The Grange Visitor, published in the first week of every month.

At FIFTY CENTS PER ANNUM, invariably is Addressed.

J. T. COBB, Editor and Manager.

To whom all communications should be addressed, at..."
For this great work of educating and systematizing the work, to make it useful and beneficial to the members, and at the same time, to place the Order on a permanent basis, we have, by the Constitution of the Order, provided for General and Subordinate Granges, fresh from their fields of operations, to be an essential part of the system. The General and Subordinate Granges, proved to be of immense value in the field of agriculture, have been so organized and conducted as to produce a uniform and practical work among the farmers of the country.

For the purpose of protecting the farmers against the exorbitant prices which have been charged for farm produce, and to prevent the waste of the wealth of a country, we have established the Order of the Patrons of Husbandry, to protect the farmers and their families from the influence of politics, and to make it serve the purpose of the public. The Order of the Patrons of Husbandry, in its ranks, is the embodiment of the great principles that are dear to the heart of every true farmer, and its success and perpetuity are dependent on the faithful and devoted service of its members.

The Order of the Patrons of Husbandry, which was founded in 1867, has now become the most powerful organization in the United States, and is one of the most important political parties. The Order has grown and extended its influence until it now numbers more than one million members, and is represented in all the States of the Union. It is the most powerful political party in the country, and is recognized as one of the most important political parties in the world.

The Order of the Patrons of Husbandry is not only the most powerful political party in the country, but it is also the most powerful political party in the world. It has more members than any other political party, and it occupies a position of great importance in the political life of the country. The Order of the Patrons of Husbandry is not only the most powerful political party in the country, but it is also the most powerful political party in the world. It has more members than any other political party, and it occupies a position of great importance in the political life of the country.
PUBLIC SPEAKING.

It is the most astounding of all the facts of the times that public speaking, in every country of the world, is being taught more and more, and that, in every society, there is a movement toward the establishment of schools for the instruction of young people in the art of public speaking.

In the United States, the movement is being led by the National Grange, an organization of farmers, which has established a system of schools for the training of young people in the art of public speaking.

The National Grange is a voluntary organization of farmers, which has for its purpose the promotion of agricultural interests and the betterment of the social and economic conditions of farmers.

The National Grange has established a system of schools for the training of young people in the art of public speaking, which is being carried on in all parts of the country.

The schools are conducted by a corps of instructors, who are trained in the art of public speaking and who are specially qualified to teach this subject.

The National Grange is making great strides in the establishment of schools for the training of young people in the art of public speaking, and is doing much to promote the betterment of the social and economic conditions of farmers.

The National Grange is making great strides in the establishment of schools for the training of young people in the art of public speaking, and is doing much to promote the betterment of the social and economic conditions of farmers.
THE RAILROAD COMMISSIONER'S REPORT.

We find an article in the annual report of Hon. B. W. Williams, Commissioner of Railroads of this State. It is a document of nearly 300 pages, containing several statements of everything connected with railroad matters, much of which has been already published in the columns of the Visi"tor, and in this number we have given a careful examination of the same, and we believe that the general reader will find here a clear and concise summary of the various topics handled, and a comprehensive analysis of the whole subject.

We do not pretend to be able to do justice to this important subject in a few lines, but we think that the Commissioners report will be found most interesting and instructive to our readers, and here is the proof:

"We have a couple of communications, of a political character, which the State is about to accept, and which will be published in a subsequent number. We believe that the public will be interested in hearing the news of the day, and that the Commissioners report will be found most interesting and instructive to our readers."

THE VISITOR has been persistent in pressing upon the attention of our readers the importance of attending to their own bridgework, and of taking the proper steps to secure the safety of their property.

"We have a couple of communications, of a political character, which the State is about to accept, and which will be published in a subsequent number. We believe that the public will be interested in hearing the news of the day, and that the Commissioners report will be found most interesting and instructive to our readers."

Dedication had over 50 members, all poor Grange of only 17 members, that of their own. The beginning of a Grange needs to raise in money will pay up back dues by work upon but little out for a Grange in most.

The time is approaching, almost at the last moment, for farmers, and with judicious management, it defends and advocates the interests of farmers, and with judicious management, it defends and advocates the interests of farmers.

It is up to us to make the heading paper in the State for farmers because they defend and advocates the interests of farmers at present.

It is evident also, I think, from the speeches of Mr. Chapman, Mr. Davis, Mr. Burrington and Perry, members of the Order, for the past year, that questions of great importance and value, not only here but throughout the State, have been considered in the VISITOR.

The wrong and injustice done to the laboring people and taxpayers by the oppression of bad laws on the one hand, and the wrong and injustice done to the same class for the want of organization in opposition to the other, and the tendency to continue such abuses as may exist, to this point, and relying on the power of numbers, convince every person not pred- jocers of the just position of the laboring people.

It is evident also, I think, from the speeches of Mr. Chapman, Mr. Davis, Mr. Burrington and Perry, members of the Order, for the past year, that questions of great importance and value, not only here but throughout the State, have been considered in the VISITOR.

We have mentioned that this exhibition was in the hall of Chestertown Grange. This hall is new, uniformly venetian blinds, and windows are very neat, and credit, and they are to be congratulated is providing a Grange house. When completed and formally dedicated, a hall which we are proud of in every respect, and we can only say it is a truly beautiful structure. The proper and ante-rooms will be above, and a bannquet and store room will be added to the present hall, which is very happy to learn, is building a suitable building for a hall. The Wood- 
dman Grange house for a hall also. Devereux, brothers and sisters, and the Grange Order by giving it fixed and commodious 
place of shows. At 2 p.m., the people assembled at the side of the building were assigned to rooms. We were pleased with so large an audience, who gave an attentive ear to our instructions. Two handbills gave notice for the (ocean) Day of the dedication of Van Buren Pomona Grange, followed us with some well chosen re- ections. Bro. S. S. Stout, we learn that there were spected, except the members of the Or- der present, who attended at 5:30 p.m. (as by request from an exhibition room), to have a seat in a large and attentive audience, in which we endeavored to give instruction upon the purposes of the Order.

THE GALE OF 1880

A dispatch informs us of our nomination for those who have been absent.

THE GRANGE VISITOR.
THE GRANGE VISITOR.

A letter has reached us which you have passed to be dormant during the past year, by re-organization. Hence, when the day breaks, let it be the dawn of a new era. We shall be ready to work, and will be represented this winter, in every section of the District, whether there are Granges there or not, and call the attention of the officers to the necessity of preparing for the new year with all the energy and zeal of the present.

This may improve the order of the Government next year than in any previous year. The old-fashioned man, who has let things pass by, will have to realize the importance of all the coming years.

The Call.

The people have read and talked of the meeting to be held at Traverse City, and many of them will be present. It is not too late for you to join the Grange at this meeting, and in the future as well.

We have made arrangements for the meeting, and all are invited to attend.

The Program.

We have prepared a program for the meeting, which will be held on November 20th, with the following officers duly elected and in attendance:

- J. F. Muller, Master
- J. F. J. Overmeer, Overseer
- Wm. W. North, Lecturer
- R. P. Bardwell, President
- H. Williams, Asst. President
- E. Bartlett, John F. Muir, H. Brad-...
HUSBANDS OF SICKLY WIVES; 
MOTHERS OF DROOPING DAUGHTERS!
