CONSERVATION RECIPES
of
FLAVOR

Giving a wide variety of economical ways in which canned fruits and vegetables may be used to make the every-day menu more appetizing as well as patriotic.

PUBLICATION NO. 610
We want no person in the United States to eat less than is required for good health and full strength, for in this emergency America requires every atom of the productive power of our people. While many can eat less, all of our population can substitute other foodstuffs for the few that are vitally needed for export.

To the Housewives of America

This book has been prepared to help you meet the new conditions and the new responsibilities that the war has thrust upon every home in the land. Primarily it is intended to offer a wider variety of ways for improving the conservation menu—making it more appetizing—more healthful—more truly sustaining—as well as patriotic.

But it is hoped that its influence may be far more lasting than our present need for conservation. For the many thrifty suggestions and simple recipes contained herein should prove of permanent value to every woman who is interested in serving delicious, wholesome foods at economical cost.

What Food Conservation Really Means

On you, the housewives of America, has fallen the duty of changing the eating habits of the nation. It is you who must save the wheat, meat, sugar and fats still needed for our allies and our soldiers abroad.

But you must do even more than that.

To maintain in health and efficiency the workers at home, you must still find substitutes for these very staples of life, that shall be equally wholesome, nutritious and satisfying in flavor.

This is no simple undertaking.

No one can appreciate the difficulties of the problem so well as you who have to solve them daily in your own kitchens.

How to serve conservation foods, day in and day out, that are both patriotic and economical—that sacrifice nothing of food value, flavor or delicacy—and that do not become monotonous through too frequent repetition, is indeed a task to tax the ingenuity of the most resourceful and accomplished housewife.
Canned Goods—The Ideal Conservation Foods

DEL MONTE Canned Fruits, Vegetables and other Food Products are ideally adapted to aid you in meeting these trying new culinary requirements.

Preserving, as they do, the abundance of summer's most fruitful months for use at any season of the year, DEL MONTE Products are conservative foods in the truest sense of the word.

But more than that, they are the kind of conservation foods that it is a pleasure to serve at all times and on all occasions. DEL MONTE Products are not substitutes for something you would rather use, but the same delightful foods that you have always enjoyed and which you may now serve more freely than ever before to add delightful flavor and healthful properties to the menu that has become restricted in certain directions by the needs of the time.

The more frequent service of these delicious foods at this time enables the patriotic housewife to conserve other needed foods in the most agreeable and satisfying manner to her family.

The Food Administration Recommends Canned Fruits and Vegetables as Conservation Foods

In many of its Bulletins to the Housewife, the Food Administration has laid great stress on the use of fruits and vegetables in the conservation diet.

In U. S. Food Administration's leaflet No. 7 entitled "Food for Your Children," the following recommendation is made:

"Give your children clean, wholesome, simply cooked food—plenty of milk, cereals, vegetables, fruit . . . Fruit they enjoy, and they need it, too. Give them vegetables fresh or canned . . . Between meals let them have bread and butter, a cracker or fruit."

In U. S. Food Administration's leaflet No. 15 entitled "Save Sugar—Use Other Sweets" the statement is made that
"By using fruit for dessert instead of rich pies and puddings, you will conserve wheat, flour and fats as well as sugar. Besides, the fruits are more wholesome and often less expensive."

U. S. Food Administration's leaflet No. 4 advises the following:

"Fruits and vegetables furnish some of the material from which the body is made, and keep its many parts working smoothly."

A similar commendation is also made in U. S. Food leaflet No. 1, which says:

"Use fruit. Fruit helps to keep your body in good health."

And in leaflet No. 9, entitled "Vegetables for Winter"

"Everybody needs them—grown people and children, too. Don't stop using them in winter, even if they are harder to get than in summer. Doctors say that the tired out feeling at the end of winter—'Spring Fever'—often comes from a lack of fruits and vegetables in the winter diet. Keep the family well and make their meals pleasanter by using vegetables. Give them to children especially.

. . . . . . The salts or 'mineral matter' that vegetables contain is one of your chief helps in keeping your body strong and well. In every part of your body there are salts somewhat like table salt, but of many kinds—iron, lime and others. Your body won't work smoothly unless it has plenty of these salts, and the children can't build strong bodies without them. You must get them from your food. Vegetables and fruit are rich in them. Eat a variety so as to be sure to get all the kinds of salts you need."

How Canned Fruits and Vegetables Help to Save Wheat, Meat, Sugar, Fats and Fuel

The foregoing quotations from government bulletins prove conclusively the value of fruits and vegetables in the conservation menu, both from a health as well as a flavor standpoint. They also indicate some ways in which these highly important foods may be used to save wheat, meat, sugar and fats. The recipes and suggestions contained herein give a great variety of ways in which this can be done.

While fresh fruits and vegetables are obtainable at reasonable prices only for limited periods in certain seasons of the
year, canned fruits and vegetables make it possible for you to serve these delicious and healthful conservation foods at economical cost at any season of the year.

All of the recipes in this book are true conservation recipes—simple, economical, easy to make and conforming strictly to the requirements of the Food Administration—designed to save meat, wheat, sugar, fats and fuel, and at the same time to keep the menu healthful and appetizing in the highest degree.

Our aim in compiling this book has not been to develop new and elaborate uses for canned fruits and vegetables, but rather to collect and classify better and more practical recipes for each variety, for the housewife's ready reference and assistance in planning her daily menu to meet the urgent needs of the time.
What You Ought to Know About Canned Foods in General and DEL MONTE Products in Particular

O USE canned food products intelligently, economically and to the best advantage, every housewife should know something of the processes involved in their commercial production. Canning is the method by which food is preserved. In its highest development it is the preservation of food in as nearly its natural condition as possible, or in the condition in which it is generally used.

This is accomplished solely through the use of that great natural sterilizing agent—heat—and heat alone. There are no artificial preservatives of any kind needed or used in canning fruits and vegetables. Each product is processed, hermetically sealed in cans and then heated to the temperature and for the time required to secure perfect sterilization for each individual variety. This simplicity of method makes canning at once the safest, cheapest and most successful way to keep food in perfect condition until it is needed.

In principle there is no real difference between home and commercial canning. But the large canner has in reality many advantages over the housewife, all of which make for greater certainty of results and uniformity of quality. His first-hand choice of raw materials, his equipment for handling them in large quantities by special machinery, his accurate devices for grading as to size and quality, his standardized methods of processing, canning and sterilizing, as well as his exacting sanitary precautions in the handling and packing of each product, all give him an immeasurable advantage over the woman in the kitchen.

Quality in canned foods really begins with the production of the material—in the proper selection of variety and seed and in exercising a supervision and control over every stage...
in the growth, cultivation, harvest and delivery of the fresh fruits and vegetables to the canning kitchens.

The raw product must be of first class quality in every respect, uniform in size and development, and at just the proper stage of ripeness or maturity, to secure the best results.

And after it is delivered, it must be carefully graded both for quality and size. In canning eternal vigilance is the price of quality, and only long experience equips men to select that which is suitable and reject that which is unfit.

**Why DEL MONTE Quality is Highest Quality**

The DEL MONTE ideal of quality in canned foods traces its origin to the early days of California.

Long before the transcontinental railway was built—when settlers were still making their way slowly across the country in prairie schooners or sailing 'round the Horn—the founders of the DEL MONTE business were already in California, canning and preserving the golden harvests of its most fertile valleys.

*They were the first in the field.*

They began as pioneers—in a new land and in a comparatively new industry—with very little capital but with a big ideal—an ideal, which, backed by the determined spirit of '49, has revolutionized the canning business and given the whole world better things to eat.

That ideal was to can the finest fruits and vegetables grown, and so to perfect the processes of canning that the finished product should retain its full natural flavor and freshness.

They believed that the way to secure the finest fruits and vegetables was to locate their canneries in those sections where soil and climate combined to produce Nature's best. And they believed further that, to preserve that natural goodness at its best, the ripe fruits should be “packed where they ripen the day they are picked.”
That was the principle upon which the DEL MONTE business was started nearly 60 years ago. And that is the principle upon which it has grown and developed until today the California Packing Corporation is the largest canner of fruits and vegetables in existence and DEL MONTE Quality is recognized the world over as the standard of excellence in foods.

**A Far Search for DEL MONTE Flavor**

Fine flavor in fruits and vegetables is what "good breeding" is in people. One is just as much a matter of careful cultivation as the other. Both are developed only under the most favorable environment.

That explains why DEL MONTE'S 89 model canneries are situated in the most favored spots of Nature—each location selected for its special fitness to produce certain products of finer flavor and finer quality than can be grown anywhere else.

It explains further why the California Packing Corporation owns and operates thousands of acres of the most highly developed orchards and gardens in these favored sections—why the specialists who prepare DEL MONTE Products have spent their lives in improving old varieties and propagating new ones to perfect DEL MONTE Quality—why, in short, they devote their most vigilant attention to every stage in the growth, harvest and preparation of DEL MONTE Products, from the planting of the seed until the perfectly flavored fruits and vegetables are ready to be served on your table.

Please do not confuse the delicious flavor of DEL MONTE California Canned Fruits with some varieties of fresh California fruit, which are necessarily picked green and allowed to ripen on their long journey to market. For DEL MONTE Fruits are always matured and sun-ripened on the tree. And they retain all the fine flavor and delicate bouquet that kindest Nature can impart, because they are "packed where they ripen the day they are picked."
That is why you will find DEL MONTE model kitchens in the richest pineapple-growing sections of far-off Hawaii—in the fertile California delta lands of the Sacramento river where grows the world’s finest asparagus—in the finest peach orchards of the San Joaquin valley—among the famous apricot and prune orchards of the Santa Clara valley—in the raisin vineyards of Fresno—in Alaska, from whose cold, northern waters the choicest salmon are caught—as well as in all the other widely scattered locations where each particular variety develops its finest flavor and form.

And it is the same with DEL MONTE pears, plums, berries, cherries, grapes, beans, peas, tomatoes and all the other delicious varieties included in the DEL MONTE line. All are grown where they attain their finest flavors. In each is that delicious flavor preserved intact.

**The DEL MONTE Label Your Guarantee of Quality**

It is this strict adherence to an ideal established years ago, this painstaking attention to every detail in the preparation of the long line of DEL MONTE Products, that make the red DEL MONTE shield on the green can your absolute guarantee of finest quality in canned fruits, vegetables and other food products.

That is why America’s millions of discriminating women are careful to specify DEL MONTE when they order canned foods from their grocers, and why so many grocers take pains to recommend DEL MONTE to their customers who want the best.

**Recognition**

In competition with leading brands from all parts of the world, DEL MONTE Products have received highest awards and diplomas at the world’s greatest expositions, both at home and abroad, including the following: 1904 at the Louisiana Purchase Exposition, St. Louis, Missouri; 1906 at the Exposition Internationale d’Hygiène, Paris, France; 1909, Golden West Exposition, Earl’s Court, London, England; 1911, Esposizione Internazionale della Industrie e del Lavaro, Turin, Italy; 1915, Panama California Exposition, San Diego, California; and 1915, Panama-Pacific International Exposition, San Francisco, California.
Measurements and Sizes of Containers

Measurements and quantities of fruits and vegetables have been specified herein as 1 cup, ½ cup, etc., rather than 1 can, ½ can, etc. It might be well to say, however, that in preparing these recipes the generally recognized standard can of each particular variety has been used.

In most fruits, the No. 2½ can is the customary size found on the grocers’ shelves; likewise, for such vegetables as tomatoes, pumpkins, etc. Such varieties as string beans, peas, corn, etc., are ordinarily and commonly sold in what is known as the No. 2 can. With proper judgment there should be no difficulty in preparing these recipes regardless of the size of can used if instructions are followed as to the measurements specified in the recipes.

A word or two on the sizes of containers, however, may be of assistance to the housewife in purchasing canned products intelligently.

The most important containers in which DEL MONTE Canned Fruits are packed are No. 2½, No. 2 and No. 1 Tall size cans.

The fruit in such varieties as Apricots, Peaches, Pears and Plums is graded for size, the large fruit being packed in
No. 2½ cans, medium size fruit in No. 2, and fruit a trifle smaller in No. 1 Tall. This grading for size does not affect the quality in the slightest degree, for, as a matter of fact, the smaller and medium sized fruit, when selected for quality and fully tree-ripened, as DEL MONTE is packed, is just as delicious as the larger size fruit which goes into No. 2½ cans.

The sizes of cans most customary in packing vegetables are the No. 2½ and the No. 2 round cans. Asparagus is largely packed in square cans, the long spears in No. 2½ and the short spears or tips in the No. 1 can. There are various styles of smaller containers used for such varieties as Tomato Sauce, Green Chile Peppers, Pimientos, etc., which the consumer soon becomes acquainted with and accustomed to, when purchasing such commodities.

The net contents will always be found specified on the labels. There is some variation, according to the variety of the product, but generally speaking the No. 2½ round can, shown above, will contain from 27 to 30 ounces net; the No. 2, from 18 to 20 ounces and the No. 1 Tall about 15 ounces.

**General Directions**

Level measurements should be used in all the recipes contained herein. Each recipe is large enough to serve six moderate-sized portions.

The sirup from DEL MONTE Canned Fruits may be used as sauce for puddings, fritters and pancakes; it is delicious in fruit punches and lemonade; it may be substituted for the liquid in frostings and icings and will conserve a portion of the sugar; it may be frozen for a sherbet, or heated and poured over ice cream for additional flavor. It may also be used in place of vinegar in French salad dressing to be served on a fruit salad.

The liquid from DEL MONTE Canned Vegetables should never be thrown away. It may be used as the basis for soups, as the liquid in cream or white sauce, and it will give additional flavor to all meat and vegetable stews.
As this liquid is rich in mineral salts it should always be utilized. By its use with the vegetables or in one of the ways mentioned above the full food value of the vegetable is retained.

All bread crusts and stale pieces of bread should be saved, dried, and put through the meat chopper to make crumbs.

Stiffly beaten egg whites should be combined with other ingredients by folding in with a cutting motion and not a stirring motion. The air which has been beaten into the egg white is thus prevented from escaping.

Gelatin should be softened in a small amount of cold water before it is dissolved in boiling water. Use in the proportion of $\frac{1}{2}$ cup of cold water for 1 envelope of gelatin.

White sauce or cream sauce should be smooth and creamy and free from lumps. To prepare it so that it meets all these requirements the following method has been found to be uniformly successful:

Melt the fat, or heat it, if a liquid fat is used. Remove from the fire and add the dry ingredients which consist of cornstarch or Victory flour, or any of the substitute flours, and the seasonings. When these are thoroughly mixed with the fat, add the cold liquid which may be milk or stock or water or a combination of two or of the three. Return to the fire and stir constantly until the boiling point is reached. Then if it is not to be used at once put in a double boiler to keep hot until ready to serve. The following proportions may be used for the two grades of sauce:

**Thin White Sauce (1 Cup)**

- $\frac{1}{2}$ tablespoon of fat
- 1 tablespoon of Victory flour or cornstarch
- $\frac{3}{4}$ teaspoon of salt
- $\frac{3}{8}$ teaspoon of pepper
- 1 cup of liquid

**Thick White Sauce (1 Cup)**

- 1 tablespoon of fat
- 2 tablespoons of Victory flour or cornstarch
- $\frac{3}{4}$ teaspoon of salt
- $\frac{3}{8}$ teaspoon of pepper
- 1 cup of liquid
Mayonnaise Salad Dressing

Beat an egg yolk until it is light, add 1 tablespoon of lemon juice or vinegar, \(\frac{1}{4}\) teaspoon each of salt, mustard and paprika. Measure \(\frac{1}{2}\) cup of olive or salad oil and add a tablespoon at a time, beating constantly with a Dover egg beater. To increase the quantity a stiffly beaten egg white may be folded into the dressing just before it is served.

Any salad recipe calling for mayonnaise may be served with cooked salad dressing instead, if desired.

Tartar Sauce

Add 1 tablespoon each of chopped pimiento, chopped sweet pickle and chili sauce or catsup to mayonnaise.

French Dressing

Measure 2 tablespoons of powdered sugar or corn sirup, \(\frac{1}{2}\) teaspoon of salt and \(\frac{1}{4}\) teaspoon of paprika into a bowl. Add 2 tablespoons of vinegar and stir or beat until thoroughly mixed. Then add 4 tablespoons of olive or salad oil and, if desired, 1 tablespoon of Worcestershire sauce. Mix thoroughly by stirring or beating. French dressing should always be prepared just before it is served.

Cheese Dressing

Add 2 tablespoons of Roquefort, or grated dairy cheese, to French dressing.
DEL MONTE Canned Apricots

The apricot is said to have originated in Armenia. Today it is grown to a greater extent in California than anywhere else in the world, but even here only certain favored districts produce apricots of the high quality packed under the DEL MONTE Brand. DEL MONTE Apricots are the choicest fruit of California’s finest orchards brought to you with all their exquisite tree-ripened flavor. Packed in three sizes of tins, No. 1 tall, No. 2 and No. 2 1/2. Size of can referred to in the following recipes is the No. 2 1/2.

Apricot Suggestions and Recipes

Serve DEL MONTE Canned Apricots as a breakfast fruit with bacon and eggs.

To extend the mayonnaise for lettuce sandwiches, add apricots pressed through a strainer.

Serve apricots, sliced, on buckwheat cakes to conserve sugar and add health to the winter menu.

Get the old people in the family into the habit of eating a dish of apricots for breakfast to keep their digestive tracts in good order.

Try apricots and sliced pimientos on lettuce with French dressing for a fruit salad.

Serve apricots with the luncheon souffle in place of salad. The nutritive value is almost as great and they combine equally well with meat or cheese.

Stir 2 tablespoons of pulp from canned apricots into a glass of milk for a nourishing and sustaining drink.

Pulp from canned apricots added to a baked or steamed custard will make it more nourishing for the children.

Press apricots through a strainer and freeze for an easy hot weather dessert.

Freeze the junket and serve with apricots.

Apricot jelly made with the sirup from canned apricots and gelatin with no additional sweetening, served on lettuce with mayonnaise, makes an attractive and delicious salad.

Serve breakfast sausages on halves of apricots. They add a distinctive flavor to the sausages, and are surprisingly good.

A few apricots cut in pieces and added to the stuffing for fowls give an unusual and delicious flavor.
Because of their tart flavor, apricots may be served with game in place of a jelly or sauce.

Try the pulp from canned apricots in place of apple sauce in your next conservation cake.

Mix equal parts of catsup and pulp from canned apricots for sauce for a fish cocktail.

Slice some apricots into the next aspic with the meat. They will impart a delicate tart taste.

Put pulp from canned apricots in your rolled pancakes and serve with hot sirup from the apricots instead of sugar.

Baste baked bananas with the sirup from canned apricots for added flavor and to conserve sugar.

Delicious and nourishing sandwiches may be made by spreading brown bread with cottage or cream cheese to which enough pulp from canned apricots has been added to make it spread easily.

As a filling for tarts, use equal parts of chopped apricots and chopped raisins.

With chicken or rabbit, apricots may be served instead of jelly. Or, add ½ cup of finely chopped walnuts to a dish of pulp from canned apricots to make a conserve.

Stew the juice and grated rind of an orange, a little vinegar, spices, and a few apricots, to make a delicious relish for serving with fish.

**BAKED APRICOT PUDDING**—Mix ¾ cup (½ can) of DEL MONTE Canned Apricots, sliced, with twice as much soft crumbs. Pour into a greased baking dish, sprinkle with brown sugar, dot with butter substitute, pour over ½ cup of sirup from the apricots and ¼ cup of boiling water, bake 35 minutes, and serve plain or with hot sirup from the apricots.

**APRICOT BREAD PUDDING**—Soak 1½ cups of stale bread crumbs and ½ cup of coconut in 1½ cups of hot milk. Add ½ teaspoon of salt, 2 tablespoons of sugar or corn sirup, and 1 beaten egg. Put a half of a DEL MONTE Canned Apricot in each of 6 individual molds, fill with pudding mixture, and steam until firm. Serve with hot sirup from the apricots.

**APRICOT INDIAN PUDDING**—Cook ¾ cup of corn meal and 2 cups of milk in a double boiler 20 minutes, add ½ teaspoon each of salt and ginger, and 2 tablespoons of molasses. Pour into a greased pudding dish, put into a slow oven, and after 20 minutes of baking add ¾ cup (½ can) of DEL MONTE Canned Apricots cut in pieces, and bake 45 minutes longer.
APRICOT CHARLOTTE RUSSE—Arrange circles of stale cake in a greased baking dish. Mix 1 well beaten egg white with 1 tablespoon of sugar or corn sirup and \( \frac{1}{2} \) cup of DEL MONTE Canned Apricots pressed through a strainer. Heap egg mixture on circles of cake, sprinkle with coconut, and bake in a slow oven until delicate brown. Serve with a custard sauce made from the egg yolk and 1 cup of sirup from the apricots.

APRICOT CEREAL PUDDING—Make 1\( \frac{1}{2} \) cups of mush of hominy grits, add \( \frac{3}{4} \) cup (\( \frac{1}{2} \) can) of DEL MONTE Canned Apricots, \( \frac{1}{2} \) teaspoon each of salt and cinnamon, 1 egg, and \( \frac{1}{2} \) cup of sirup from the apricots. Pour into a greased pudding dish and bake in a slow oven 30 minutes.

APRICOT CUSTARD—Make a custard using 2 egg yolks, 2 cups of milk and \( \frac{1}{4} \) teaspoon each of salt and nutmeg. Cool and add \( \frac{3}{4} \) cup (\( \frac{1}{2} \) can) of DEL MONTE Canned Apricots pressed through a strainer. Pour into a serving dish and cover with a meringue of 2 stiffly beaten egg whites and 2 tablespoons of sirup from the apricots.

APRICOT WHIP—Drain 1 cup of DEL MONTE Canned Apricots and press through a strainer, fold in 2 stiffly beaten egg whites, pour into a serving dish, and chill. Serve with a custard sauce made from the egg yolks, \( \frac{3}{4} \) cup of milk, and \( \frac{1}{4} \) cup of sirup from the apricots.

FROZEN APRICOTS—Rub \( \frac{3}{4} \) cup (\( \frac{1}{2} \) can) of DEL MONTE Canned Apricots through the strainer. Cook 1 cup of sirup from the apricots, 1\( \frac{1}{2} \) cups of water, and \( \frac{1}{2} \) cup of sugar or corn sirup 5 minutes. Add apricots and freeze.

APRICOT COUPE—Cut \( \frac{3}{4} \) cup (\( \frac{1}{2} \) can) of DEL MONTE Canned Apricots in small pieces, boil down the sirup from 1 can of apricots until there is but \( \frac{1}{3} \) cup, add, and chill. After filling sherbet glasses with vanilla ice cream pour over apricot mixture.

CEREAL CHOPS—Make a stiff mush out of 1\( \frac{1}{2} \) cups of boiling, salted water and \( \frac{3}{4} \) cup of oatmeal. Pour into a wet loaf pan and cool. Cut in thick slices, roll in crumbs, and brown in a frying pan. Arrange on a hot platter, surround with DEL MONTE Canned Apricots, and serve with the hot sirup from the canned apricots.

APRICOTS WITH SCRAMBLED EGGS—Beat 5 eggs slightly, add \( \frac{1}{2} \) cup of the sirup from DEL MONTE Canned Apricots, 1 teaspoon of salt, and \( \frac{1}{6} \) teaspoon of pepper, and pour into a hot frying pan in which 1 tablespoon of fat has been melted. Cook over low fire, stirring constantly until mixture is creamy. Pour over toast and put a half apricot on each serving.
DEL MONTE Canned Berries

Strawberries - Blackberries - Loganberries

From the vine to the can in the shortest possible time is our invariable policy in packing DEL MONTE Berries. Only those varieties best adapted to canning are used. All are hand-picked and graded, and packed at the height of the season, when size and flavor have reached their maximum. We are the original packers of loganberries, which have come to be so highly appreciated by discriminating buyers. DEL MONTE Berries are sold in No. 1 tall and No. 2 cans. The No. 2 size is referred to in the recipes which follow.

Berry Suggestions and Recipes

Mash a few DEL MONTE Canned Strawberries, mix with a mild cream cheese and a little mayonnaise, and use for a sandwich filling.

Strawberries may be frozen just as they come from the can with the addition of the juice of 1 lemon, for a delicious and easy dessert.

Serve the blanc mange with strawberries over it in place of pudding sauce or sugar and cream.

Canned strawberries, when used for a shortcake, turn winter into summer.

Make the breakfast food the day before, and let it stand in molds over night. Serve with strawberries instead of cream and sugar.

Conservation muffins may take the place of shortcake when served with strawberries over them.

Canned strawberries poured over any frozen fruit make a delicious addition.

Transform any humble everyday pudding, hot or cold, by serving with strawberries.

The sirup from canned strawberries from which the fruit has been used, makes a splendid addition to lemonade.

The sirup from canned blackberries, lemon juice, and ice water make a refreshing temperance punch for hot summer days.

For a simple Charlotte Russe, place slices of stale cake around the edge of a serving dish, pile blackberries in the center, and heap whipped cream over the top.
Add 1 cup of blackberries, drained, to any recipe for cottage pudding, and serve with the sirup from the blackberries as a pudding sauce.

Serve blackberries, hot, on waffles, for a delicious luncheon dish.

Use equal parts of sirup from canned blackberries and corn sirup in place of sugar in boiled frosting.

Use canned blackberries for a delicious combination with banana ice cream.

Fill a sherbet glass \( \frac{2}{3} \) full of orange or lemon jelly. Put canned blackberries over this for a surprisingly good dessert.

Blackberries, heated, make a splendid sauce for old fashioned Indian pudding.

Use blackberries for conservation tarts. They tempt the boy from six to sixty.

Try sirup from canned loganberries in cheese salad dressing in place of vinegar.

Equal parts of sirup from canned loganberries and corn sirup, thickened with cornstarch, make a good hot pudding sauce.

Add 1 cup of loganberries to your favorite muffin recipe for flavor and variety.

Cut hot corn bread in squares and serve with loganberries for a nursery dessert.

Serve conservation steamed dumplings with loganberries for a welcome winter dessert.

Spread wafers with cream cheese and drop a few loganberries on top, to serve with afternoon tea.

Loganberries and puffed rice make a splendid breakfast dish or a simple and pleasing dessert for the children.

**Strawberry Compote**—Cook 1 cup each of sirup from DEL MONTE Canned Strawberries and corn sirup until it spins a thread, add the juice of 1 lemon and \( \frac{1}{2} \) cup (\( \frac{1}{2} \) can) of the berries, drained. Heap 2 cups of boiled rice in the center of a serving dish and pour strawberry mixture over it.

**Strawberry Pudding**—Mix 6 tablespoons of cornstarch with \( \frac{1}{2} \) cup of sirup from DEL MONTE Canned Strawberries and 2 tablespoons of corn sirup. Add to 2 cups of hot water and cook in the double boiler until clear. Add the juice of 1 lemon and pour into individual wet molds. When firm serve with as many of the berries as desired.
FROZEN STRAWBERRIES—Mix 1 can of DEL MONTE Canned Strawberries, ¼ cup of corn sirup, the juice of 1 lemon, and freeze.

CREME A LA FRAISE—Dissolve 2 tablespoons of softened gelatin in ¼ cup each of boiling water and boiling sirup from DEL MONTE Canned Strawberries. Set aside until slightly thickened. Add 1 unbeaten egg white to 1 cup of thin cream and beat until thick. Fold into the thickened strawberry mixture, add ¾ cup (½ can) of the berries, drained, pour into a serving dish and chill.

STEAMED BLACKBERRY PUDDING—Mix 1½ cups of crumbs, 2 teaspoons of baking powder, ½ teaspoon each of salt and cinnamon, ¾ cup (½ can) of DEL MONTE Canned Blackberries, drained, ½ cup of the sirup, and 1 well beaten egg. Pour into a greased mold and steam for 2 hours. Serve with the remaining sirup heated.

BLACKBERRY BLANC MANGE—Heat 1 cup of sirup from a can of DEL MONTE Canned Blackberries and ¾ cup of water. Moisten 5 tablespoons of cornstarch with ½ cup of cold water, add to the heated mixture and cook in the double boiler until clear and transparent. Pour into serving dish and serve with cream or milk.

BLACKBERRY FROTH—Boil ¾ cup (½ can) of DEL MONTE Canned Blackberries, drained, ½ cup of the sirup, and 1 cup of hot water for 5 minutes. Rub through a strainer onto 1 tablespoon of softened gelatin, stir over hot water until gelatin dissolves and set aside until slightly thickened. Beat until foamy and fold in 1 stiffly beaten egg white and pour into serving dish. When firm serve with a custard sauce made from the egg yolk, 1 tablespoon of corn sirup, ¾ cup of milk, and ¼ teaspoon of vanilla.

LOGANBERRY TAPIOCA—Bring to the boiling point ¾ cup each of water and sirup from DEL MONTE Canned Loganberries with ¼ cup each of corn sirup and minute tapioca, cook in double boiler until clear and transparent. Arrange ¾ cup (½ can) of the berries in a serving dish, pour the tapioca over it and chill.

ENGLISH LOGANBERRY PUDDING—Spread 6 slices of stale bread with butter or butter substitute, place one-half in the bottom of a well greased mold, put ¾ cup (½ can) of DEL MONTE Canned Loganberries in a layer over this and place the remainder of bread on top. Pour 1 cup of the sirup over all, place a weight on top and stand in a cold place for 12 hours. Turn out in a mold and serve with cream if desired.

LOGANBERRIES WITH RICE—Boil ½ cup of rice, 1 cup of boiling water, and ¼ teaspoon of salt for 10 minutes. Add 1 cup of sirup from DEL MONTE Canned Loganberries, and ½ cup of drained berries. Cook in double boiler until rice is tender. Fold in 1 stiffly beaten egg white, chill, and serve with a custard sauce.
DEL MONTE Canned Cherries

Locations for growing cherries must be selected with great care, as the fruit is easily affected by climatic conditions. The superior flavor of DEL MONTE Cherries is due to the care exercised in their growth and preparation. There are three varieties of DEL MONTE Cherries—Royal Anne, Black Tartarian and the White variety, the first being the most popular because of its characteristic flavor and small pit. All our cherries are packed unpitted, as the retention of the pit gives that distinctive flavor which everybody likes. DEL MONTE Cherries are put out in three sizes of tins—No. 1 tall, No. 2 and No. 2½. The No. 2½ is referred to in the recipes following.

Allow 1 egg and 1 tablespoon each of grated cheese and crumbs to each person.
DEL MONTE Canned String Beans

The fresh flavor and tenderness of string beans can only be retained by packing them immediately after picking. A few hours’ standing makes them tough and stringy. DEL MONTE Canned String Beans are always tender, crisp and full flavored because they are packed fresh from the garden in kitchens located right where they are grown. Fresh beans bought on the open market seldom equal DEL MONTE Canned String Beans in delicacy because they usually have to be picked too long in advance of their use. DEL MONTE String Beans are packed whole and cut, ready to use when heated, in No. 2 cans only.
