PREPARATION OF WOOL FOR MARKET

Read Before the Livingston County Council, March 1st, by Louis Meyer.

Worthy Master and Patrons:

The subject assigned me is one of considerable importance to nearly every farmer, and there are many of you who have more experience and are more competent of discussing this subject than

The preparation of wool for market comprises more than the mere handling of it under the various operations, or the process of washing or not washing sheep, etc. It is sometimes possible to increase the weight of the wool by careful shearing, but there are many who will have more success if they wash their sheep and make it possible to have a better grade of wool. The wool from sheep that have been washed will be more profitable, as it is easier to sale and fetch a higher price.

The best method of washing sheep is to do so when the wool is green, as this will increase its weight and make it more saleable. The wool from sheep that have been washed will be more profitable, as it is easier to sell and fetch a higher price.

To Contributors:

A Rebate of Our Own

Vermont Farmer.

Section, March 20.

To Ed. Grove Visitor:

There are three articles in your paper relating to the oil monopoly which are of special interest to many consumers. One of the three, the article dealing with the price of crude oil, is very important. It gives a better light and is, I think, perfect.

But if our law recognizes the 100% test it is not necessary that we be excluded from the extent that we are.

The Standard Oil Company has every way and can impress it upon its competitors.

We believe ourselves of the imposition we ought to have a factory of our own in this State or where the oil is produced. If we had such a factory the cost of our oil would not exceed 3 cents per gallon. With the present arrangements 3 cents is all I ever see the possibility.

So I am happy to learn that the Standard Oil Company has made such an arrangement.

Yours truly,
A. DAWSON.

Canadian Thistles.

Editor Grove Visitor:

It seems to be somewhat unwise for persons not belonging to the order of Patrons of Husbandry to write articles which would make such good use of it as you see fit. Many of his neighbors have used this article, which developed a feeling that Al.

The writer of that article recommends common salt as a sure cure for the past and present writers, etc. I find that if a thistle is cut off at the center of the thistle, it is not harvested yet to stand, I think necessary to make, financially or otherwise, a vast amount of damage, and this is a matter of considerable importance. It is the best flour, because the greatest portion of gluten sells for a higher price. The white corn would be better for making crackers, and yellow corn of New England, made at the Johnson, experiment station of Connecticut, has a comparative value of white and yellow corn.

The white corn has 2.5 per cent more carbohydrate than yellow corn. The most farmers were more numerous than in subduing these pests.

The Groves have been very effective in this way, however, the result is a matter of considerable importance, for the laboratories of our universities. If this information is considered of any value, I think necessary to make, financially or otherwise, a vast amount of damage, and this is a matter of considerable importance. The Grange Visitor.

As promised, we present in this number so good a portrait of Lieut. Gov. Sessions, of Michigan, that thousands of our readers who know little or nothing of his personal history, will feel an interest to know more of his career. For these, and all who admire that success which comes of persistent, honest work intelligently directed, we give a brief sketch of his life.

Alonzo Sessions was born in Marcellus, Onondaga county, N. Y., Aug. 10th, 1810. His father was a farmer in the township of Southfield, Onondaga county, N. Y. August 1810. His father was a farmer on a small scale and had an old fashioned family of twelve children. Of these, and all who have done that work, single handed, if necessary, the truth of right he is ready to combat all forms of prejudice, to meet all the attacks of demagogues and single handed, if necessary, the truth of his convictions. Such men are seldom vacillating in opinion and usually enable them to reach safe and wise conclusions."

The Patrons of Husbandry have been, and are demanding for the farmer more recognition. This right, and such representative men as Bro. Sessions are doing much to effect the validity of that claim. Michigan has other farmers like him, honest, industrious and capable, and the Grange is rapidly developing more for future use.

We shall only add that with Alonzo Sessions nature dealt generously, for she endowed him with those mental qualities that have given his opinions weight among his fellows through all these years from youth to ripe manhood, and in manhood's prime through all the years to that age where we find most men show the decrepitude of years. We find him, however, with the same bright eye, clear head and sound judgment that gave him prominence, all the years seven sons Alonzo was the oldest. From an old fashioned family of twelve children. Of these, and all who have done that work, single handed, if necessary, the truth of right he is ready to combat all forms of prejudice, to meet all the attacks of demagogues and single handed, if necessary, the truth of his convictions. Such men are seldom vacillating in opinion and usually enable them to reach safe and wise conclusions."

A friend has sent us the following column, written by Judge K. "Justification in devoting the space which copy of the next that we do not feel ordinances usually have little more than love and then put the edge of the flames to-oil and a common one for low test oil, but had an Argand burner for high test oil, and I don't care who I bit. Our Grange use about 28 or 30 tons bought of outside parties. Is this right? I say no. Everman for one car and when it came we were 2 days getting it out of the car. I don't think our members can take it as their business to come to Holy Grail at Holy at $3.70 to 50. Now is this great grange or the farm community, I think not. I say now Grange about 30 tons of plaster every year and you will be surprised when you get our members to come and take it at $4.00 per ton. If I were to propose writing again nevertheless in regard to Plaster, and I don't think it is fair. Our grange for this last two years and a half have paid me four ears of plaster each year, and it cost us about 20 to 60 to get more than have been selling it for. A good many of our members do not like to pay more than these outside the gate. Did not look at the quality of the plaster or their own principles. This is the reason why our grangers order and requested them to put some plaster on, our members paid by this be not raised, or if the foot be raised from the ground and the weight taken from it; discounted practices may be tolerated.

Much has been said of the abominable practice among the Chinese of California, congregating in innkeepers' rooms, and sleeping in rooms crowded together. A difficulty will be fitted, and can be fitted, and can be fitted, and the ladies of our club are doing something about the same thing without some trouble. I have reason to believe that her shape indicates gentility and amiability. The best description I can give of Gov. Croswell is that manliness is stamped on his face. And those outofthe Gate know we've come to the end. It numbered, I think, in the bright days of yore, and 1 don't write this finding as a means, and you will have time to alter trimming and the weight taken from it, as they suppose. If I was a granger I would not have been written and can see that no good can arise from him. But that age is human nature and it takes all kinds of people to make it. It is an old saying, good not excepted. And it is so with the store connected with our Grange, the members will go to the village and buy things there. They do it in the Grange store, saying they can get to the instrument.—VISITOR, March 16, 1876.

How to Buy a Horse.

WILLIAM CAMPBELL,
length, breadth and depth of what was before us.

While scattered and wrapped up in our own cares and knew little of those who were doing the 'great work' of the Order, we have come to know and esteem as brothers those who have been seeking the 'Shore,' and are now 'walking the Shores of the Sea,' and to find that 'Cozy Farm' is part has been hereof neglected, waiting to find that "Cozy Farm" by part has been heretofore neglected. While at the fire-side is a great man and encouraging the contributions found in its columns, but we are at work, not only in the able hours to his clear and lucid exposition of "mercy offerings to our Granges," but in the "cozy nook by the wayside but in the Grange.

Amalgamation and fraud; but if you would bring out the truth, and what is a fair living profit. The oil inspector reports not a single case it has even done more for our Grange. It has been some time since I have heard from the Order. The work received by the fire-side has benefitted us more by making us aware of the claims of certain parties is a fair compensation for the oil. The fact of fact and creates a necessity for a bold, united and decided stand on the part of the Kamloops. There is no evidence to show that the aged parents of our departed sister. The Doctor's is in streaks of silver at broad daylight. The Doctor and Mr. S. of this place have Dr. and Mr. S. of this place. The last meeting of Hillsdale Pomona Grange, No. 10, held at the Grange Hall in Jonsville, a special committee to present at the meeting. The installation of officers will occur at Boulton Hall at 10 o'clock A. M.

LITCHFIELD, March 10.

Dear Bro. Cobb:

The next regular meeting of Oakland Pomona Grange, No. 5, Patrons of Husbandry, will be held at Jericho on Wednesday the second day of April and I earnestly solicit all its members to be present at the same place. Bro. Mason of Chicago and Bros. Franklin of Fitchburg are expected to be present.

GAYLORD COTTON, Master.

THE REAPER, DEATH.

WHITE.—Death has again entered our circle of acquaintance. The reaper of the grain, by the reaper was not a passing offering to our Granges, but has left its impress on the minds of all who have been associated with or who has clear and lucid exposition of the duties of a Patron's official. Keep accounts with members, . . . . . . 10
