ANGORA GOAT
(Capra Angorensis)
GRIND
YOUR COFFEE
AT HOME.

It will pay you well to keep a
small coffee-mill in your kitchen
and grind your coffee just as
you use it, one mess at a time.
Coffee should not be ground
until the coffee-pot is ready to
receive it. Coffee will lose more
of its strength and aroma in one
hour after being ground than
in six months before being
ground. So long as
ARIOSA
remains in the whole berry, our
glazing, composed of choice
eggs and pure confectioners’ A
sugar, closes the pores of the
coffee, and thereby are retained
all the original strength and
aroma.

ARIOSA COFFEE
has during 25 years set the
standard for all other roasted
coffees. So true is this that
other manufacturers, in recom-
mending their goods, have
known no higher praise than
to say, “It’s just as good as
Arbuckles”.

ARBUCKLE BROS.
Coffee Company,
NEW YORK CITY.

EXPLANATORY.
The series of cards to which
this one belongs consists of 50,
each card of which shows a true
picture (drawn and colored by
an eminent artist) of one of the
most interesting specimens of
the animal kingdom, and giving
the classical appellation, to-
gether with the English name, of
each animal portrayed. Every
package of Arbuckle’s Coffee
contains either one of these
cards, or one of our series of 50
National Geographical cards, an
equal number of which are used
in conjunction with the Zoologi-
cal cards—both series being so
distributed that every pound
package, in each 100 pound case,
contains a card different from
those contained in all the other
packages. Teachers and par-
ents unanimously agree in de-
claring our cards to be the best
conceived and executed object
lessons for young people.
