Diamond G Refined Cocoanut Oils give exceptional satisfaction because they remain sweet and neutral for long periods of time. These oils are immune to rancidity longer than almost any other oil or fat. They are therefore used most successfully in foods requiring fat, where the finished products are not consumed for several months.

Durkee’s Vegetable Cooking and Salad Oils are highly refined and are absolutely neutral and odorless. They can be heated to a very high temperature without smoking or burning. Will not take up the flavors of the foods cooked in them so they can be reused many times in frying different things. Durkee Vegetable Cooking and Salad Oils are, therefore, economical as well as efficient.

Diamond G Hard Cocoanut Butters are made with the following melting points: 84°, 86°, 88°, 90°, 94°, and 98°.
