By order of the State Grange at its late session, Masters no longer re-ceived copy of the late session, and for the same reason, will receive an extra copy free. Sample numbers furnished on application.

ORIGINAL ODE.

BY REV. GEO. DOTFIELD.

Song at the opening of the House of Representatives, January 1st, 1879. 

In a former paper we promised a resume, of the Personnel of the State Grange; there briefly glanced at our Worthy Master; and his energetic Secretary, very important factors in any organization. The next in importance is the Executive Committee. They are of themselves the State Grange, in the internal of its sessions. They are to us what the bone or muscle is to the body; the foundation is to the building; its organic principles; and its general and material, so essential and judicious foundation, it was difficult to find in any organization. The Michigan Grange may justly feel elated, with its noble executives, one of them is the possessive of a child; yet he is one of Michigan's stars. It has become a household word, among the farmers of the State. Whate'er is good, or philanthropic in the state possesses most stimulating qualities for its advancement.

EXECUTIVE COMMITTEE.

J. T. COBB, Ex. Officio.

W. M. SATTERLEE.

J. C. CHADWICK.
C. L. Whitney, \_\_\_\_, Muskegon, February 21st.

AMONG THE I.ABORS.

The 9th inst. took us to Lowell, when Bro. Hancome met us and took us over the hills to the new Hall at Sevan's Mills. A large audience were very attentive to the address, and seemed to enjoy it. This Grange appreciates the presence of the President and Officers, and one for the Secretary, and the singing and the organ accompaniment were all excellent. This Grange gave me a hearty welcome to their new home.

An early morning ride, on the morning of the 10th inst., with Brother Walker, took us to Grand Rapids, where we had the pleasure of meeting Bro. Rice, C. L. Whitney and Samuel Langdon, on the way from the meeting of Supervisors of which the former is the able chairman.

Two o'clock p. m. found us at Rutland Grange, Berrien Co., Bro. A. Leuther, taking us from Irving Station. Public installation and address followed, of which a good attendance was given, and the dedication of the hall. Rutland Grange has a singing little shoulder now and in the hands of Bro. Rice, is growing many. This Grange has a large audience, and in the hands of Bro. Rice, is growing.

We regretted we could not spend more time there, but friends from Berrien Co. Grange took us away and placed us in the hands of the delicious hospitality of Bro. Robert and wife, the latter a playmate and schoolmate of ours sometimes. Of course, we talked for, we had many others to see, and after one service there, the next morning, we thought that a safe place, and took the boat there. It is one of the best places in the world, that know a Grange when one sees one.

The fire was controlled, and after a visit to the Berrien Co. Grange, returned to the factory's report from the day's labor. The 3d, was colder than the 2d, in spite of the fire during the whole day. There being no time, off the track, cancelled, etc., were the reports from the mill officials. We found the residence of Bro. Robert Whitney, a gentleman, and one for the Master Woodman of the class, which took a short time to settle the place, and made the best of it for us. We found the week, making regular trips between Sec. Cobb's office and the place where the tables were safely set in, spite of storm and a discouraging thermometer.

Dinner hour of Wednesday, the 4th inst, found us at Wayland, Allegan Co. Good accommodation, and a large audience. Bro. J. W. Brown, of Boston Hall, of Spring Lake, where milk and cheese are made. We took the opportunity of seeing Miss Sister Hall and her lady guests, the evening after dinner.

At Wayland was by installation of officials for the ensuing year. The feast was labor, for they told us, "It takes two to dance," and we understood all the several roads, turkeys, and the rule was in practice. Our lodges are the same, place, same old, and worthy Master Woodman was more welcome, and the same old place, made the best of it for us. We found the week, making regular trips between Sec. Cobb's office and the place where the tables were safely set in, spite of storm and a discouraging thermometer.

The day meetings will be public, and optional with the Granges in the evening.

On our way home we stopped at Alton, 6:34. A large audience met us at the new hall, which was built by this Grange, and gave an address. The address was ably written up in the last issue of the New-York Visitor, and one for the benefit of the Order. We took the opportunity of seeing Miss Sister Hall and her lady guests, the evening after dinner.

The lecturer at this meeting was a man of few words, but a man of much talent and ability. He spoke on the subject of railroads, and gave some highly interesting facts and figures, and showed the necessity of the Grange and the home for the promotion of the interests of Agriculture, and the prevention of the evils under which we have long been laboring.

The position assigned the department of Agriculture and Pomology in the Capitol was discussed and the question of conducting fairs—securing the best results therefrom were ably discussed and decided upon by resolutions.

The officers for the ensuing year are C. H. Richmond, Ann Arbor, Pres't; C. L. Whitney, Muskegon, Vice-President; Frank Little, Kalamazoo, Secretary and Treasurer, and D. D. Ains, Centerville, M. R. Hine, Kent County, and Ira H. Draper, Secretary, and the Executive Committee with the President and Secretary.

The association closed its labors Friday, February 14th, 1867, at 6 o'clock p. m. The address made by Bro. Crumbeek, of Berrien Co. Grange, was sustained by the majority present, and the following resolutions were decided upon by the votes cast.

The association's functions for the ensuing year are as follows:

1. To promote the interests of Agriculture, and correct the errors and remove the ills under which we have long been laboring.

2. To give some idea of what we have to contend with, I quote from the New-York Visitor, which states: 'There are some people who think the Grange had a mission, but has done its work. Another class both within and without the gate never thought the Grange would do anything, and never expected it to do anything of any consequence for their blindfolds—say, if they could have imagined such a downright hypocrisy—either too ignorant to comprehend, or too selfish to be honest.

The latter class who never saw any good in their Order—could not see, if they tried, the mighty works it has done and the good it still is in store for us to do. I have no fear that the Grange will do anything to destroy the old Viscarion, for they never, or read anything so much above their comprehension. But thanks to Him, who gave us the Grange, there are many, and the number growing by the day, to see, and wisdom to comprehend, and with their works by their shows their hope. Hope still lingers, and their motto is "Onward and Upward.""
J. T. Cobb, Esq.—Dear Sir:

Your District Grange is working finely; there were about 105 members at our annual meeting, and we are... the farmers will stand together there... There is not a doubt but there is a good time coming for them by and by.

Worthy Sec'y Cobb:

This Grange was organized Sept. 1, 1876, by Bro. C. L. Whitney, since which it has dragged along with little... to accomplish that for which we are laboring.

At the annual meeting of Oakland Pomona Grange, No. 5, P. of H., C. K. Carpenter, of Orion, was elected Master; A. J. Crosby, Jr., Pontiac, Lecturer, and J. Jackson, of Birmingham, Secretary.

A special meeting of Oakland Pomona Grange, will be held with the White Lake Grange on Wednesday, Feb. 12, 1879, commencing at 10 o'clock a.m. Subordinate Granges are requested to send delegates. All fourth degree members are invited.

GEO. A. PETERS, Sec.

Mrs. Richard Nichols.

So long, Mich., Jan. 27, 1879.

$1.00

E. Foster.

CHLOE.

THE GRANGE VISITOR.

January 13th, 1879.

Worthy Secretary:

Of course, we who are living on plain, simply-cooked, but nourishing food. Variety is... are painted red, blue, and white, and... a wet cloth on her throat during sleep, cover-ed by a dry one, perfected a cure of all sore throat.

Children who live habitually on plain fare, show evil effects from rich food much more quickly than... weaker on account of plain living, but I think it is because they have a more correct or healthy tone.—

On receiving... We are now nearing the fifth anniversary when a number of us met to take upon ourselves the mysterious duty of forming... they were not advancing as fast as we ought; and if no more progress was to be made in the future, we might as well yield up the Charter, and go back once more a disunited family.

Now, dear sisters, should we be willing to give up because we advance so slowly, or become discouraged because we cannot mount to the summit at once?

The sea in song shall roll along Beneath the splendor of your smiles. The beautiful and good shall reign, And sinless Eden bloom again.

Oh, mothers of a race unborn, 'Tis yours to speak those grand decrees That herald in the promised morn, The waiting world's Hesperides.

Shall our Daughters be Admitted to the Agricultural College?

February 18th, 1879.

Worthy Secretary:

Sisters of the Vistor.

In childhood's hour, beside her chair She calls each fragile form; In childhood's hour, beside her chair She calls each fragile form.

In childhood's hour, beside her chair She calls each fragile form; In childhood's hour, beside her chair She calls each fragile form.

She clasps our tiny hands in prayer, Safe sheltered from the storm. She clasps our tiny hands in prayer, Safe sheltered from the storm.

Dears, I wish to say that I am writing to you to renew the subscription of the Dec. 16th, I found "subscription expired," and now write to renew the same. Home Grange is still thriving, and strong in the faith. The late stormy weather has delayed our Installation, but we look for a change sometime.

Some of our dear members are too strongly commend the many good things I find in the Vistor, that you fail to send the same. Alas, I would not be a year without hearing from you. I am sure I would tell us something that would be a help. For one thing I am sorry, that such generous and whole-souled men as Bro. M should chew the filthy weed.

Some of our dear members are too strongly commend the many good things I find in the Vistor, that you fail to send the same. Alas, I would not be a year without hearing from you. I am sure I would tell us something that would be a help. For one thing I am sorry, that such generous and whole-souled men as Bro. M should chew the filthy weed.

The sea in song shall roll along Beneath the splendor of your smiles. The beautiful and good shall reign, And sinless Eden bloom again.

There are many good reasons for living healthy, cleanly-cooked, but nourishing food. Variety is necessary; that is, having a mingling of different grains, vegetables, fruits and meat. There is not a few kind at all if the meal is if the family are in their prime, the larger the family, as a... the same size. A ragged cloud—a frailest tree A little village—a green grove—A little grove—A grove.

They are as tall as the trees, and as high and splendid as the grove. They are as tall as the trees, and as high and splendid as the grove. They are as tall as the trees, and as high and splendid as the grove.

If we are as tall as the trees, and as high and splendid as the grove, we will be able to see the future, and to know what the future holds for us. If we are as tall as the trees, and as high and splendid as the grove, we will be able to see the future, and to know what the future holds for us.

In childhood's hour, beside her chair She calls each fragile form; In childhood's hour, beside her chair She calls each fragile form.

In childhood's hour, beside her chair She calls each fragile form; In childhood's hour, beside her chair She calls each fragile form.

The sea in song shall roll along Beneath the splendor of your smiles. The beautiful and good shall reign, And sinless Eden bloom again.

Oh, mothers of a race unborn, 'Tis yours to speak those grand decrees That herald in the promised morn, The waiting world's Hesperides.
PETITIONING THE LEGISLATURE.

We were at Lansing last week, two daughters of the Superintendent of the "Subordinates of the Poor and Union Interest.

Our duty of Secretary of that association required nearly all our time, we did not see as much of the Legislative when off duty, or its members when off duty, as we should have liked. We found our friend, Gov. Sessions quite at his ease and having more leisure than in the early days of the session. There seems to be great pressure of business, and from what we saw and heard, we concluded that the Legislature were rather wearying the people by their proceedings, far in advance of the time at which they were required.

If I remember right it seems of the utmost importance that we send forward as soon as possible those petitions which have been distributed over the State and some of which are of vital interest to the people, or to their pockets.

If the Legislature are as ready to curtail the time that the people have for their business as we should like to have them, it is important that we urge the presentation of these requests, it is safe to say that we shall have some legislation for the benefit of the people before the close of the session.

We should be glad if those who have innocently taken advantage of the petitions of our friends are tardy, and have not renewed.

THE VISITOR.

Very many Secretaries and others are sending us more subscribers for the Visian than last year, but in many cases our funds are scanty, and have not renewed.

Masters and all others who take an interest in the welfare of the Grange should remember the general tendency to delay and put off this matter, and will be found in every province that we if we hold our own, some one must do a little voluntary work. To help our cause, we depend entirely on our friends for this necessary aid. Any one desiring sample copies will be supplied on application.

Few men will refuse to sign any of these petitions. And when you have a good strong list of names, send it forward at once to your members in the House or Senate, and we think your labor will not be wholly lost.

A MATTER OF PRINCIPLE.

We hear a bad report about the Members of the Grand Lodge of Michigan, having ordered (or had ordered for his own use by a local Lodge) some car load of plasters from a Grand Rapids firm. We should express surprise at this, but for the fact that always has, and always will, sacrifice and sell their principles for a consideration. It is believed by many that every man has his price, but we never believed it on the human race, and we hope we never shall.

But it is humiliating to think that these men, who were once the admiration of their fellows as to reach the Master's chair by their votes, should now disregard the principles, his self-imposed, and the respect of his fellows for a few shillings, the difference between which cost of a car load of plaster would have cost him bought of Day & Taylor and what it has cost him bought through some dealer an enemy of the Order.

We again call attention to the fact that there are many Grange Secretaries who have neglected to report to this office the names of Master and Secretary elected for 1879. We cannot make up a list until we have them.

The importance of any subject or question may depend upon the number, or proportion of the whole people interested, or to whose interest the subject is more directly involved.

We appeal to our correspondents for consideraton on this occasion, therefore, interests of the country, and to some extent, under a general law of dependence, must affect other classes of society.

If these present humble and principle men, in order to make a show of solicitude for the funds of their Order, they said: "The ultimate object of this organization is, for mutual instruction and protection, to lighten labor by diffusing a knowledge of the real "May the "Gate" allage, the Order of Patrons of Husbandry was founded for wise and benevolent purposes, two per cent, of the population of the country are eligible to membership in it, all classes of society, does, however, have a more interest in it, people have always have, and always will, sacrifice and sell their principles for a consideration. It is believed by many that every man has his price, but we never believed it on the human race, and we hope we never shall.

2. We heartily endorse the motto, "In essentials, unity; in non-essentials, liberty; in all things, charity."

This is the end of the document.
has excited a constant influence for good. No one will deny that such a
fluence, coming from such a source, will in time produce results which
will elevate to a higher plane the agriculturist's position.

We have made reference to a few only of the many examples which could be quoted from the letters and corre-
dence in the good results that can only be produced through the
influence of the Order.

The Grange presents to the vast body of farmers in this country its
most powerful and the only truly permanent organization. This is
the only society that can melt down the walls of class that prevent
us from understanding each other. The letters in its columns from
brothers and sisters scattered all over our beautiful J'eninsula, make
me feel as though the year 1879 has dawned upon us. The Grange
has exerted a constant influence for good. No one will deny that
such influence, going out from any society, is the best means of
proving the sincerity of its professions and its ability to sustain its
claims.

In the Grange there is a man who has shown to the outside farmer,
that its social relations are friendly, its business relations profitable,
and its civil relations progressive. In this the Grange has shown
"to the outside farmer," that its social relations are friendly, its
business relations profitable, and its civil relations progressive.

The Grange presents to the vast body of farmers of this country,
the first and only compact organization, which in its efforts to
extend its good influence, is not hampered by the mischievous
spirits that are attempting to destroy the Order. The Grange has
tried the experiment of combining all that is best in the modern
social and political thought of the day, and it has proven the sin-
cerity of its professions and its ability to cope with, and overcome
many existing evils.

In our correspondent's last letter, he says, "the St. Joseph County
Pomona Grange, No. 4, will hold its next meeting on the 1st
Thursday of March, at Grange hall in Centerville. Meeting commencing
at 10 o'clock. All Patrons are cordially invited to attend. W. G. LELAN,
Sec'y."

The St. Joseph County Pomona Grange, No. 4, will hold its next
meeting on the 1st Thursday of March, at Grange hall in Centerville.
Meeting commencing at 10 o'clock. All Patrons are cordially invited
to attend. W. G. LELAN, Sec'y.

Your sincerely,
WM. L. MaC.

SEWSTED BRANCH CO., MONT.
JANUARY 15TH, 1879.

Brother J. T. Cobb,

I am in receipt of your letter of the 15th inst., and I have been
very much interested to learn of your good work in the cause of the
Sezitement of agriculture. I understand that the Pomona Grange.
under the direction of Mr. J. T. Cobb, is being worked up to a
higher plane of usefulness.

I am so well satisfied with the work that I have had so little
success in getting subscribers for the Grange Visitor, that I believe that
The Grange should have a very good influence in the cause of the
Subordinate Granges. The Master of a Subordinate Grange who
has not the welfare of the Organization at heart, but who is
merely seeking the satisfaction of his own vanity, cannot
ought not have a copy free, especially if he is not willing to
clay out the necessary expense for its publication.

The Grange should be in the hands of those who are interested
in the good of their fellow-countrymen, and who are willing to
subscribe it. The Grange should be in the hands of those who are
interested in the good of their fellow-countrymen, and who are
willing to subscribe for it.

I wish the Grange a prosperous future, and I am anxious to
learn of its progress.

Yours, Fraternally,
John F. Byers.

Advising to Shippers—Roll Butter.

Office of Business Agent of the B. H. & O.

TO THOSE WHO SHIP BOOTS, BOTTLES, BARRELS, or
HALF-HALVES.

Take note of the following article.

TO SHIPPERS—ROLL BUTTER.

To those shipping roll butter, new tubs, or barrels, or half-
halves, make good packages. As the butter is not made on
use, never use it, as it will spoil butter in the barrel. It
imparts a very unpleasant flavor to it. Whatever pack-
ages are made for roll butter, you should put a piece of
white muslin, having been soaked in spirits of wine, or
rolls of uniform color and size at near the top of the
barrel. The cover should be of white muslin, and
then if you want your butter to be in good order, you
must seal it. This will prevent the oil from getting into
the butter, whether you send it in open barrels or tubs
for special orders, or will pack it in regular packages.

To insure the best prices, mark package
183 Water St., Chicago, Ill.

Stencils sent on application.

J. S. Jones, 111th, 1879.

Bro. J. T. O. Cobb,

I find enclosed five dollars for the Grange.

We are bound to furnish the Grangers to correspondents,
who have given us a large share of their business,
and who have given us a large share of their business.
We have paid for it out of the Grange funds, and we
have given you a large share of our business.

The Secretary receives a copy free for ten names
and the cash, ($5). Will send them as many names
as you can get for your Granges.

of its vast accumulated profits is able to and doubtless will employ able representatives to protect its... certain. It now controls it to the extent that it pays... to job and its power is such that... them has meaning to pay for it, and... and their superiors are able to themselves shift out of the trade. The plan is that the Michigan rules... of the law enables them to exercise this power in all the State to pay very much more... and for an article so safe, or with no... publishing, as they do, that this monopoly owns... for it, and 110 other dealers dare sell to them under pain of being themselves shut out of the trade.

Floral Apostles 'Weep with' Expectation of paying that rate of interest, I accepted his offer, and soon found that... 19th century to the present day, he has that he owes to paying personal property, and if the question is one... opportunities and are able to do so... large, and who raised hay... they are often compelled to pawn through strained... that is worth doing.

Management of Sheep.

In the Bulletin of May 30th, 1878, we are told that the Missourian, entitled, 'What Would Shall We Grow,' Sheep-breeds and flock-keepers need a key to unlock the gold mine of sheep... and 110 other dealers dare sell to them under pain of being themselves shut out of the trade.

THE GRANGE VISITOR.

Communications.

The other Side of the Interest Question.

J. T. Cobb, Editor GRANGE VISITOR:

In the Bulletin of late that the interest question is receiving considerable attention, and as there are usually two sides to a question, so I think there is to this, and I propose to say a few words on the impartial side, well knowing that I shall call down on my head the anathemas of many of your readers.

The Lecturer's appointments will be: First, the Office of the Editor, Feb. 14 and 15, and at Lansing, Feb. 18, 19 and 20. In New York, Feb. 27, 28, 29, and March 1st and 2nd. Write me there as from there I can meet other Grangers. C. L. WHITNEY, Lecturer.

Homes Decorations.

"We aim to encourage the planting of fruits and flowers, by which to enhance the value and increase the domestic happiness of our homes, and... to practice such noble precepts and beautify our surroundings, the childhood teachers of our children."

Plant flowers—beautify your home. "Their study and culture invariably elevate, never degrade." They "supply to my fancy... 21st and 22d. Write me there as from there I can meet other Grangers. Write soon, if I am wanted.

The School Tax and Books, "The Taxing of Mortgages," "The Female Department in the Agricultural College," "The Re-form School for Girls," "Agricultural and Mechanical College," "The Van Buren County Grange will hold its next regular meeting at the Hall of Moscow Grange, March 2nd, at 8 o'clock P.M." All 4th degree members in the vicinity are cordially invited to attend, and take in the exercises, part of the day.

Meetings of County Granges.

NOTICE OF POSTMEETING—Hiil-land County Grange will meet at the Hall of the 3rd degree, at 8 o'clock P.M., on February 26th, at Rochester village, on Thursday, Feb. 6th, 1878. All 4th degree members in the vicinity are cordially invited to attend, and take in the exercises, part of the day.

G. M. GARDNER, Sec'y.

Litchfield, Jan. 13, 1878.

Case County Grange No. 20, P. H. will hold a meeting at Cassopolis, Wednesday, Feb. 15th, 1879, at 10 A.M.

W. E. WILLIAMS, Sec'y.

BANGOR, Jan. 16th, 1879.

The Van Buren County Grange will hold its next regular meeting at the Hall of Moscow Grange, March 2nd, at 8 o'clock P.M. All 4th degree members in the vicinity are cordially invited to attend, and take in the exercises, part of the day.

F. GOO, Sec'y.

The Graphic of Thursday has a telling presentation of Vanderbuilt's evasion of the new income tax. "The Granges prop-erly amount to over one million and a half per Millionaire," a figure with Wm. H. Vanderbilt's, "has the granges hogs born out at the toe, and having in one pocket the new income tax, and in the other hand, with the investigation "Deed for 30th acre real estate, $600." From one hand, extending a golden tool, and from the other, building, New York Central and Hudson River Line, elevators and warehouses, indicating that the high cost of living and the downfall of the other hand he holds the reproduced power of his personal property, including shares and stocks of the three great corporations. My devotion is all my taxable property," Mr. Vanderbilt owes more personal property, in New York Central and Hudson River Line, Canal and Western Union shares, than any man in America. He has vast fortune invested in pictures and fast horses, and is on the point of making a fortune in the New York Central and Hudson River Line, to accumulate his household possessions. His railway operators tell him that he has no personal property, and if the question is one of the public, that will put an inquisitorial inspection of his property. Mr. Vanderbilt Art, and "THE GRAPH>>. The Graphic merits public gratitude for exposing the game in a way that will bring people to their senses.——Kalama-zoo Telegraph.

Our Old Friend, the Apple.

The genuine apple-eater, comforts himself with an apple, in their season, as others with a pipe or cigar. When he has nothing else to eat, he resorts to the walk, he arms himself with an apple, and... the lane he comes to the railway company. People. Apple-bashers are the badges of the 19th century to the present day, he has that he owes to paying personal property, and if the question is one... opportunities and are able to do so... large, and who raised hay... they are often compelled to pawn through strained... that is worth doing.

Sheep, like all other stock, during the summer season grow better on plenty of pasture than barnyard feeding, and fine grass is the best food for them. Free from woods, and supplied with fresh water, they require to be kept in pastures, where the sheep may have as many as 10 to 15 ewes, to the barnyard. It is not only unpacked, but barnyard sheep, hogs, cattle and hogs in a lot together, if it be kept up to the mark. The property is worth more than all the old debts.

The Hillsdale Agricultural Society holds property valued at $180,000, and is entirely out of debt.

JONES, of Brighton, May 30, 1878, bought and returned.

DEBORAH, N. Y.

My scales give entire satisfaction. I have several, and recommend them. They are not only correct in weighing large or small quantities, but perfectly accurate.

Yours, Frankly.

J. W. WARD.

TO EXCHANGE,

This subscriber wishes to exchange a number for a sign of Horse or Yoke of Oxen.

Call on or address E. J. YOUNG, Postmaster, Newspapers Co., Mich.

German Horse and Cow Powder. It should be the aim of every farmer to make his horses and cows strong and healthy. It is as well adapted for this purpose as any other horse and cow powder on the market. The only concern that is known to use powder, that is sold by the pound, is sold by the gallon, and is sold by the ton. The subscriber wishes to exchange Lumber for a pair of Horse or yoke of Oxen. Call on or address A. E. UPTON.

We will send THE HUSBANDMAN and THE ORANGE VISITOR for one year, for 80. 00, and in Oils of five or more, $1.00 each.

THE GRANGE VISITOR.
