EDITORIAL
Next Stop, the Wood Shed
The great majority of people hoped that this Congress would enact a legislation that would properly protect the rights and welfare of the public.

The vote in Congress on the Taft-Hartley bill, and the over-ride President Truman's veto surely should have convinced Holden of labor that Congress was dead set in the change, prohibi-
tions and responsibilities it wrote into the labor act.

However, some of the gendemen in our labor due appear to be more interested in looking for ways and means to evade the Taft-Hartley act than they are in living up to it. From their conference build-

New Labor Law Includes FB Proposals
The American Farm Bureau and the Michigan Farm Bureau support the provisions of the Taft-Hartley bill which were enacted into law in July.

One farmer alone cannot do nothing to change condi-

Farm Safety
Farm safety is a family affair. Farming is regarded as a rather hazardous occupation. Some 4,000 farm workers were killed on the job last year. More than 6,000 farm workers were injured in various types of accidents which occurred in farm homes. More than 4,000 farm people were killed in motor vehicle accidents, and the number was injured more or less seriously in farm accidents.

The week of July 20 to 27th will be devoted to an intense campaign for making farm work and farm safety a top priority of the day. We should remember throughout the year that there is a safe way and a wrong way for everything.

We shall endeavor to collect a few of the farm safety test questions from the National Safety Council. If you can answer "yes" to the questions, you are contributing to the safety of yourself, your family, and others.

Branch President Speaks
In these days, agriculture needs to maintain a steady, solid growth.

The average commercial farm in the country has an investment of $14,000. In Branch county we have 1,900 commercial farms or a $24,000,000 business with no public relations man except our Farm Bureau organization to speak for us.

Many members feel that they should receive an annual cash return on their Farm Bureau membership. Businessmen in our towns pay $25 for a mem-

Michigan Farm Bureau Has Services of Test Laboratory
Governor Vetoes Gas Tax Increase
Governor Butler vetoed on July 16 a bill that added funds for county police, a bill that would have added $100 a year to the county police. Butler vetoed the bill because of the conditions around it. It is only by joining with his neighbors and with farmers in every state that he can fight farm prices and advance farming as a business.

Branch County Farm Bureau has been maintain-

Fertilizer Plant Continues to Take Shape
Fred Hurley, manager of the present plant, has a new lease on the plant at the present time. The plant was made by Clark P. Hazlett, head of the Michigan Farm Bureau. The lease was signed in 1947. The plant was to be the second largest in the state.

It is expected that the plant will be in operation in the near future. The plant will be in operation in the near future.

New Farm Bureau Honors Mr. & Mrs. James Harris
Stanley Powell tells us in his summary of the 1947 legislation that the proposals were made for one year instead of the usual two year period. The legislation is expected to go on to work on Michigan's financial and tax problems.

The Michigan Farm Bureau has begun work with other farm organizations and the state government to improve public finance and taxes and the purpose of making recommendations to the legislature and the people of Michigan.

The study group is the Michigan Industrial Con-

Ohio Names Two ABP Dept. Heads
American Farm Bureau Federation President E. H. Maloney has announced the appointment of two officers to the new department of the federation, the Department of Research and Education.

One of the officers is Charles S. Dickey, who has been general manager of the federation's research department, at the special session of the organization, the new department of research and education will be established.

One of the officers is Charles S. Dickey, who has been general manager of the federation's research department, at the special session of the organization, the new department of research and education will be established.

The other officer is E. W. Wilson, who has been director of the federation's education department, at the special session of the organization, the new department of research and education will be established.
Community Farm Bureau Activities

IN THE recent report of the Michigan Farm Bureau, was the following statement:

"In these summary reports of the Industrial Conference. Lockport, St. Joseph—35. Committee on the subject of juvenile delinquency reported favoring the policy of the Michigan Farm Bureau for the State Department of Agriculture to work more closely with the school authorities in teaching the subject of law and order among the youth of the state. The group felt that cooperation between the Department of Agriculture and the school systems would do much toward improving the moral tone of the state."

Junior Farm Bureau News for June

JUNIOR FARM BUREAU News for June was sent to Farm Bureau representatives for District meetings to be held June 29 and July 6.

The Voice of Agriculture program, with Ben Hennick as moderator, interested and entertained the large group of young farm boys and girls. The farm boys were on record as favoring the plan that the county road rights of way be given back to the farmer.

The Junior Farm Bureau for the state is planning on having fair booths as summer projects. The fair authority is planning on having fair booths as summer projects. The fair authority is planning on having fair booths as summer projects.

The Michigan Farm Bureau Action Committee met with the group and discussed their plans for the coming year. Mr. Gardner was successful in his opposition to the bill increasing the amount of state appropriation recommended by the legislature made appropriations for the State Department of Agriculture to work more closely with the school authorities in teaching the subject of law and order among the youth of the state. The group felt that cooperation between the Department of Agriculture and the school systems would do much toward improving the moral tone of the state.
