THE CROWN JEWEL.
King of Base Burners.

OVER 75,000
Have been sold, and we have never had one returned or a complaint made.

REASONS WHY YOU SHOULD BUY THE CROWN JEWEL.
It is the ONLY SYSTEM OF FLUES which secures satisfactory results in an Oven Stove, and the Crown Jewel is the only Stove that will BOIL equally well over either hole, and that WILL BOIL AND BAKE equally well at the same time.

It can be Perfectly Controlled.
The Check Damper has been improved, and under actual tests works perfectly. It is simple, effective and economical.

The Fire Pot Rotates,
Thus avoiding excessive wear in any part, as it can be turned around when desired.

It Never "Leaks Gas."
Its draft is perfect, and when properly put up no escape of deadly gas is possible. Its Magazine is so constructed that all gas accumulating in it is carried into the Stove and consumed.

The Hot Water Attachment
Forms part of the Stove, and evaporation of water may be had at all times, keeping the atmosphere of the room moist, and a supply of hot water ready for constant use.

The Crate has been Improved.
All ashes and clinkers are carried to the center of Fire Pot, and by a slide in Grate may all be dropped into Ash Pan WITHOUT DISTURBING THE FIRE.

The Ash Pan
Is of sheet iron, large and light, and can be easily handled.

Aside from these ESSENTIAL EXCELLENCIES it is the HANDSOMEST STOVE MADE.
WE MAKE THE
CROWN JEWEL

with EITHER SQUARE or ROUND BASE, affording to the dealer and his customer a choice of styles. ITS PROPORTIONS are graceful and satisfy the eye and the taste, and its ORNAMENTATION is elaborate and chaste without being excessive.

Nickel Plated Foot Rails are furnished with all Square Base Stoves, and Foot Rests may be had for any style of Stove desired.

THE MICA ILLUMINATION is large and very handsome. Heat radiates with great rapidity through Mica, and at the same time a bright and cheerful appearance is secured.

It is mounted with the greatest care, and all Stoves are carefully inspected before leaving the Foundry.

In smoothness and durability of castings we are excelled by none.

For further recommendation we refer to any one of the many thousands who use the Stove.

SIZES.

ROUND BASE.
Nickel Foot Rails EXTRA. See List.

All Stoves are made with extended backs, for heating water.
