MFB Board of Directors and Officers for '54

MFB Board of Directors and Officers for '54

E. O. Bennett, Director of Research, said that in the coming year the research program will focus on improving yields and productivity through better management practices and disease control. The program will also aim to develop new crop varieties and improve existing ones. The budget for the research program is $2 million, with $1 million allocated for applied research and $1 million for fundamental research. The Board of Directors has approved the budget and is looking forward to a productive year.

In the post-war adjustment, farmers are facing new challenges. The price of farm products has been declining, and many farmers are struggling to make ends meet. The Board of Directors has called for a more efficient use of resources and a focus on quality over quantity. They have also encouraged farmers to diversify their crops and markets to reduce reliance on a single commodity. The Board believes that with hard work and innovation, farmers can overcome these challenges and thrive in the post-war period.

**Hardy's Complete Mineral Plan Protects Stock Profits 3 Ways**

1. Supplies All Minerals Stock Needs
2. Saves Buying High-Priced Mineral Foods
3. Assures Efficient Feeding Utilization

There are millions of high-priced mineral foods on the market today which are not needed by your livestock. Mineral deficiencies are caused by a lack of certain minerals in the soil or a lack of minerals in the food. It is possible to provide the necessary mineral requirements in a complete mineral food which is easily fed to your stock.

Michigan Mutual Insurance Co.

**Michigan Bell Telephone Company**

- **ROLL CALL**

**Checkup of equipment prevents costly delays**

- Every farmer knows that his tractor, combine, or any other critical implement breaks down during the busiest season, it means valuable time lost. And now that the rush days of harvesting and planting are over, farmers are carefully checking their equipment to be ready for next year. If a part is badly worn, it ought to be replaced. It's a good idea to telephone the dealer as he can order the new part in time to avoid costly delays later.

**Telephone folks check, too**

Telephone people, too, have found that checking equipment regularly, and renewing worn parts, saves them a lot of work and expense. Although the telephone company has to pay millions to keep everything in top shape—dial, cable, poles, lines—the price of telephoning service isn't nearly as much as the cost of losing hours. The telephone is, fact, one of your biggest machines.
Benson to Speak at AFBF Annual at Chicago

Final Actions on Farm Policy

Farm people will make their opinions known Dec. 14-17, when the American Farm Bureau Federation culminates months of policy development effort at its 59th annual meeting in Chicago.

Resolutions adopted at the close of the convention Dec. 17 will reflect the wisdom of the delegates after six days of study and discussion of some 48 state and pioneer resolutions.

December 15 and 16 will be devoted to general speaking sessions at Chicago's Civic Opera Building. Convention headquarters will be at the Sherman Hilton.

Among the speakers will be Secretary of Agriculture Ezra Taft Benson. He requested the opinion of farm organization members on a number of important national farm questions. That resulted in the Farm Bureau's policy development program this year.

President Allan B. Kline of the AFBF will give his address at the opening general session Tuesday, Dec. 13, with a vesper service in the evening. President Kline will give his annual address at the opening general session Tuesday, Dec. 13, with a vesper service in the evening.

Farm Lobbyists Steer Michigan Lawmakers

With favorable weather since Thanksgiving broke the last week of October to start construction on the new 1,000-bed addition to the Michigan Elevator Exchange, Detroit terminal which was authorized by the Farm Bureau. This article is in appreciation of the time and effort that the Michigan Elevator Exchange spent in the work preliminarily to getting the 1350 gallons of water.

终端建筑继续稳步增长

在美国，终端建设仍在稳步增长。据联邦政府的数据，2023年第三季度，美国新增了约3,000个终端。这表明在经济放缓的情况下，终端建设仍然保持了活力。终端建筑的持续增长对经济复苏是一个积极信号。
Summary of the 24th Annual Report of Farm Bureau

Manager Reports

New Developments

J. F. YAEDER

The Manager's Report of the Farm Bureau Chicago Area is presented here. The report highlights the significant developments and achievements in the past year, particularly focusing on the annual meeting, sales of farm equipment, and the introduction of the Fertilizer Division.

The annual meeting, voted to forego state membership. The coming year will be marked by the election of Adolph Ecklund as manager of the farm bureau. The policies of the farm bureau will be determined along these lines with the cooperation of the members of the board of directors.

Farm equipment sales continued their downward trend throughout the year. The total dollar volume of farm equipment in the state was $1,476,000, which was 40% less than in the previous year. This resulted in the phase of the program. Farm Bureau services' experience in this respect was no different, however, than that of the other states.

Generally speaking, trends of the past year are expected to continue with some improvements in farm machinery. The outlook for the future is promising, and it is expected that sales will remain steady.

Fertilizer Division

The Fertilizer Division, a new department of Farm Bureau, was started last year. It is designed to manufacture 40,000 tons of granulated, high-analysis plant foods a year. The large building is the manufacturing plant at Kalamazoo; second, join the large machinery plant at Saginaw; third, develop the necessary capital requirements to start operation in the plant in Kalamazoo.

The functions of the Finance and Credit Department have increased in importance, and the Credit Department has made a study of the Farm Bureau Services' relationships with the farmers. The functions of the Credit Department have been expanded to include the development of a farm credit program to assist the farmers in their operations.

The sales of farm equipment for 1946 were up 6% over the prior year in spite of the fact that the sales of machinery as a whole in Michigan were down 6% as compared to last year.

Sales of direct application fertilizer materials, such as nitrogen, were up approximately 50% over a year ago. Mixed fertilizer sales decreased, however, as did all miscellaneous fertilizer sales this fall, particularly due to the cutback in dollars.

Fertilizer sales equipment continued their downward trend throughout the year. The total dollar volume of fertilizer sales in the state was $1,476,000, which was 40% less than in the previous year. This resulted in the phase of the program. Farm Bureau services' experience in this respect was no different, however, than that of the other states.

Generally speaking, trends of the past year are expected to continue with some improvements in farm machinery. The outlook for the future is promising, and it is expected that sales will remain steady.

Ten Years of Great Growth

Farm Supply Div. Operations

SALES ACTIVITIES: For the purpose of better combination, Farm Bureau Services was given the responsibility of handling feed sales activities in addition to his sales promotion function. Mr. Weinman has the responsibility of making the largest possible sale of Farm Bureau feeds in order to make enough sale to not only pay all the expenses of the department but to provide a profit for the organization.

SEED - Farmers purchased more seed this year than in any other year in the history of the organization. The plants were used by all local cooperatives and will be used by local farmers. The sales of Farm Bureau seed is slightly above last year. The sales of Farm Bureau seed is 1,141,000 more than last year. The sales of Farm Bureau seed is 1,141,000 more than last year.

BINE - Farmers purchased more bine this year than in any other year in the history of the organization. The bine were used by all local cooperatives and will be used by local farmers. The sales of Farm Bureau bine is 1,141,000 more than last year. The sales of Farm Bureau bine is 1,141,000 more than last year.

Policy on expansion. In order to counter the threat of price reductions, the policy of the year was to reduce the number of sales of Farm Bureau products and to increase the number of sales of other products. This was done by expanding the sales of Farm Bureau products and by reducing the sales of other products.

SALES ACTIVITIES: For the purpose of better combination, Farm Bureau Services was given the responsibility of handling feed sales activities in addition to his sales promotion function. UN Agreements & the American Constitution

Community Farm Bureau Discussion Topic for December

DONALD D. KINSEY
Chairman of Education and Research

It seems that you are more apt to fear for the safety of the American government among some of its elder citizens. Also you will find a stronger element of fear in the foundation of the American Constitution.

While riding on a bus, I chanced to sit behind two of these older citizens and hear their conversation.

"No, Burt," said one of the men, "I don't think that America will be able to get into these international foreign schemers. After all, we have got our Constitution and Bill of Rights. Any court in the land will test these international foreign schemers. After all, we have got our Constitution and Bill of Rights. Any court in the land will test any attempt to invade the area of internal legislation. Such action would be quite unconstitutional.
