Howard F. Simons Retires

Over 300 members of the Michigan Milk Producers Association and their wives met at Kelley Center at Michigan State University January 7 to honor Mr. and Mrs. Howard F. Simons upon his retirement as secretary-manager of the Association.

It was an inspiring experience to witness this demonstration of the regard the members of MMPA have for Mr. Simons. He served them for over 30 years, beginning as a butterfly tester in 1925, later as field representative, director of field service, and was appointed secretary-manager in 1941.

Howard and Mrs. Simons well deserve the honors conferred upon them. His faithful service over these years on the board of the National Dairy Producers Association has become a most able administrator and a top-notch labor relations expert. His vision, courage, integrity and industry have been a unbroken line of able leaders who have guided the Michigan Milk Producers Association.

It was my privilege to be associated with him in the termination returned untold thousands of dollars to their respective members for or conferred upon them. His faithful service over these years on the board of the National Dairy Producers Association has been an inspiring experience to witness this dem-~oven into the fabric of the Michigan Milk Producers Association.

Today in Farm Bureau

JERRY CORDEY
Coordinator of Organization for Michigan Farm Bureau.

GOAL BY FEBRUARY 6
This date has been proclaimed by President Wightman as the time when we should have our 1959 goal of 72,367 new members.

We already have a total of 69,277 of which 4,166 are new members.

This is 95% of goal.

We need only 3,100 to finish the job. As President Wightman says, a concerted effort will finish the job in a short time, and we can be in this victory again.

The success of this drive depends on you. Will you make an effort to sign one member before

February 6

January was busy in Farm Bureau. In addition to the membership drive, the legislative program for 1959 was launched. The Legislature convened on January 14.

Policy conferences meetings were held during January 21 and 22 at Grosse Pointe. These meetings were reviews of the American Farm Bureau Federation policy for 1959, and some of the questions they considered are:

1. Are the future financing and programing of Farm Bureau.
2. The proposal to split the Indiana Farm Bureau into two major groups.
3. The number of county Farm Bureau meetings that will be held this year.
4. The all-out effort to pass our meeting at 10 a.m. with Farm Bureau.
5. The effect of the national Farm Bureau policy on our state's problems.
6. Regional legislation meetings.
7. A resolution for the purpose of financing the National Farm Bureau Pension Plan.
8. The effect of the national Farm Bureau policy on our state's problems.
9. The all-out effort to pass our meeting at 10 a.m. with Farm Bureau.

He Struck Out 1,370 Times
Since the Farm Bureau was formed in 1920, 264 times a member has been requested to contribute to the Farm Bureau. That means striking out 1,370 times. A member who has never contributed to the Farm Bureau has at least a chance of being struck out, and that means he is a member of Farm Bureau.

Mr. Simmons is continuing as a milk producer on his farm near Ortonville in Genesee county. He has left the management of the Michigan Milk Producers Association to his family from Plainwell to LaPorte in the nation over goal.

As you can see, there are many opportunities for us to contribute to the Farm Bureau.

Dear Valentine
Take all of my heart. Dear Valentine, Concealment of any age. To you and me for Codes.

With what is indescribable. When I see and listen to you, I am happy. When I think of you, I am happy. When I hear your name, I am happy.

To pray for you, I have love. You make me happy. The thought of you fills my heart with joy.

In quiet thoughts, I hear your voice, which was heard last week. This week, you attend a meeting of our Farm Bureau and have chosen a new delegate to attend a national meeting.

The old familiar voice of your husband is heard in every room, every corner of your home. These beautiful songs are for the purpose of financing the National Farm Bureau Pension Plan.

And everyone I do.

With all of love that I owe you,

S. G. Clark (2-1-34)

Insurance Makes Two Changes in Field Force

MARTHY ROGGE

Two changes in the Farm Bureau Insurance sales organization have been announced by Mrs. Simmons. The new man in charge of field sales experts in the Michigan Farm Bureau is Mrs. J. W. Simmons, 325 East North Ave., Albion. Mrs. Rorick was recommended by the local Farm Bureau after her appointment as a field sales expert in the Michigan Farm Bureau. She has served as the secretary-treasurer of the local Farm Bureau and has been a member of the Bureau for two years. Mrs. Rorick will be in charge of the new organization from her home in Albion.

EARL HABITT

Parma, Ohio: Two changes in the Farm Bureau Insurance sales organization have been announced by Mrs. Simmons. The new man in charge of field sales experts in the Michigan Farm Bureau is Mrs. J. W. Simmons, 325 East North Ave., Albion. Mrs. Rorick was recommended by the local Farm Bureau after her appointment as a field sales expert in the Michigan Farm Bureau. She has served as the secretary-treasurer of the local Farm Bureau and has been a member of the Bureau for two years. Mrs. Rorick will be in charge of the new organization from her home in Albion.

Massachusetts Farm Bureau

Dear Miss Simmons,

The country's leading insurance company, Farm Bureau, has been awarded a new contract with the Massachusetts Farm Bureau. The contract is for the provision of insurance services to Massachusetts farmers.

The Massachusetts Farm Bureau is the largest organization of its kind in the United States, representing over 235,000 farmers. The contract will provide insurance coverage to farmers throughout the state, including livestock, crop, and life insurance.

This is a significant development for the Massachusetts Farm Bureau, as it provides a much-needed service for its members. The contract will also benefit the Massachusetts farmers, who will have access to reliable and cost-effective insurance coverage.

Thank you for your continued support of the Massachusetts Farm Bureau. We look forward to serving you and your fellow farmers in the future.

Sincerely,

John A. Simmons
Executive Director

Michigan Farm Bureau
State wide tests in Michigan have proved that the use of Farm Bureau fertilizer is profitable. Users get back, on the state average, $3 for every $1 spent on fertilizer. Are you one of the farmers who are getting that kind of return? You can be, by ordering your fertilizer requirements now!

FM FARM BUREAU BULK

is available from both plants, Saginaw and Kalamazoo. Here is the real way to save more on your fertilizer requirements. Ask your dealer how.

1. Bulbous Begonia, which is a bulbous flower, and 2. Tubers Begonia, which is a tuberous flower, and 3. Cactus Begonia, which is a cactus flower. These flowers are native to many parts of the globe and belong to the same family as other flowers. They grow in almost every climate and soil conditions. Some of the hardiest varieties are native to the United States.

**Signs of the Times**

When It Comes to Health Coverage... It's BLUE CROSS-BLUE SHIELD 2 to 1

That's right! Nearly two-thirds of all Michigan families have prepaid health care picked Blue Cross-Shield! The reason is simple. Most folks just don't want to compromise when it comes to health. They know there is no such thing as bargain basement medical care.

They want the best, and they've learned that's the case with Blue Cross-Shield. When it counts, you can't beat Blue Cross-Shield first.

For more information, call your local Blue Cross-Shield office or ask your doctor.

What Freedom Means to Me

MRS. CARL Y. REED
New Era, Oceana County

I looked up the word "freedom" in the dictionary. It was not held blameless as one might imagine such an important word. It was defined as "the state of being free;" the condition of not being controlled or hindered by others. The word "freedom" is used to describe various aspects of life, such as freedom of speech, freedom of religion, and personal freedom. It is a concept that is cherished by many people around the world and is often associated with the values of liberty and democracy. Freedom is a complex and multifaceted concept that has different meanings and applications in different contexts. However, at its core, freedom is about the ability to make choices and have control over one's own life. Freedom is what allows us to pursue our goals, express ourselves, and live our lives according to our values and beliefs. Freedom is essential for human dignity and well-being, and it is a fundamental human right that should be upheld and respected by all people. Freedom is a precious gift that we should cherish and protect, and it is a responsibility that we should uphold and pass on to the next generation. Freedom is the foundation of a healthy and vibrant society, and it is a beacon of hope for a better future.
Recommendations for Michigan Farm Bureau

Ideas to Improve Our Organization

Farm Bureau Program. We are proud of the fact that Farm Bureau policy is developed at the county level by discussion held in our 663 Community groups and by recommendations passed at the annual meetings of our 70 County Farm Bureaus.

Farmers themselves are best qualified to determine those policies and programs which will benefit farmers.

We urge every County Farm Bureau to weigh its program carefully to determine whether it is doing everything practical to serve the interests of farmers in the county. We implore all members to contribute their best thinking to the solutions for problems facing agriculture.

We encourage active participation in Community Farm Bureau, policy development and execution, membership campaigns, commodity activities, safety projects, public relations and commercial services to members.

We also support the Farm Bureau Women's and Farm Bureau Young People's programs in order that a sound, constructive program can be developed and effectively executed by each County Farm Bureau and the Michigan Farm Bureau.

Our Future

We can only hope that our State Farm Bureau and the National Farm Bureau will remain a dynamic organization of the future. We believe that the time has come to decide which direction has been the most effective for us to follow in the past and which should guide our future program.

We agree with the Board that the time has come for us to make far-reaching suggestions that the national office should consider as a delegate to the national meeting.

Notice of Annual Meeting

FARM BUREAU LIFE INSURANCE CO.

The usual meeting of the stockholders of Farm Bureau Life Insurance Company will be held at its office, 4820 North Grand Avenue, Chicago 30, Illinois, beginning at 12:00 P.M. on April 21. The following purposes:

1. To receive reports from officers and management.

2. To elect directors for a term of three years.

3. To vote on a resolution to amend Article V of the Articles of Incorporation and Article II of the By-laws of this corporation. For the purpose of increasing the number of directors to eleven, by electing one (1) director at large.

4. To consider other matters as may properly come before the meeting.

United Cooperatives' New Office at Alliance, Ohio

The United Cooperative Inc., young men and boys, has recently moved to a new office building at 322 Center Street, Alliance, Ohio. The building houses an office and storage space for the executive secretary of the United Cooperative Inc., and the new facilities are expected to greatly increase the efficiency of the office operations.

Farm Bureau members are associated with the cooperative in a number of ways. The Co-op maintains an office in the Farm Bureau building, and Farm Bureau members are eligible for membership in the cooperative. They can purchase co-op merchandise, and Farm Bureau members are eligible for special discounts on the purchase of co-op merchandise.

COMMUNE, AND BRING YOUR NEIGHBORS

Farmers Cooperative, Inc.
Farm Bureau's Community Work in U.P.

HUGO E. K.V.
U. P. Regional Representative
Several Farm Bureaus in the Upper Peninsula were active in the current legislative session. Mackinac-Luce Group of Chippewa County listened to a fire prevention talk on the danger of the open campfire, a car, a wagon, and five passengers being burned in a fire and to be broken down. For 90 years, the Farm Bureau has been fighting fires to prevent serious injury or death.

Reversible Group of Chippewa County listened to a public relations talk on the proper use of the campaign slogan "Who made your country great?" for use in all educational groups in public schools. The slogan may decline. Good public relations will continue to change. By 1970 the marketing techniques and practices will change. Many changes are in the making of Michigan's Farm Bureau to serve the farmers of the state of Michigan.

TROUBLES IN RETAIL SALE OF MILK

Farmers and dairymen are opposed to unfair trade practices and are fighting for a fair return in the sale of their products. Farm Bureau is working on the problems of maintaining a fair balance in the sale of milk.

Shall Michigan Have a State Income Tax?

Community Farm Bureau Discussion Topic for February

Background Material for Program in February by Our 1671 Community Farm Bureau Discussion Groups

DONALD D. KINSEY
Coordinator of Research and Education

The Michigan Legislature has passed a resolution asking the people for an amendment of the Constitution to provide for a State income tax. This is the first time in the history of the State that such a resolution has been passed by the Legislature.

The resolution is based on the principles that the State income tax is a better tax than other income taxes. It provides for a State income tax that would be collected on the income of all residents of the State, regardless of how much they earn.

The income tax would be levied on all income earned in the State, whether in business or from wages or salaries. It would be a progressive tax, with rates that are graduated according to income levels.

The income tax would be a stable source of revenue for the State, and it would help to reduce the burden on the State's other revenue sources. It would also help to reduce the State's dependence on local property taxes.

The income tax would be a better tax because it is easier to collect than other taxes. It would also be a fairer tax, because it would be levied on all income earned in the State.

The income tax would be a problem because it might be difficult to collect. However, the tax would be levied on all income earned in the State, and it would be collected from the taxpayer directly.

The income tax would be a better tax because it would be a stable source of revenue for the State. It would also help to reduce the burden on the State's other revenue sources.

Questions

1. What do you think the arguments for and against the resolution are? Are there any arguments that you think are particularly strong or weak?

2. What do you think the impact of a State income tax would be on the economy of Michigan?

3. What do you think the impact of a State income tax would be on the State's budget?

4. What do you think the impact of a State income tax would be on the State's ability to provide services to its citizens?

5. What do you think the impact of a State income tax would be on the State's ability to attract new businesses and residents?

6. What do you think the impact of a State income tax would be on the State's ability to pay off its debts?

7. What do you think the impact of a State income tax would be on the State's ability to provide for education?

8. What do you think the impact of a State income tax would be on the State's ability to provide for social services?

9. What do you think the impact of a State income tax would be on the State's ability to provide for public safety?

10. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

11. What do you think the impact of a State income tax would be on the State's ability to provide for the arts?

12. What do you think the impact of a State income tax would be on the State's ability to provide for the environment?

13. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

14. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

15. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

16. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

17. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

18. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

19. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

20. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

21. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

22. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

23. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

24. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

25. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

26. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

27. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

28. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

29. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?

30. What do you think the impact of a State income tax would be on the State's ability to provide for other public services?
