MFB 40th Annual Meeting at MSU No Robt. Williams Bast Lansing, Mich 0-11 % Robt. Williams

EDITORIAL

For Delegates to Consider

CLARK L. BRODY

The deliberations of the Resolutions Committee of 1959 mark 40 years of progress in formulating the policies of the Michigan Farm Bureau.

Our first Resolutions Committee was appointed by President Roland Morrill, February 5, 1920 at the third annual meeting. He designated five delegates to retire and prepare recommendations for presentation the following morning.

In previous meetings policy proposals came from the Board of Directors or were initiated by delegates on the floor of the convention.

In succeeding years we enlarged the Committee and asked it to meet a few days before the annual meeting. The delegates wanted the Committee's report presented during the opening session.

Some of the policies recommended and adopted in the 1920's concerned reapportionment of the Legislature, support of the St. Lawrence Seaway, a truth-in-fabrics law, a state income tax and 2 cents per gallon gasoline tax for highways, and the 18th Prohibition Amendment to the Constitution of the United States.

During the depression years of the early 1930's the Committee dealt with tax moratoriums, delayed farm mortgage foreclosures, and federal farm programs, such as the Agricultural Adjustment Administration, the Rural Electric Administration, the National Recovery Act and others.

Since 1935 the Committee's work and responsibilities have increased with the rapid growth of the Farm Bureau membership and the development of more active local programs.

This year the Resolutions Committee has been working since its first meeting August 18. It has held sessions on September 20, October 14 and is meeting three or more days the week of November 1.

Resolutions Subcommittee Considers Educational Problems

The Subcommittee on Educa-tion of the Michigan Farm Bu-reau Resolutions Committee is F. Johnson, Allen F. Rush, Edgar O. Diamond (chairman). Re-source people: Dr. Robert L. Hop-While the Education Subcom-

Women of Farm Bureau & Commodity Conferences Nov. 9; MFB Board Of Delegates Nov. 10 and 11

Members of Michigan Farm Bureau are invited to attend the 40th annual meeting at Michigan State University Monday, Tuesday and Wednesday, Nov. 9-10-11.

Nov. 9-Women of Farm Bureau will have their 15th annual meeting at the MSU Auditorium. Probably 1,200 or more representatives of County Farm Bureau Women's Committees will attend.

Nov. 9-Commodity Conferences for MFB State Dairy, Fruit & Vegetable, Livestock, and Poultry Committees will be held in the morning at the Union Memorial Building at MSU. State and national leaders will speak on matters of interest to these conferences.

In this article we shall present a summary of the programs for these meetings.

Michigan Farm Bureau's 40th annual meeting will bring together 727 delegates from 71 County Farm Bureaus. Each represents 100 families in Farm Bureau. Registration of delegates starts at 9 a.m. Tuesday, Nov. 10 at the Auditorium.

Business program for the two day session:

1-President's Address by Walter W. Wightman. 2-Report of the Secretary and Manager, Clarence E. Prentice.

3-Report of the State Resolutions Committee, which summarizes County Farm Bureau recommendations of policy and program to the state annual meeting.

4-Election of Directors.

5-Consideration of any recommendations from the Michigan Farm Bureau Board of Directors, and other new business.

Going to Do Now?

By STANLEY M. POWELL

Legislative Counsel for Michigan Farm Bureau

Michigan's financial crisis has gone from bad to worse. When the Supreme Court, by a 5 to 3 vote, declared the increase of the use tax rate from 3% to 4% unconstitutional, it meant that the Legislature had to start all over again right where they were last January, insofar as finding new revenue is concerned.

It had been anticipated that in- \$100,000,000.

Perry Greeley Holden was one and compare their yield. That ex-of America's pioneers in hybrid corn research and agricultural which smoored With the intervation of the prothat would just about permit a use tax rate. The new tax on ho-

distribution formula, and the other 1% would have been considered as use tax and all the formation and operation, as well revenue would have gone into as the practical aspects of best the State's general fund. tive organization.

You may recall that the Legislature had also passed two other revenue bills, H. 646 raising the business activities tax rate, and H. 649 making some increase in the rate on intangibles. Those bills contained interlocking provisions which provided John Kusnier... that they would not go into effect unless the use tax increase was enacted into law and became effective. Since part of the use tax increase bill still stands, the Clair Doty other two revenue measures are in full force and effect.

What Is A Truck?

A truck is a lot of things . . . food for your table, clothes for your back, heat for your home. A truck is medicine for a sick child, gasoline for an automobile carrying a traveling salesman, merchandise for the store on the corner . . . A truck is something you simply could not do without - housewife, manufacturer, farmer, retailer, teen-ager, or whoever you may be. Because everything you eat, wear, or use depends on trucks to get to you ... So, next time you see a truck on the road, remember - it's there because it's got a very important job to do - for you.

with a wheel off. EDITORIAL (Continued from Page 1)

> years and have talked with more than 25 resource authorities.

> They have interviewed officers and staff members in the State Government and at Michigan State University.

> Policies have been discussed with Michigan public relations organizations such as the Association for Rural Education, Michigan Education Association, Association of School Boards, the County Road Association, and the United Conservation Clubs.

> The Committee is studying and comparing the more than 800 resolutions from our 71 County Farm Bureaus.

> I can mention only samples of the multitude of issues submitted by the counties.

> They include legislative reapportionment, revision of the State Constitution, political annexation of rural schools, urban annexation of farm lands, government farm programs and many others of equal importance.

> Your Committee is struggling with the task of merging these expressions of Farm Bureau member interests into a coordinated statement of policies for the consideration of the delegates at the 40th annual meeting November 10 and 11.

It is engaged in weaving the great variety of common and sectional interests of our 72,361 members into a platform for united action. Committee members coming directly from their participation in community activities insures recommendation of a program to the delegates that is truly representative of Farm Bureau member interests.

"I figure the concrete pavement in my barnyard paid for itself in two years!"

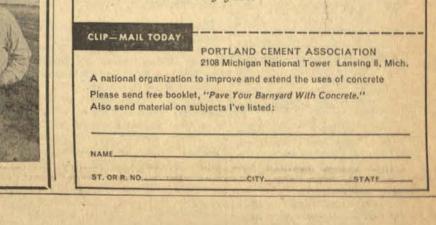

Says JOE NEIS, Juneau, Wisconsin

Joe Neis milks 44 cows, with a per cow D.H.I.A. butterfat rating of 458 lbs. Four cows are producing over 500 lbs. Mr. Neis is well known in Dodge County, and very active in supervision of 4-H Club groups.

A LOT of things added up to real savings when I put in concrete. Healthier cows, better milkand more of it. No foot rot or stone cripples. Cows get plenty of exercise even in the worst weather. And I won't be hauling any more gravel to fill up holes and have it end up scattered all over the farm."

Everything stays cleaner, more sanitary, around a concrete barnyard. Mastitis, foot rot and other mud-borne diseases have no place to breed. Cows stay healthy, vet bills go down. Good reasons why more top dairymen are paving barnyards with concrete every year.

Not likely! Fact is we've never heard of a farmer growing a "money tree"! But we do know of thousands of farmers who are solving all their farm money needs at their local Production Credit Association!

And, there are many good reasons for this-including the fact that you need only one PCA loan to finance your entire farm operation. What's more, a PCA loan is a reasonable-cost loan!

So, if you can't grow a "money tree" this season, drop by your friendly PCA office for a season's worth of sound financial planning!

Associations of Michigan

Credit life insurance available for your protection. For further information call your local CA-46 offices in Michigan.

The carrying out of policies as approved by the delegates is assured by the Board of Directors meeting periodically throughout the year.

The practical application of the program in state and national circles is provided by the month-tomonth and day-to-day contacts of President Wightman, Secretary-Manager Clarence Prentice, Stanley Powell and Dan Reed of the Farm Bureau staff.

Your Resolutions Committee of 1959 is preparing another chapter in nearly 40 years of progress in developing policies through the Michigan Farm Bureau. The service of the Resolutions Committee members does not end with the annual Farm Bureau meetings. For years after the final gavel falls Resolutions Committee alumni serve as ambassadors of Farm Bureau understanding in their home communities.

The Committee appointed by President Walter Wightman to serve this year is:

much of the earth's surface in cation. Soil should be neutral to slightly acid.

STAR MAGNOLIA. (Magnolia GOLDENRAIN TREE. (Koelstellata) Grows 8 - 15 feet. This small tree is similar to the saucer magnolia but has attractive starplants to bloom in the spring. It when better known, will make a like white flowers, somewhat often has several stems ascending welcome addition to the plants double, with many narrow petals. Mecosta County Women were from the main trunk a few inch- for the home garden. In July the Its roundish shape and twig-like tree is covered with clusters of branches covered with light gray bark makes this a very ornamental specimen at all seasons.

It does well when planted in a fairly rich, slighty acid soil in a sunny location, but where the plant is protected from early spring winds, which may damage the blossoms.

FLOWERING CRAB-APPLES. (Malus) (Species and varieties.) Crab-apples are prized for their floral display in Spring and their attractive fruits in fall and winter.

There are many splendid crabapples available for planting in the home grounds. The home gardener should consult his nurseryman regarding the height and size of tree, color of flowers, time of flowering, color and size of fruit.

Three choice crab-apples for the small home garden are:

ARNOLD CRAB - APPLE Grows 10 - 18 feet. Has pink This floral display is followed flowers and yellowish fruit.

RED JADE CRAB - APPLE. Grows 10 - 20 feet. Has pinkish flowers, small bright red cherry-The plant has interesting bark like fruits. The pendulous branches and bright fruits make ter. It is of compact growth and this plant an outstanding weepsomewhat flat-topped in shape. ing crab-apple.

SARGENT'S CRAB - APPLE. this smart jumper in a day. soil and at East Lansing appears Grows 6 - 8 feet. This is an ideal Thrifty-to-sew in tweed or flanfree from insect pests and diseases. The U.S. Supreme Court & The Constitution

Community Farm Bureau Discussion Topic for November

Background Material for Program in November by Our 1620 Community Farm Bureau Discussion Groups

DONALD D. KINSEY Coordinator of Education and Research

Farm Bureau delegates in convention last December passed the following resolution:

"The framers of our Constitution never intended that there should be vested in the Supreme Court of the United States power to legislate, power to distort the plain language of the Constitution, or power to interfere with matters of purely state or local concern where the Constitutional privileges and immunities of citizens are in no way abridged.

"We are seriously concerned over the present tendency of the Supreme Court to legislate, the acquiescence of the Executive Branch in such decisions, and the tendency of Congress to yield certain of its legislative powers to the Supreme Court. These attitudes destroy the system of checks and balances which is a fundamental concept of the Constitution.

"We therefore recommend: (1) That Congress prescribe proper limitations upon the appellate jurisdiction of the Supreme Court. (2) That Congress utilizes its powers to enact either corrective or conforming legislation in those fields where the Supreme Court has invaded the legislative area."

This article shall outline some of the background developments which promoted the delegates to pass such a resolution.

Public Revolt Grows

preme Court during the past three years have aroused the before. state governments and courts, as well as many citizens to violent protest. Why are these protests and rebellions occurring? What decisions have touched them off? What do they mean to America's future?
