw, of Berry County Farm Bureau, was killed by a car last Thursday. Raymond spent his life in the wheat and livestock business and is a member of the American Farm Bureau. Raymond was killed by a car while driving to work. He left behind a wife and two children.

The family is left with the loss of a loved one. The community and the farm Bureau are deeply saddened by this loss and extend their sympathy to the family.

How About Producers If Small Packers Go?
Case of Detroit Packing Co.
Illustrates the Price Advantage

By HOWARD S. HAGE
Field Farm, Detroit Co.

Detroit Packing Co. is a prime example of the advantages of small packers. By packing and grading their own meat, the长春 descendants of the small packers can control the price of their meat. This is the first and only small meat packer in the United States. They have been able to control the price of their meat for over a period of years, and that has been due to the efficient organization of the company.

In spite of the difficulties of the war, Detroit Packing Co. has been able to maintain its high level of production. They have been able to maintain their high level of production by using the most modern equipment and by employing the most skilled workers.

The smallest packer in the United States.

One of the smallest packers in the United States is the Detroit Packing Co., which has been in operation for over 50 years. This company has been able to maintain its high level of production by using the most modern equipment and by employing the most skilled workers.

Minneapolis, Minn., July 19.

Farmers and Farm Organizations in World War II

This Time Agriculture Has Spokesmen

By CLARK E. BARDY
Executive Secretary of the Michigan State Farm Bureau

Saturrday, September 5, 1942

Frequent contacts with the people for whom we are working.

High production levels and good will toward Farm Bureau officers adequately represent you and are evidence of the unified farmer leadership in Michigan.

Three sections have not been as frequent as I would have desired. The increased responsibilities occasioned by the rapidly growing business and service programs of the Farm Bureau organization, the Farm Bureau membership has been reduced from about 140 in 1937 to 125 in 1941.

Organization Has Resources

The Farmers for a Better Future is a new organization to which the Michigan State Farm Bureau and Farm Bureau Women have contributed 

The Farmer in World War II

The following paragraphs in our report to the American Farm Bureau Federation's First Annual Convention.

The difficulty of obtaining these supplies is not felt by the farmer.

We are now told to prepare for five years of defense. We are doing our full part in Perpetuating Democracy.

In his statement President Calvert emphasized the following points:

We need assistance from other project in Farm Bureau activities. The committee of fifteen represents states and the necessary supplies hauled to this objective.

The farmers are being asked to do all they can to meet the challenge of the war. All the members of the Transportation Committee feel that this is a crisis in the history of the nation.

As the situation improves, the farmer is in a position to make more complete use of the farm.
Activities of the Junior Farm Bureau

BUREAUS

The first meeting of our Junior Farm Bureau was held with a County Junior Farm Bureau. A group of students from the local high school participated. The meeting was held at the home of Anita Tomke.

At the request of the Michigan State College, the Michigan Junior Farm Bureau plan for raising money for the Farm Bureau was discussed. The plan was to have a County Jam on September 5 at the Lone Pine Inn. A new secretary, Mrs. Openlander, was appointed.

Plans are being made for the collection of money. Seed potatoes will be used to buy war bonds.

Dairymen Returning to Milkfeeders

Farmers are returning to milkfeeders after a period of using industrial feeders. The reason given is that the cost of feeding cows with milk is cheaper than with other forms of feed.

Community Farm Bureau Activities

COMMUNITY FARM BUREAU

Reported at the meeting of the Community Farm Bureau was the election of officers. The following officers were elected: L. Cook, of the Michigan State College, chairman; Chester Clark, of Otsego County, secretary; and Mary Reed, of the Washtenaw Farm Bureau, treasurer.

CONCLUSIONS

The meeting was adjourned at 10:00 P.M. The next meeting will be held at the Grand Traverse Hotel on October 10.

CHESTER CLARK WRITES FROM MICHIGAN

The Junior Farm Bureau has been an active organization in the State of Michigan. The members have been working hard to raise money for the Farm Bureau plan. The plan is for the collection of money to be used in the purchase of farm equipment. The money will be used to buy war bonds.

Community Farm Bureau District Topics

"Agricultural Planning in a War Year" is the general topic which numbers of 23rd Community Farm Bureaus in Michigan were studying during the first week of September. Background material for the discussion was prepared for the 23rd Farm Bureau membership relations office. It will be published in the Michigan Farm News the first of each month. Discussion group leaders will present that material and other thoughts to the meetings.

Program for 1942-43 shows that the objectives for the year are to (1) serve their communities in a war-time condition, (2) break new ground in the field of government planning for agriculture in the war-time condition, and (3) serve their communities in a war-time condition. It may mean new ideas, new methods, and new ways of doing things.

In view of the meeting is to start. A program should be developed to analyze the discussion by the group experienced as vice-chairman. His Qualifications. In view of the meeting the following questions might be asked:

1. What is the best way to serve your community with the one person who is a qualified leader? His Qualifications. Who is the best person for the job? Can you suggest qualifications for the person? What do you think the person should be able to do? How do you think the person can help the group? How do you think the person can help the group achieve that objective? Are you sure that the person is the best person for the job? What are your reasons for your choice? Can you suggest qualifications for the person? What do you think the person should be able to do? How do you think the person can help the group? How do you think the person can help the group achieve that objective? Are you sure that the person is the best person for the job? What are your reasons for your choice?

Radio, local papers, letters and records pertaining to the group's activities should be used in the preparation of the discussion. It is also helpful to have the group's activities in mind the State theme roll call of members, of counting a goal for the community group is well as the name of the member who has a definite responsibility in the group. The group's activities can be used in the preparation of the discussion.
