Part of NTEA Attack on Farm Co-operatives

The National Tariff Equality Association, representing largely those classes of farmers who have never before held much interest in the activities of farm cooperatives, has started a campaign to strike at the Farm Bureau. The association thinks it has a good chance to make its campaign successful. It is particularly interested in the following lines of attack:

1. It is to be expected that the campaign in various states will be aided by the activities of the United States Senate Committee on Agriculture and Forestry which has agreed to investigate the operations of the Farm Bureau and report its findings to the Congress. There is reason to believe that this committee will give the Farm Bureau a thorough investigation.

2. It is to be expected that the farmers will find it difficult to continue in the fruits of the Farm Bureau's activities under the new laws, which it is claimed will make it more difficult for the farmers to obtain the services of the Farm Bureau.

3. It is to be expected that the farmers will find it difficult to continue in the fruits of the Farm Bureau's activities under the new laws, which it is claimed will make it more difficult for the farmers to obtain the services of the Farm Bureau.

4. It is to be expected that the farmers will find it difficult to continue in the fruits of the Farm Bureau's activities under the new laws, which it is claimed will make it more difficult for the farmers to obtain the services of the Farm Bureau.

MICHIGAN STATE FARM BUREAU ANNUAL MEETING

Pre-Convention Meetings

At Michigan State College, Wednesday, November 8

Three meetings from 10:30 A. M. to 4:30 P. M., EST.

Monday, November 7, 1944:

- 10:30 A. M., in Room 103, Michigan State University, East Lansing. Members of the Michigan State College Farm Bureau and the United States Department of Agriculture will discuss the problems of regional development in the Great Lakes region.

- 2:00 P. M., in Room 104, Michigan State University, East Lansing. A panel of experts will address the agricultural implications of the new federal regulations for the protection of the Great Lakes.

Tuesday, November 8, 1944:

- 10:30 A. M., in Room 105, Michigan State University, East Lansing. The Michigan State College Farm Bureau will hold its annual meeting to discuss the state of the farm economy and the challenges facing farmers and agricultural communities.

- 2:00 P. M., in Room 106, Michigan State University, East Lansing. The Michigan State College Farm Bureau will host a roundtable discussion on the future of agriculture in the state of Michigan.

GAY 90'S HELPED REBUILD CHURCH

Frank W. Schwartz, pastor of the First Presbyterian Church in Battle Creek, said the 10th anniversary of the church's incorporation was celebrated with a special service on Sunday evening.

"The Gay 90's helped rebuild our church," said Mr. Schwartz. "They worked during the winter months to finish the building, and it was completed in time for our first service in 1935."
We Can Do Better by Being More Tolerant

By FRED EDITH M. EAGLE
State Farm Bureau, Carson City, Neva.

I wish to point out the importance of having our roads in proper condition, needs little upkeep, endures for a long time, and can be used for many purposes, especially in the war effort. With roads in proper condition, as the saying goes, "it's a long road to the end of the earth." Roads are a vital part of our national defense, and it is up to all of us to do our part in keeping them in good condition.

BRODY TESTIFIES ON POST WAR TAX PROGRAM

At the instruction of the U. S. Treasury, C. L. Brody, Assistant Secretary of the Treasury and member of the staff of the Department of Labor, testifies before the Senate Committee on the Taxation of War Profits and War Losses, on the post war tax program.

ON POSTWAR INCORPORATION ACT

Mr. Brody, as chairman of the NAC Director's Committee, stated that the Committee of the National Association of Credit Men has been working on the post war tax program, and that the Committee will recommend legislation to Congress that will be fair and equitable for all taxpayers.

GETTING ON WITH THE PRESS

IN THIS ISSUE

Holland, Mich. (10-12-G2b) A simple suggestion to follow is to get started with the job that needs your support and sympathy of all of us, and I feel very certain that we will succeed.

Mr. Brody went on to say that the Committee will recommend legislation to Congress that will be fair and equitable for all taxpayers, and that the Committee will proceed with the job that needs the support and sympathy of all of us.

To accomplish these things, farmers should be interested in the post war tax program, and they should work with the Committee of the National Association of Credit Men to get started with the job that needs the support and sympathy of all of us.

In conclusion, Mr. Brody stated that the Committee of the National Association of Credit Men will recommend legislation to Congress that will be fair and equitable for all taxpayers, and that the Committee will proceed with the job that needs the support and sympathy of all of us.

Tuscola Carries Ads

In County Papers

The Tuscola County Farm Bureau published a quarter-page ad in the Tuscola County Times, and the ad was carried in the county's newspapers. The ad was carried in the county's newspapers because the Farm Bureau wanted to get the farmers' vote in the next election.

For Quick Starts—Smooth Performance...

BUREAU-PENN or UNICO MOTOR OILS

Farm Bureau oils wear long and well. They are refined from Pennsylvania and Mid-Continent crude to the highest standards. They are high quality, high performance, and long life oils. They are ideal for quick starting and smooth performance. They're real oil values at the right price.

We Advise Stocking Up for Fall and Heavy Spring Needs

Stock up now for your fall and winter needs. Due to our car shortages, we will be out of touch on many oil needs when you want them. A supply of Bureau Penn or Unico motor oil in your farm to keep in your bin is all right, and your bin should be kept full.

HOW to do it

WITH CONCRETE

While you're improving your farm for greater "war" production, do the same for your community's war defense by building a sturdy, fireproof building made of concrete. It's economical, it's safe, and it's the perfect material for such important war work.

Resistible Force meets Immovable Object

When your equitable force of an immovable object is the force of your right of way, you have a problem. Fortunately, there are several solutions to this problem.

Super Unico

Anti-Freeze

SUPER UNICO ANTIFREEZE is of uniformly high quality 300 billion b.p.d. antifreeze, the finest refined from all of the finest fuels in the automotive cooling system. It forms a perfect seal, and it's permanent. This is why Super Unico Antifreeze is the perfect solution to your antifreeze needs.

A LIFT TO THE TAXPAYERS, TOO

In this war the railroads have done twice as big a transportation job as in the First World War. But they are doing another job which may not be so well known, as is shown by these contrasting facts:

In the last war, the operation of the railroads took money out of the United States Treasury.

In this one, the railroads are putting money into the Treasury.

In the last war, when the Government took over the railroads, even though freight rates and passenger fares were raised, Congress had to appropriate more than $1,650,000,000 to meet deficits.

In this war, the railroads have been managed by their owners. A far bigger and better transportation job has been done. And as the Pearl Harbor, the railroads have turned into the United States Treasury the tremendous sum of $25,000,000,000 in taxes — and today are paying federal taxes at the rate of nearly $1,650,000,000 every 34 hours.

And, on top of all this, the railroads in the same month since Pearl Harbor have paid the support of state, county and city governments another $700,000,000, and are today paying state and local taxes at the rate of $6,000,000 an hour.

That's five million dollars a day paid in taxes — ten times as much as the owners receive in dividends.
November Topic
"Inter-Group Co-operation"

Background Material for Discussion in November by Our Communist Farm Women Discussion Groups

(We suggest selecting one Sub-Title below for Discussion at One Meeting.)

Membership Relations & Education

1) "Dairy—Other Occupational Opportunities" (a) A survey of small farms and their need for women workers; need for dairy products; a survey of potential new occupations for women; a comparison of the social, business, and industry.

Suggested Method—p. 61, sections (1) and (3) of this issue for discussion: objections to dairy products, agricultural occupations; and (2) for the discussion of women workers. Follow with sections on changes in occupational opportunities, clear up misunderstandings etc.

2) "Why One Farm Policy?"—Why one objective of organized labor, business, and education. Suggested Method—p. 60, sections (1) and (4) of this issue for discussion:

a. Why one objective of organized labor, business, and education.

b. Why one objective of organized labor, business, and education.

3) "Inter-Group Co-operation"—A study of the state of the art, the problems, and the solutions of the group co-operation. Suggested Method—p. 60, sections (1) and (4) of this issue for discussion: a study of the state of the art, the problems, and the solutions of the group co-operation.

4) "Community Farm Bureau Activities"—Community Farm Bureau Activities.

Suggested Method—p. 60, sections (1) and (4) of this issue for discussion: a study of the state of the art, the problems, and the solutions of the group co-operation.
